In the event the Court's ruling is not appealed, or if appealed and upheld by the Federal Circuit, the Department will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on entries of the subject merchandise exported by Since Hardware and Foshan Shunde using the revised assessment rate calculated by the Department in the *Third Redetermination*.

Cash Deposit Requirements

In accordance with section 735(c)(1)(B) of the Act, the Department will instruct CBP to collect a cash deposit of 83.33 percent for entries of subject merchandise exported by Since Hardware, effective January 9, 2015, in accordance with the *Timken Notice*.

This notice is issued and published in accordance with sections 516(A)(e), 751(a)(1), and 777(i)(1) of the Act.

Dated: June 18, 2015.

Paul Piquado,

Assistant Secretary for Enforcement & Compliance.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Scientific Research, Exempted Fishing, and Exempted Educational Activity Submissions.

OMB Control Number: 0648–0309. Form Number(s): None.

Type of Request: Regular (extension of a currently approved information collection).

Number of Respondents: 143. Average Hours per Response: Scientific research plans, 9 hours; scientific research reports, 4 hours; exempted fishing permit requests; 89 hours, exempted fishing permit reports, 15 hours; exempted educational requests, 4 hours; exempted educational

reports, 2 hours. Burden Hours: 7,753.

Needs and Uses: This request is for extension of a current information collection.

Fishery regulations do not generally affect scientific research activities conducted by a scientific research vessel. Persons planning to conduct such research are encouraged to submit a scientific research plan to ensure that the activities are considered research and not fishing. The researchers are requested to submit reports of their scientific research activity after its completion. Eligible researchers on board federally permitted fishing vessels that plan to temporarily possess fish in a manner not compliant with applicable fishing regulations for the purpose of collecting scientific data on catch may submit a request for a temporary possession letter of authorization. The researchers are requested to submit reports of their scientific research activity after its completion. The National Marine Fisheries Service (NMFS) may also grant exemptions from fishery regulations for educational or other activities (e.g., using nonregulation gear). The applications for these exemptions must be submitted, as well as reports on activities.

Affected Public: Business or other forprofit; individuals or households; not for profit organizations; state, local or tribal governments.

Frequency: Annually, on occasion and as required by permits.

Respondent's Obligation: Mandatory.

This information collection request may be viewed at *reginfo.gov*. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *OIRA_Submission@ omb.eop.gov* or fax to (202) 395–5806.

Dated: June 19, 2015.

Sarah Brabson,

NOAA PRA Clearance Officer. [FR Doc. 2015–15583 Filed 6–24–15; 8:45 am] BILLING CODE 3510–22–P

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35). Agency: National Oceanic and Atmospheric Administration (NOAA). *Title:* Seafood Inspection and

Certification Requirements. OMB Control Number: 0648-0266. Form Number(s): NOAA Forms 89–

800, 89–814, 89–819.

Type of Request: Regular (extension of a currently approved information collection).

Number of Respondents: 4,260. Average Hours per Response: Contract Request, 15 minutes; label approval, 15 minutes; Inspection Request, 30 minutes.

Burden Hours: 19,768.

Needs and Uses: This request is for extension of a currently approved information collection.

The National Marine Fisheries Service (NMFS) operates a voluntary fee-forservice seafood inspection program (Program) under the authorities of the Agricultural Marketing Act of 1946, as amended, the Fish and Wildlife Act of 1956, and the Reorganization Plan No. 4 of 1970. The regulations for the Program are contained in 50 CFR part 260. The program offers inspection grading and certification services, including the use of official quality grade marks which indicate that specific products have been Federally inspected. Those wishing to participate in the program must request the services and submit specific compliance information. In July 1992, NMFS announced new inspection services, which were fully based on guidelines recommended by the National Academy of Sciences, known as Hazard Analysis Critical Control Point (HACCP). The information collection requirements fall under § 260.15 of the regulations. These guidelines required that a facility's quality control system have a written plan of the operation, identification of control points with acceptance criteria and a corrective action plan, as well as identified personnel responsible for oversight of the system.

Affected Public: Business or other forprofit organizations; not-for-profit institutions; state, local, or tribal government.

Frequency: On occasion.

Respondent's Obligation: Required to obtain or retain benefits.

Takes of Marine Mammals Incidental to Specified Activities; Taking Marine Mammals Incidental to a Wharf Maintenance Project

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of an incidental harassment authorization.

SUMMARY: In accordance with the regulations implementing the Marine Mammal Protection Act (MMPA) as amended, notification is hereby given that NMFS has issued an incidental harassment authorization (IHA) to the U.S. Navy (Navy) to incidentally harass, by Level B harassment only, five species of marine mammals during construction activities as part of a wharf maintenance project conducted in the Hood Canal, Washington.

