### GENERAL SERVICES ADMINISTRATION

### NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[OMB Control No. 9000-0062; Docket 2015-0055; Sequence 2]

#### Submission to OMB for Review; Federal Acquisition Regulation; Material and Workmanship

**AGENCIES:** Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

**ACTION:** Notice of request for public comments regarding an extension to an existing OMB clearance.

**SUMMARY:** Under the provisions of the Paperwork Reduction Act, the Regulatory Secretariat will be submitting to the Office of Management and Budget (OMB) a request to review and approve an extension of a previously approved information collection requirement concerning material and workmanship. A notice was published in the **Federal Register** at 80 FR 8650 on February 18, 2015. No comments were received.

**DATES:** Submit comments on or before July 13, 2015.

**ADDRESSES:** Submit comments identified by Information Collection 9000-0062, Material and Workmanship, by any of the following methods:

- *Regulations.gov:* <http://www.regulations.gov>. Submit comments via the Federal eRulemaking portal by searching the OMB Control number 9000-0062. Select the link "Comment Now" that corresponds with "Information Collection 9000-0062, Material and Workmanship". Follow the instructions provided on the screen. Please include your name, company name (if any), and "Information Collection 9000-0062, Material and

Workmanship" on your attached document.

- *Mail:* General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street NW., Washington, DC 20405. ATTN: Ms. Flowers/IC 9000-0062, Material and Workmanship.

**Instructions:** Please submit comments only and cite Information Collection 9000-0062, Material and Workmanship, in all correspondence related to this collection. All comments received will be posted without change to <http://www.regulations.gov>, including any personal and/or business confidential information provided.

**FOR FURTHER INFORMATION CONTACT:** Mr. Curtis E. Glover, Sr., Procurement Analyst, Federal Acquisition Policy Division, GSA, telephone 202-501-1448, or via email at [curtis.glover@gsa.gov](mailto:curtis.glover@gsa.gov).

#### SUPPLEMENTARY INFORMATION:

##### A. Purpose

Under Federal contracts requiring that equipment (e.g., pumps, fans, generators, chillers, etc.) be installed in a project, the Government must determine that the equipment meets the contract requirements. Therefore, the contractor must submit sufficient data on the particular equipment to allow the Government to analyze the item.

The Government uses the submitted data to determine whether or not the equipment meets the contract requirements in the categories of performance, construction, and durability. This data is placed in the contract file and used during the inspection of the equipment when it arrives on the project and when it is made operable.

##### B. Annual Reporting Burden

The information collection requirement at FAR clause 52.236-5 has increased due to the rounding up of the responses annually from 1.5 to 2.0, as you cannot have .5 of a response per year.

*Respondents:* 3,160.

*Responses Per Respondent:* 2.0.

*Annual Responses:* 6,320.

*Hours Per Response:* .25.

*Total Burden Hours:* 1,580.

##### C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the FAR,

and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

##### *Obtaining Copies of Proposals:*

Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street NW., Washington, DC 20405, telephone 202-501-4755. Please cite OMB Control No. 9000-0062, Material and Workmanship, in all correspondence.

Dated: June 8, 2015.

DEFENSE SECURITY COOPERATION AGENCY  
201 12<sup>TH</sup> STREET SOUTH, STE 203  
ARLINGTON, VA 22202-6408

The Honorable John A. Boehner  
Speaker of the House  
U.S. House of Representatives  
Washington, DC 20515

JUN 01 2015

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 15-35, concerning the Department of the Navy's proposed Letter(s) of Offer and Acceptance to the Government of Japan for defense articles and services estimated to cost \$1.70 billion. After this letter is delivered to your office, we plan to issue a press statement to notify the public of this proposed sale.

Sincerely,

J. W. Rixey  
Vice Admiral, USN  
Director

Transmittal No. 15-35

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser:* Government of Japan

(ii) *Total Estimated Value:*

Major Defense Equipment *	\$ .850 billion
Other .....	\$ .850 billion

Total ..... \$1.700 billion

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:* four (4) E-

2D Advanced Hawkeye (AHE) Airborne Early Warning and Control (AEW&C) aircraft, ten (10) T56-A-427A engines (8 installed and 2 spares), eight (8) Multifunction Information Distribution System Low Volume Terminals (MIDS-LVT), four (4) APY-9 Radars, modifications, spare and repair parts, support equipment, publications and technical documentation, personnel training and training equipment, ferry services, aerial refueling support, U.S. Government and contractor logistics, engineering, and technical support

services, and other related elements of logistics and program support.

