

industry description.<sup>14</sup> Manufacturing of room ACs can be classified under either NAICS 333415, “Air-Conditioning and Warm Air Heating Equipment and Commercial and Industrial Refrigeration Equipment Manufacturing” or NAICS 335228, “Other Major Household Appliance Manufacturing.” The SBA sets a threshold of 750 or 500 employees or less for an entity to be considered as a small business for these categories. These employee threshold would include all employees in a business’s parent company and any other subsidiaries.

DOE used publically available information to attempt to identify any small business that manufactures room ACs. DOE cross-referenced the manufacturers listed in DOE’s Compliance Certification Management System (CCMS) with individual company Web sites and market research tools (e.g., Hoovers reports). DOE’s initial research indicates that no small businesses currently manufacture room ACs.

*Issue K.1* DOE requests comment on any small business manufacturers of room ACs that it should consider in its analysis.

### III. Submission of Comments

DOE invites all interested parties to submit in writing by August 3, 2015, comments and information on matters addressed in this notice and on other matters relevant to DOE’s consideration of new or amended energy conservation standards for room ACs. After the close of the comment period, DOE will begin collecting data, conducting the analyses, and reviewing the public comments, as needed. These actions will be taken to aid in the development of a NOPR for room ACs if DOE decides to amend the standards for such products.

DOE considers public participation to be a very important part of the process for developing test procedures and energy conservation standards. DOE actively encourages the participation and interaction of the public during the comment period in each stage of the rulemaking process. Interactions with and between members of the public provide a balanced discussion of the issues and assist DOE in the rulemaking process. Anyone who wishes to be added to the DOE mailing list to receive future notices and information about this rulemaking or would like to request a public meeting should contact Ms. Brenda Edwards at (202) 586–2945, or

via email at [Brenda.Edwards@ee.doe.gov](mailto:Brenda.Edwards@ee.doe.gov).

#### SUPPLEMENTARY INFORMATION:

##### Authority for This Rulemaking

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend Class E airspace at West Texas Airport, El Paso, TX.

##### Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: “Comments to Docket No. FAA–2014–1074 and

#### Availability and Summary of Documents Proposed for Incorporation by Reference

This document proposes to amend FAA Order 7400.9Y, Airspace Designations and Reporting Points, dated August 6, 2014, and effective September 15, 2014. FAA Order 7400.9Y is publicly available as listed in the **ADDRESSES** section of this proposed rule. FAA Order 7400.9Y lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

#### The Proposal

The FAA is proposing an amendment to Title 14, Code of Federal Regulations (14 CFR), Part 71 by removing Class E airspace extending upward from 700 feet above the surface at West Texas Airport, El Paso, TX. This action is necessary due to the closure of the airport; therefore controlled airspace is no longer needed. Additionally, geographic coordinates for El Paso International Airport, would be changed from (lat. 31°48’24” N., long. 106°22’40” W.) to (lat. 31°50’59” N., long. 106°22’48” W.); and Biggs AAF coordinates would be changed from (lat. 31°50’58” N., long. 106°22’48” W.) to (lat. 31°50’59” N., long. 106°22’48” W.). These minor adjustments would reflect

the current information in the FAA’s aeronautical database.

Class E airspace designations are published in paragraph 6005, of FAA Order 7400.9Y, dated August 6, 2014, and effective September 15, 2014, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

#### Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It therefore, (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal.

Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

#### Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1E, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.