DATES: This IHA is effective from July 16, 2015, through January 15, 2016.

FOR FURTHER INFORMATION CONTACT: Ben Laws, Office of Protected Resources, NMFS, (301) 427–8401.

SUPPLEMENTARY INFORMATION:

Availability

An electronic copy of the Navy's application and supporting documents, as well as a list of the references cited in this document, may be obtained by visiting the Internet at: www.nmfs.noaa.gov/pr/permits/ incidental/construction.htm. In case of problems accessing these documents, please call the contact listed above (see FOR FURTHER INFORMATION CONTACT).

Background

Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 *et seq.*) direct the Secretary of Commerce to allow, upon request by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified area, the incidental, but not intentional, taking of small numbers of marine mammals, providing that certain findings are made and the necessary prescriptions are established.

The incidental taking of small numbers of marine mammals may be allowed only if NMFS (through authority delegated by the Secretary) finds that the total taking by the specified activity during the specified time period will (i) have a negligible impact on the species or stock(s) and (ii) not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses (where relevant). Further, the permissible methods of taking and requirements pertaining to the mitigation, monitoring and reporting of such taking must be set forth.

The allowance of such incidental taking under section 101(a)(5)(A), by harassment, serious injury, death, or a combination thereof, requires that regulations be established. Subsequently, a Letter of Authorization may be issued pursuant to the prescriptions established in such regulations, providing that the level of taking will be consistent with the findings made for the total taking allowable under the specific regulations. Under section 101(a)(5)(D), NMFS may authorize such incidental taking by harassment only, for periods of not more than one year, pursuant to requirements and conditions contained within an IHA. The establishment of these prescriptions requires notice and opportunity for public comment.

NMFS has defined "negligible impact" in 50 CFR 216.103 as ". . . an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival." Except with respect to certain activities not pertinent here, section 3(18) of the MMPA defines "harassment" as: ". . . any act of pursuit, torment, or annoyance which (i) has the potential to injure a marine mammal or marine mammal stock in the wild [Level A harassment]; or (ii) has the potential to disturb a marine mammal or marine mammal stock in the wild by causing disruption of behavioral patterns, including, but not limited to, migration, breathing, nursing, breeding, feeding, or sheltering [Level B harassment]."

Summary of Request

On November 4, 2014, we received a request from the Navy for authorization to take marine mammals incidental to pile driving and removal associated with maintenance of an explosives handling wharf (EHW–1) in the Hood Canal at Naval Base Kitsap in Bangor, WA (NBKB). The Navy submitted revised versions of the request on February 27 and March 17, 2015. The latter of these was deemed adequate and complete. The Navy plans to replace four structurally unsound piles, between July 16, 2015, and January 15, 2016.

The use of both vibratory and impact pile driving is expected to produce underwater sound at levels that have the potential to result in behavioral harassment of marine mammals. Species with the expected potential to be present during all or a portion of the inwater work window include the Steller sea lion (Eumetopias jubatus *monteriensis*), California sea lion (Zalophus californianus), harbor seal (Phoca vitulina richardii), killer whale (transient only; Orcinus orca), and harbor porpoise (Phocoena phocoena vomerina). These species may occur vear-round in the Hood Canal, with the exception of the Steller sea lion, which is present only from fall to late spring (approximately late September to early May), and the California sea lion, which is only present from late summer to late spring (approximately late August to early June).

This is the third such IHA for similar work on the same structure. The Navy previously received IHAs for a two-year maintenance project at EHW-1 conducted in 2011-12 and 2012-13 (76 FR 30130 and 77 FR 43049). Additional IHAs were issued to the Navy in recent years for marine construction projects on the NBKB waterfront, including the construction of a second explosives handling wharf (EHW-2) immediately adjacent to EHW-1. Three consecutive IHAs were issued for that project, in 2012-13 (77 FR 42279), 2013-14 (78 FR 43148), and 2014-15 (79 FR 43429). Additional projects include the Test Pile Project (TPP), conducted in 2011–12 in the proposed footprint of the EHW-2 to collect geotechnical data and test methodology in advance of the project (76 FR 38361) and a minor project to install a new mooring for an existing research barge, conducted in 2013-14 (78 FR 43165). In-water work associated with all projects was conducted only during the approved in-water work window (July 16-February 15). Monitoring reports for all of these projects are available on the Internet at www.nmfs.noaa.gov/pr/permits/ incidental/construction.htm and provide environmental information related to issuance of this IHA.

Description of the Specified Activity

Additional detail regarding the specified activity was provided in our **Federal Register** notice of proposed authorization (80 FR 22477; April 22, 2015); please see that document or
