DEPARTMENT OF DEFENSE
GENERAL SERVICES
ADMINISTRATION

NATIONAL AERONAUTICS AND
SPACE ADMINISTRATION

[OMB Control No. 9000–0062; Docket 2015–
0055; Sequence 2]

Submission to OMB for Review;
Federal Acquisition Regulation;
Material and Workmanship

AGENCIES: Department of Defense (DOD),
General Services Administration (GSA),
and National Aeronautics and Space
Administration (NASA).

ACTION: Notice of request for public
comments regarding an extension to an
existing OMB clearance.

SUMMARY: Under the provisions of the
Paperwork Reduction Act, the
Regulatory Secretariat will be
submitting to the Office of Management
and Budget (OMB) a request to review
and approve an extension of a
previously approved information
collection requirement concerning
material and workmanship. A notice
was published in the Federal Register
at 80 FR 8650 on February 18, 2015. No
comments were received.

DATES: Submit comments on or before
July 13, 2015.

ADDRESSES: Submit comments
identified by Information Collection
9000–0062, Material and Workmanship,
by any of the following methods:
• Regulations.gov: http://www.regulations.gov. Submit comments
via the Federal eRulemaking portal by
searching the OMB Control number
9000–0062. Select the link “Comment
Now” that corresponds with
“Information Collection 9000–0062,
Material and Workmanship”. Follow the
instructions provided on the screen.
Please include your name, company
name (if any), and “Information
Collection 9000–0062, Material and
Workmanship” on your attached
document.
• Mail: General Services
Administration, Regulatory Secretariat
Division (MVCB), 1800 F Street NW.,
Washington, DC 20405. ATTN: Ms.
Flowers/IC 9000–0062, Material and
Workmanship.

Instructions: Please submit comments
only and cite Information Collection
9000–0062, Material and Workmanship,
in all correspondence related to this
collection. All comments received will
be posted without change to http://
www.regulations.gov, including any
personal and/or business confidential
information provided.

FOR FURTHER INFORMATION CONTACT:
Mr. Curtis E. Glover, Sr., Procurement
Analyst, Federal Acquisition Policy
Division, GSA, telephone 202–501–
1448, or via email at curtis.glover@gsa.gov.

SUPPLEMENTARY INFORMATION:

A. Purpose

Under Federal contracts requiring that
equipment (e.g., pumps, fans,
generators, chillers, etc.) be installed in
a project, the Government must
determine that the equipment meets the
contract requirements. Therefore, the
contractor must submit sufficient data
on the particular equipment to allow the
Government to analyze the item.

The Government uses the submitted
data to determine whether or not the
equipment meets the contract
requirements in the categories of
performance, construction, and
durability. This data is placed in the
contract file and used during the
inspection of the equipment when it
arrives on the project and when it is
made operable.

B. Annual Reporting Burden

The information collection
requirement at FAR clause 52.236–5 has
increased due to the rounding up of the
responses annually from 1.5 to 2.0, as
you cannot have .5 of a response per
year.

Respondents: 3,160.
Responses Per Respondent: 2.0.
Annual Responses: 6,320.
Hours Per Response: .25.
Total Burden Hours: 1,580.

C. Public Comments

Public comments are particularly
invited on: Whether this collection of
information is necessary for the proper
performance of functions of the FAR,
and whether it will have practical
utility; whether our estimate of the
public burden of this collection of
information is accurate, and based on
valid assumptions and methodology;
ways to enhance the quality, utility, and
clarity of the information to be
collected; and ways in which we can
minimize the burden of the collection of
information on those who are to
respond, through the use of appropriate
technological collection techniques or
other forms of information technology.

Obtaining Copies of Proposals:
Requesters may obtain a copy of the
information collection documents from
the General Services Administration,
Regulatory Secretariat Division (MVCB),
1800 F Street NW., Washington, DC
20405, telephone 202–501–4755. Please
cite OMB Control No. 9000–0062,
Material and Workmanship, in all
correspondence.

Dated: June 8, 2015.

Edward Loeb,
Acting Director, Office of Government-wide
Acquisition Policy, Office of Acquisition
Policy, Office of Government-wide Policy.

DEPARTMENT OF DEFENSE
Office of the Secretary

[Transmittal No. 15–35]
36(b)(1) Arms Sales Notification

AGENCY: Department of Defense, Defense
Security Cooperation Agency.

ACTION: Notice.

SUMMARY: The Department of Defense is
publishing the unclassified text of a
section 36(b)(1) arms sales notification.
This is published to fulfill the
requirements of section 155 of Public

FOR FURTHER INFORMATION CONTACT: Ms.
B. English, DSCA/DBO/CFM, (703) 601–
3740.

The following is a copy of a letter to
the Speaker of the House of
Representatives, Transmittal 15–35 with
attached transmittal, policy justification,
and Sensitivity of Technology.

Dated: June 9, 2015.

