

qualified bidder, regardless of whether or not that person was previously determined to be a qualified bidder.

1.06 How many helium lots does the BLM anticipate offering at the FY 2016 Phase B auction? The BLM anticipates auctioning 300 MMcf in a total of 18 lots for FY 2016. The lots would be divided as follows:

- (8) lots of 25 MMcf each
- (5) lots of 15 MMcf each
- (5) lots of 5 MMcf each

1.07 What must I do to bid at auction? The BLM will describe the live auction procedures, including detailed bidding instructions and pre-bid registration requirements, on its Web page at a web link that will be included in the Final Notice. The Final Notice will contain information regarding the time and location of the auction, process for notification of winning bidders, payments, and how to make such payments.

1.08 When will helium that is purchased at sale or won at auction be available in the purchaser's storage account? The BLM will transfer the volumes purchased in the FY 2016 Phase B auction and sale to the buyers' storage accounts beginning on the first day of the month following receipt of payment.

FY 2016 Phase B Helium Sale

2.01 Who will be allowed to purchase helium in the FY 2016 Phase B sale? Any person (including individuals, corporations, partnerships, or other entities) with the ability to accept delivery of crude helium from the Federal Helium Pipeline (as defined in 50 U.S.C. 167(2)) may purchase helium in the FY 2016 Phase B sale.

2.02 How will the helium sold in the FY 2016 Phase B sale be allocated among the persons with the ability to take helium? Any person desiring to participate in the FY 2016 Phase B sale needs to report its excess refining capacity and operational capacity by August 14, 2015 using the Excess Refining Capacity form, which can be downloaded at <http://www.blm.gov/nm/heliumreporting>. Each person participating in the sale will then be allocated a proportional share based upon that person's operational capacity.

2.03 How does a person apply for access to the Federal Helium Pipeline for the purpose of taking crude helium? The steps for taking crude helium are provided in the BLM's Helium Operations Web site at <http://www.blm.gov/nm/helium>. Reporting forms show the due dates for each report, and can be found at <http://www.blm.gov/nm/heliumreporting>. The

length of time required to apply for and obtain access to the Federal Helium Pipeline will vary based on the person's plans for plant construction, pipeline metering installation, and other variables. The BLM is available to provide technical assistance, including contact information for applying for access and meeting any applicable National Environmental Policy Act requirements.

2.04 What will happen if one or more persons request an amount other than the person's share of the volume offered for sale? If one or more persons requests less than its share or their shares, any other person(s) that request(s) more than its share or their shares will be allowed to purchase the excess volume based on the proportionate shares of operational capacity of all persons requesting more than their initial shares.

2.05 What will happen if the total amount requested by persons is less than the 600 MMcf offered in the FY 2016 Phase B sale? Any excess volume not sold in the FY 2016 Phase B sale will be available for future sale or auction.

2.06 Do you have a hypothetical example of how the FY 2016 Phase B Sale would be conducted? A hypothetical example of how the Phase B Sale will be conducted is available at the Helium Operations Web site at: <http://www.blm.gov/nm/helium>.

Delivery of Helium in FY 2016

3.01 When will I receive helium that I purchase in a sale or win based on a successful auction bid? Helium purchased at the FY 2016 sale or won at the FY 2016 auction will be delivered starting October 1, 2015, in accordance with the crude helium storage contract. The intent is to ensure delivery of all helium purchased at sale or auction up to the BLM's production capability for the year.

3.02 How will the BLM prioritize delivery? The Act, at 50 U.S.C. 167d(b)(1)(D) and (b)(3), gives priority to Federal In-Kind helium (*i.e.*, helium sold to Federal users). After meeting that priority, the BLM will make delivery on a reasonable basis, as described in the crude helium storage contract, to ensure storage contract holders who have purchased or won helium at auction have the opportunity during the year to have that helium produced or refined in monthly increments.

Background Documents

Supplementary documents referenced in this Notice are available at the BLM helium operations Web site at: <http://www.blm.gov/nm/helium>, and include the following:

www.blm.gov/nm/helium, and include the following:

- a. Table of Projected Volumes for Sales and Auctions for Delivery for FY 2017–FY 2021 (informational);
- b. Hypothetical example of how the FY 2016 Phase B Sale would be conducted (informational);
- c. The Helium Stewardship Act of 2013, 50 U.S.C. 167;
- d. FY 2014 Helium Auction Notice;
- e. Helium Storage Contract; and
- f. Required forms for helium reporting.

Authority: The Helium Stewardship Act of 2013, Public Law 113–40, codified to various sections in 50 U.S.C. 167–167q.

Sheila K. Mallory,

Acting State Director.