- (iv) *Military Department:* Navy (SCJ)
  - (v) *Prior Related Cases, if any:* None
  - (vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid:* None
  - (vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold:* See Attached Annex.
  - (viii) *Date Report Delivered to Congress:* 01 June 2015
- \* as defined in Section 47(6) of the Arms Export Control Act.

*Policy Justification**Japan—E-2D Advanced Hawkeye Airborne Early Warning and Control Aircraft.*

The Government of Japan has requested a possible sale of four (4) E-2D Advanced Hawkeye (AHE) Airborne Early Warning and Control (AEW&C) aircraft, ten (10) T56-A-427A engines (8 installed and 2 spares), eight (8) Multifunction Information Distribution System Low Volume Terminals (MIDS-LVT), four (4) APY-9 Radars, modifications, spare and repair parts, support equipment, publications and technical documentation, personnel training and training equipment, ferry services, aerial refueling support, U.S. Government and contractor logistics, engineering, and technical support services, and other related elements of logistics and program support. The estimated cost is \$1.7 billion.

This proposed sale will contribute to the foreign policy and national security of the United States. Japan is one of the major political and economic powers in East Asia and the Western Pacific and a key partner of the United States in ensuring peace and stability in that region. It is vital to the U.S. national interest to assist Japan in developing and maintaining a strong and ready self-defense capability. This proposed sale is consistent with U.S. foreign policy and national security objectives and the 1960 Treaty of Mutual Cooperation and Security.

The proposed sale of E-2D AHE aircraft will improve Japan's ability to effectively provide homeland defense utilizing an AEW&C capability. Japan will use the E-2D AHE aircraft to provide AEW&C situational awareness of air and naval activity in the Pacific region and to augment its existing E-2C Hawkeye AEW&C fleet. Japan will have no difficulty absorbing these aircraft into its armed forces.

The proposed sale of these aircraft and support will not alter the basic military balance in the region.

The principal contractor will be Northrop Grumman Corporation Aerospace Systems in Melbourne, Florida. The acquisition and integration of all systems will be managed by the U.S. Navy's Naval Air Systems Command (NAVAIR). There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require any additional U.S. Government or contractor personnel in Japan. However, U.S. Government or contractor personnel in-country visits will be required on a temporary basis in conjunction with program technical and

management oversight and support requirements.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 15-35

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

*(vii) Sensitivity of Technology:*

1. The E-2D Advanced Hawkeye (AHE) Airborne Early Warning and Control (AEW&C) is a state of the art aircraft. The E-2D AHE provides detection and surveillance of regional surface and aircraft platforms through the use of the APY-9 radar, APX-122A Identification Friend or Foe (IFF), and ALQ 217 Electronic Support Measures (ESM) systems. The E-2D AHE provides area surveillance and detection, air intercept control, air traffic control, search and rescue assistance, communication relay and automatic tactical data exchange. The E-2D AHE is classified Secret.

2. The APY-9 radar is a mechanically rotated, electronically scanned array, which utilizes Space Time Adaptive Processing technology to provide 360-degree detection and surveillance in high clutter environments. It is able to provide simultaneous detection and surveillance of surface and air units. The APY-9 radar is classified Secret.

3. The Multifunction Information Distribution System Low Volume Terminals (MIDS-LVT) is a command, control, communications, and intelligence (C3I) system incorporating high-capacity, jam-resistant, digital communication links for exchange of near real-time tactical information including both data and voice, among air, ground and sea elements. The MIDS-LVT incorporates the Link-16 military technical data exchange network which supports key theater functions such as surveillance, identification, air control, and direction for U.S. Services and those allied and partner nations for which there is a validated interoperability requirement. The system provides jam-resistant, wide-area communications on a Link-16 network. Link-16 provides a correlated, real-time picture of the battle space. These devices have embedded communications security (COMSEC) which contains sensitive encryption algorithms and keying material. The MIDS-LVT is classified Secret.

4. The APX-122 Interrogator and APX-123 IFF Transponder are identification systems designed for

command and control. They provide the ability to distinguish friendly aircraft, vehicles, or forces, and to determine their bearing and range from the interrogator. These devices have embedded COMSEC which contains sensitive encryption algorithms and keying material. The APX-122 Interrogator and APX-123 IFF Transponder are classified Secret.

5. The ALQ-217 Electronic Support Measure system is used to detect, intercept, identify, locate, record, and/or analyze sources of radiated electromagnetic energy to support classification of unknown surface and airborne units. The ALQ-217 is classified Secret.

6. If a technologically advanced adversary obtained knowledge of the specific hardware or software in the proposed sale, the information could be used to develop countermeasures which might reduce weapons system effectiveness or be used in the development of a system with similar or advanced capabilities.

7. A determination has been made that the Government of Japan can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

8. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Japan.