Aaron Siegel,
Alternate OSD Federal Register Liaison
Officer, Department of Defense.
Transmittal No. 15–35
Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) Prospective Purchaser: Government of Japan
(ii) Total Estimated Value:

Major Defense Equipment * $ .850 billion
Other $ .850 billion
Total $1.700 billion
(iii) Description and Quantity of Articles or Services under Consideration for Purchase: four (4) E–2D Advanced Hawkeye (AHE) Airborne Early Warning and Control (AEW&C) aircraft, ten (10) T56–A–427A engines (8 installed and 2 spares), eight (8) Multifunction Information Distribution System Low Volume Terminals (MIDS–LVT), four (4) APY–9 Radars, modifications, spare and repair parts, support equipment, publications and technical documentation, personnel training and training equipment, ferry services, aerial refueling support, U.S. Government and contractor logistics, engineering, and technical support services, and other related elements of logistics and program support.
(iv) Military Department: Navy (SCJ)
(v) Prior Related Cases, if any: None
(vi) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None
(vii) Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: See Attached Annex.
(viii) Date Report Delivered to Congress: 01 June 2015

* as defined in Section 47(6) of the Arms Export Control Act.
Policy Justification

Japan—E–2D Advanced Hawkeye Airborne Early Warning and Control Aircraft.

The Government of Japan has requested a possible sale of four (4) E–2D Advanced Hawkeye (AHE) Airborne Early Warning and Control (AEW&C) aircraft, ten (10) T56–A–427A engines (8 installed and 2 spares), eight (8) Multifunction Information Distribution System Low Volume Terminals (MIDS–LVT), four (4) APY–9 Radars, modifications, spare and repair parts, support equipment, publications and technical documentation, personnel training and training equipment, ferry services, aerial refueling support, U.S. Government and contractor logistics, engineering, and technical support services, and other related elements of logistics and program support. The estimated cost is $1.7 billion.

This proposed sale will contribute to the foreign policy and national security of the United States. Japan is one of the major political and economic powers in East Asia and the Western Pacific and a key partner of the United States in ensuring peace and stability in that region. It is vital to the U.S. national interest to assist Japan in developing and maintaining a strong and ready self-defense capability. This proposed sale is consistent with U.S. foreign policy and national security objectives and the 1960 Treaty of Mutual Cooperation and Security.

The proposed sale of E–2D AHE aircraft will improve Japan’s ability to effectively provide homeland defense utilizing an AEW&C capability. Japan will use the E–2D AHE aircraft to provide AEW&C situational awareness of air and naval activity in the Pacific region and to augment its existing E–2C Hawkeye AEW&C fleet. Japan will have no difficulty absorbing these aircraft into its armed forces.

The proposed sale of these aircraft and support will not alter the basic military balance in the region.

The principal contractor will be Northrop Grumman Corporation Aerospace Systems in Melbourne, Florida. The acquisition and integration of all systems will be managed by the U.S. Navy’s Naval Air Systems Command (NAVAIR). There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require any additional U.S. Government or contractor personnel in Japan. However, U.S. Government or contractor personnel in–country visits will be required on a temporary basis in conjunction with program technical and management oversight and support requirements. There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 15–35
Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act
Annex
Item No. vii
(vii) Sensitivity of Technology:

1. The E–2D Advanced Hawkeye (AHE) Airborne Early Warning and Control (AEW&C) is a state of the art aircraft. The E–2D AHE provides detection and surveillance of regional surface and aircraft platforms through the use of the APY–9 radar, APX–122A Identification Friend or Foe (IFF), and ALQ 217 Electronic Support Measures (ESM) systems. The E–2D AHE provides area surveillance and detection, air intercept control, air traffic control, search and rescue assistance, communication relay and automatic tactical data exchange. The E–2D AHE is classified Secret.

2. The APY–9 radar is a mechanically rotated, electronically scanned array, which utilizes Space Time Adaptive Processing technology to provide 360-degree detection and surveillance in high clutter environments. It is able to provide simultaneous detection and surveillance of surface and air units. The APY–9 radar is classified Secret.

3. The Multifunction Information Distribution System Low Volume Terminals (MIDS–LVT) is a command, control, communications, and intelligence (C3I) system incorporating high-capacity, jam-resistant, digital communication links for exchange of near-real-time tactical information including both data and voice, among air, ground and sea elements. The MIDS–LVT incorporates the Link–16 military tactical data exchange network which supports key theater functions such as surveillance, identification, air control, and direction for U.S. Services and those allied and partner nations for which there is a validated interoperability requirement. The system provides jam-resistant, wide-area communications on a Link–16 network. Link–16 provides a correlated, real-time picture of the battle space. These devices have embedded communications security (COMSEC) which contains sensitive encryption algorithms and keying material. The MIDS–LVT is classified Secret.

4. The APX–122 Interrogator and APX–123 IFF Transponder are classified Secret.

5. The ALQ–217 Electronic Support Measure system is used to detect, intercept, identify, locate, record, and/or analyze sources of radiated electromagnetic energy to support classification of unknown surface and airborne units. The ALQ–217 is classified Secret.

6. If a technologically advanced adversary obtained knowledge of the specific hardware or software in the proposed sale, the information could be used to develop countermeasures which might reduce weapons system effectiveness or be used in the development of a system with similar or advanced capabilities.

7. A determination has been made that the Government of Japan can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

8. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Japan.
