Endangered and Threatened Wildlife and Plants; Availability of Proposed Low-Effect Habitat Conservation Plans, Lake, Brevard, and Volusia County, FL

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comment/information.

SUMMARY: We, the Fish and Wildlife Service (Service), have received three applications for incidental take permits (ITPs) under the Endangered Species Act of 1973, as amended (Act). DCS Capital Investments I, LLC requests a 15-year ITP; Preferred Materials, Inc., doing business as Conrad Yelvington Distributors, requests a 3-year ITP; and Wickham Summerbrook, LLC requests a 5-year ITP. We request public comment on the permit applications and accompanying proposed habitat conservation plans (HCPs), as well as on our preliminary determination that the plans qualify as low-effect under the National Environmental Policy Act (NEPA). To make this determination, we used our environmental action statement and low-effect screening form, which are also available for review.

DATES: To ensure consideration, please send your written comments by July 15, 2015.

ADDRESSES: If you wish to review the applications and HCPs, you may request documents by email, U.S. mail, or phone (see below). These documents are also available for public inspection by appointment during normal business hours at the office below. Send your comments or requests by any one of the following methods.

SUPPLEMENTARY INFORMATION:

Background

Section 9 of the Act (16 U.S.C. 1531 *et seq.*) and our implementing Federal regulations in the Code of Federal Regulations (CFR) at 50 CFR 17 prohibit the “take” of fish or wildlife species listed as endangered or threatened. Take

of listed fish or wildlife is defined under the Act as “to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct” (16 U.S.C. 1532).

However, under limited circumstances, we issue permits to authorize incidental take—*i.e.*, take that is incidental to, and not the purpose of, the carrying out of an otherwise lawful activity.

Regulations governing incidental take permits for threatened and endangered species are at 50 CFR 17.32 and 17.22, respectively. The Act’s take prohibitions do not apply to federally listed plants on private lands unless such take would violate State law. In addition to meeting other criteria, an incidental take permit’s proposed actions must not jeopardize the existence of federally listed fish, wildlife, or plants.

Applicants’ Proposals

DCS Capital Investments I, LLC

DCS Capital Investments I, LLC is requesting take of approximately .99 ac of occupied sand skink foraging and sheltering habitat incidental to construction of residential developments, and they seek a 15-year permit. The 86.99-ac project is located on parcel #s 05-22-26-000300000600 and 05-22-26-000400001300 within Section 5, Township 22 South and Range 26 East, Lake County, Florida. The project includes construction of a residential development and the associated infrastructure, and landscaping. The applicant proposes to mitigate for the take of the sand skink by the purchase of 2.0 mitigation credits within the Hatchineha Conservation Bank.

Preferred Materials, Inc. (Conrad Yelvington Distributors)

Preferred Materials, Inc. (Conrad Yelvington Distributors) is requesting take of approximately .68 ac of occupied Florida scrub-jay foraging and sheltering habitat incidental to construction of an industrial park, and they seek a 3-year permit. The 15-ac project is located on parcel #04-19-30-16-00-000I within Section 4, Township 19 South and Range 30 East, Volusia County, Florida. The project includes construction of an industrial park and the associated infrastructure, and landscaping. The applicant proposes to mitigate for the take of the Florida scrub-jay through the deposit of funds in the amount of \$20,844.72 to the Nature Conservancy’s Conservation Fund, for the management and conservation of the Florida scrub-jay based on Service Mitigation Guidelines.

Wickham Summerbrook, LLC

Wickham Summerbrook, LLC is requesting take of approximately 4.64 ac of occupied Florida scrub-jay foraging and sheltering habitat incidental to construction of a commercial development, and they seek a 5-year permit. The 8.98-ac project is located on parcel #26-37-31-00-00262.0-0000.00 within Section 31, Township 26 South and Range 37 East, Brevard County, Florida. The project includes construction of a commercial development and the associated infrastructure, and landscaping. The applicant proposes to mitigate for the take of the Florida scrub-jay through the preservation of approximately 9.5 acres of high-quality Florida scrub-jay habitat within the Valkaria Site of the Brevard Coastal Scrub Ecosystem. The Applicant will preserve and donate six currently unencumbered parcels (Brevard County tax account numbers 2955405, 2955273, 2955322, 2955313, 2955314, and 2954810) to the Brevard County Environmentally Endangered Lands (EEL) Program so that these parcels can be managed and maintained as suitable Florida scrub-jay habitat in perpetuity. The Applicant will also provide the EEL Program with a \$1,200.00/acre (totaling \$11,400.00) management endowment to ensure the continued success of monitoring and maintaining these lands as suitable Florida scrub-jay habitat.

Our Preliminary Determination

We have determined that the applicants' proposals, including the proposed mitigation and minimization measures, would have minor or negligible effects on the species covered in their HCPs. Therefore, we determined that the ITPs for each of the applicants are "low-effect" projects and qualify for categorical exclusion under the National Environmental Policy Act (NEPA), as provided by the Department of the Interior Manual (516 DM 2 Appendix 1 and 516 DM 6 Appendix 1). A low-effect HCP is one involving (1) Minor or negligible effects on federally listed or candidate species and their habitats, and (2) minor or negligible effects on other environmental values or resources.

Next Steps

We will evaluate the HCPs and comments we receive to determine whether the ITP applications meet the requirements of section 10(a) of the Act (16 U.S.C. 1531 *et seq.*). If we determine that the applications meet these requirements, we will issue ITP #s TE52650B-0, TE66050B-0, and TE66047B-0. We will also evaluate

whether issuance of the section 10(a)(1)(B) ITP complies with section 7 of the Act by conducting an intra-Service section 7 consultation. We will use the results of this consultation, in combination with the above findings, in our final analysis to determine whether or not to issue the ITPs. If the requirements are met, we will issue the permits to the applicants.

Public Comments

If you wish to comment on the permit applications, HCPs, and associated documents, you may submit comments by any one of the methods in

ADDRESSES.**Public Availability of Comments**

Before including your address, phone number, email address, or other personal identifying information in your comments, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. Authority

We provide this notice under Section 10 of the Act and NEPA regulations (40 CFR 1506.6).
