(Golden Dragon)² and Nacional de Cobre, S.A. de C.V. (Nacobre). On March 23, 2015, we postponed the final results by 60 days, until June 8, 2015.⁴

Scope of the Order

The merchandise subject to the order⁵ is seamless refined copper pipe and tube. The product is currently classified under the Harmonized Tariff Schedule of the United States (HTSUS) subheadings 7407.10.1500, 7419.99.5050, 8415.90.8065, and 8415.90.8085. Changes Since the Preliminary Results

Based on the comments received from interested parties regarding our *Preliminary Results*, we revised our preliminary margin calculations for Golden Dragon. These changes are listed in the Issues and Decision Memorandum. We made no changes to the calculation of Nacobre's weighted-average dumping margin in these final results.

Period of Review

The period of review (POR) is November 1, 2012, through October 31, 2013.

Final Results of the Review

Producer/exporter	Weighted-average dumping margin (percent)
GD Affiliates S. de R.L. de C.V.	0.00
Nacional de Cobre, S.A. de C.V.	0.00

Disclosure

We intend to disclose the calculations performed for Golden Dragon within five days of the date of publication of this notice to parties in this proceeding in accordance with 19 CFR 351.224(b). Because the Nacobre calculations did not change, there is nothing to disclose.

Assessment Rates

The Department shall determine, and CBP shall assess, antidumping duties on all appropriate entries.

Pursuant to the *Final Modification for Reviews*,⁷ because the weighted-average dumping margins for Golden Dragon and Nacobre are zero, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties.⁸

The Department intends to issue assessment instructions to CBP 41 days after the date of publication of these

final results of review, pursuant to 19 CFR 356.8(a).

Cash Deposit Requirements

The following deposit requirements will be effective upon publication of the notice of these final results for all shipments of seamless refined copper pipe and tube from Mexico entered, or withdrawn from warehouse, for consumption on or after the publication date as provided by section 751(a)(2) of the Act: (1) The cash deposit rates for Golden Dragon and Nacobre will be equal to the weighted-average dumping margins established in the final results of this administrative review; (2) for merchandise exported by manufacturers or exporters not covered in this review but covered in a completed prior segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment; (3) if the exporter is not a firm covered in this review, a prior review, or the original investigation but the manufacturer is, the cash deposit rate will be the rate established for the most recently completed segment for the manufacturer of the merchandise; (4) the cash deposit rate for all other manufacturers or exporters will continue to be 26.03 percent, the all-others rate established in the *Amended Final and Order*. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties has occurred and the subsequent assessment of doubled antidumping duties.

Administrative Protective Order

In accordance with 19 CFR 351.305(a)(3), this notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under the APO, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the

regulations and terms of an APO is a violation subject to sanction.

Notification to Interested Parties

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i) of the Act and 19 CFR 351.213(h).

Dated: June 5, 2015.

SUPPLEMENTARY INFORMATION: NIST hosted seven prior Cloud Computing Forum and Workshop events in May 2010, November 2010, April 2011, November 2011, June 2012, January 2013 and March 2014. This year's meeting will focus on the progress the cloud community has made on the 10 requirements provided in the USG Cloud Computing Technology Roadmap (NIST Special Publication 500-293). The NIST Cloud Computing Program (NCCP) published the final version of the Roadmap in October 2014.

Each of the 10 requirements described in the Roadmap comes with a set of Priority Action Plans (PAPs) that are self-tasking for the cloud computing community. Therefore, the NCCP is sponsoring a call for papers that address the Requirements and PAPs found in the Roadmap and welcomes relevant submissions for a talk approximately 15–20 minutes long. Authors of accepted abstracts will be invited to present their work. Additional information may be found at <http://www.nist.gov/itl/cloud/ccfwviii.cfm>.

There will be a single-day parallel meeting on Thursday, July 9 on Cloud Forensics, which will focus on the issues enumerated in the NIST Cloud Computing Forensic Science Challenges (NIST IR 8006, draft). There will also be sessions dedicated to deployments of cloud computing in the government sector (Federal, State, Local) and on Cloud Computing Standards.

The series of workshops was originally organized in response to the request of the U.S. Chief Information Officer that NIST lead federal efforts on standards for data portability, cloud
