Title: Human Response to Aviation Noise in Protected Natural Areas Survey.

Forms Numbers: There are no FAA forms associated with this request.

Type of Review: Renewal of an information collection.

Background: The data from this research are critically important for establishing the scientific basis for air tour management policy decisions in the National Parks as mandated by the National Parks Air Tour Management Act of 2000 (NPATMA). The research expands on previous aircraft noise dose–response work by using a wider variety of survey methods, including different site types and visitor experiences from those previously measured, and by increasing site type replication.

Respondents: Approximately 16,800 visitors to National Parks annually.

Frequency: Information is collected on occasion.

Estimated Average Burden per Response: 15 minutes.

Estimated Total Annual Burden: 4,200 hours annually.

Issued in Washington, DC on June 16, 2015.

Ronda Thompson, FAA Information Collection Clearance Officer, IT Enterprises Business Services Division, ASP–110.
