

allowable but for their dependency from rejected claims are not considered allowed claims but are treated as rejected claims. See MPEP § 1215.01.

The filing of a request for continued examination under 37 CFR 1.114 in an application on appeal to the Board is treated as a request to withdraw the appeal and to reopen prosecution of the application before the examiner. See 37 CFR 1.114(d). A request for continued examination may be filed with a petition under 37 CFR 41.3, and the withdrawal of an appeal in that application resulting from the filing of such a request for continued examination may form the basis for a petition to make special based upon the Expedited Patent Appeal Pilot. The withdrawal of an appeal resulting from the filing of a request for continued examination prior to the filing of a petition under 37 CFR 41.3, however, may not form the basis for a petition to make special based upon the Expedited Patent Appeal Pilot.

As discussed previously, an application having no allowed claims becomes abandoned upon withdrawal of an appeal. Any request for continued examination, however, must be filed prior to the abandonment of the application. See 37 CFR 1.114(a)(2). Thus, an appellant wishing to file a request for continued examination in an application in which there is an appeal to be withdrawn under the Expedited Patent Appeal Pilot must, if there are no allowed claims, file the request for continued examination with the petition under 37 CFR 41.3 to ensure that the request for continued examination is filed prior to the abandonment of the application that will result from the dismissal of the appeal.

A request for continued examination must include a submission. See 37 CFR 1.114(a) and (c). An appeal brief, or a reply brief, or related papers, are not considered a submission under 37 CFR 1.114. See 37 CFR 1.114(c). The submission, however, may consist of the arguments in a previously filed appeal brief or reply brief, or may simply consist of a statement that incorporates by reference the arguments in a previously filed appeal brief or reply brief. See MPEP § 706.07(h).

The Expedited Patent Appeal Pilot is being adopted on a temporary basis until two thousand (2,000) appeals have been accorded special status under the Expedited Patent Appeal Pilot, or until June 20, 2016, whichever occurs earlier. The USPTO may extend the Expedited Patent Appeal Pilot (with or without modification) on either a temporary or permanent basis, or may discontinue the Expedited Patent Appeal Pilot after June

20, 2016, depending upon the results of the Expedited Patent Appeal Pilot. Additional information concerning the Expedited Patent Appeal Pilot, including statistical information concerning the Expedited Patent Appeal Pilot and pendency of appeals before the Board, can found on the USPTO Internet Web site at: [https://www-cms.uspto.gov/patents-application-process/patent-trial-and-appeal-board/expedited-patent-appeal-pilot](https://www.cms.uspto.gov/patents-application-process/patent-trial-and-appeal-board/expedited-patent-appeal-pilot).
