

collection of information . . .” Agencies must specifically solicit comments to: (a) Evaluate whether the collection is necessary or useful; (b) evaluate the accuracy of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of technology.

To comply with the public consultation process, on March 26, 2015, we published a **Federal Register** notice (80 FR 16019) announcing that we would submit this ICR to OMB for approval. The notice provided the required 60-day comment period. In addition, § 282.0 provides the OMB Control Number for the information collection requirements imposed by the 30 CFR 282, regulations. The regulation also informs the public that they may comment at any time on the collections of information and provides the address to which they should send comments. We received four comments in response to the **Federal Register**. None of the comments received were germane to the paperwork burden of this information collection renewal.
