Plan of Operations To Conduct 3-Dimensional Seismic Oil and Gas Exploration Within Big Cypress National Preserve

AGENCY: National Park Service, Interior.

ACTION: Notice of Availability.

SUMMARY: The National Park Service (NPS) is seeking public comments on Nobles Grade 3-D Seismic Survey/Plan of Operations (Plan) to explore for oil and gas within Big Cypress National Preserve. The Plan seeks approval to conduct a seismic survey over a 110± square mile area to evaluate the subsurface geologic structure and geophysical conditions pertaining to accumulations of commercial quantities of crude oil and natural gas in the Sunniland Oil Trend. The applicant, Burnett Oil Company, Inc., proposes to conduct the seismic survey by using small, portable seismic receivers (geophones) and recording devices, which measure and record subtle vibrations in the ground. No explosives will be used to create the vibrations or seismic acoustical signals, and there will be no ground disturbances from detonations. Instead, vibrations will be created using mobile plates attached to special off-road vehicles which are placed against the ground, vibrated, and then moved on to the next location. The

source and receivers would be placed in a line grid to allow the applicant to map the subsurface geology.

DATES: The comment period will be announced through local media outlets and on the NPS Planning, Environment, and Public Comment (PEPC) Web site at <http://parkplanning.nps.gov/bicy>. The Plan will be available for public review and comment through July 17, 2015.

ADDRESSES: Interested individuals, organizations, and agencies are encouraged to provide written comments. INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-456 and 731-TA-1151-1152 (Review)]

Citric Acid and Certain Citrate Salts From Canada and China

Determination

On the basis of the record¹ developed in the subject five-year reviews, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930, that revocation of the countervailing duty order on citric acid and certain citrate salts from China and the antidumping duty orders on citric acid and certain citrate salts from China and Canada would be likely to lead to

continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission, pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. 1675(c)), instituted these reviews on April 1, 2014 (79 FR 18311) and determined on July 7, 2014 that it would conduct full reviews (79 FR 42049, July 18, 2014). Notice of the scheduling of the Commission’s reviews and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on November 14, 2014 (79 FR 68299). The hearing was held in Washington, DC, on March 26, 2015, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission made these determinations pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. 1675(c)). It completed and filed its determinations in these reviews on June 11, 2015. The views of the Commission are contained in USITC Publication 4538 (June 2015), entitled *Citric Acid and Certain Citrate Salts from Canada and China: Investigation Nos. 701-TA-456 and 731-TA-1151-1152 (Review)*.

By order of the Commission.

Issued: June 12, 2015.
