

Description: Request for Limited Tariff Waiver and Request for Expedited Action of New York Power Authority.

Filed Date: 6/18/15.

Accession Number: 20150618–5174.

Comments Due: 5 p.m. ET 6/29/15.

The filings are accessible in the Commission's eLibrary system by clicking on the links or querying the docket number.

Any person desiring to intervene or protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Regulations (18 CFR 385.211 and 385.214) on or before 5:00 p.m. Eastern time on the specified comment date. Protests may be considered, but intervention is necessary to become a party to the proceeding.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: <http://www.ferc.gov/docs-filing/efiling/filing-req.pdf>. For other information, call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Dated: June 19, 2015.

Kimberly D. Bose,

Secretary.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP15–26–000]

Kaiser-Frontier Midstream, LLC; Notice of Availability of the Environmental Assessment for the Proposed Silo Pipeline Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Silo Pipeline Project, proposed by Kaiser-Frontier Midstream, LLC (Kaiser-Frontier) in the above-referenced docket. Kaiser-Frontier requests authorization to construct 21.3 miles of new natural gas pipeline and convert an existing 9.9 mile segment of intrastate pipeline to interstate service. The 31.2-mile-long Silo Pipeline would transport natural gas from Kaiser-Frontier's Silo Gas Processing Plant in Laramie County, Wyoming to an interconnection with Wyoming Interstate Company, LLC in Weld County, Colorado.

The EA assesses the potential environmental effects of the construction and operation of the Silo Pipeline Project in accordance with the

requirements of the National Environmental Policy Act. The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The proposed Silo Pipeline Project includes construction of 6.8 miles of new 6-inch-diameter pipeline (Northern Segment), conversion of an existing 9.9 mile segment of 6-inch-diameter intrastate pipeline to interstate service (Middle Segment), construction of 14.5 miles of 8-inch-diameter pipeline (Southern Segment), and installation of ancillary facilities including pig¹ launchers, pig receivers, and new mainline valves.

The FERC staff mailed copies of the EA to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; newspapers and libraries in the project area; and parties to this proceeding. In addition, the EA is available for public viewing on the FERC's Web site (www.ferc.gov) using the eLibrary link. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street NE., Room 2A, Washington, DC 20426, (202) 502–8371.

Any person wishing to comment on the EA may do so. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that the Commission has the opportunity to consider your comments prior to making its decision on this project, it is important that we receive your comments in Washington, DC on or before July 20, 2015.

For your convenience, there are three methods you can use to file your comments with the Commission. In all instances please reference the project docket number (CP15–26–000) with your submission. The Commission encourages electronic filing of comments and has expert staff available to assist you at 202–502–8258 or efiling@ferc.gov.

(1) You can file your comments electronically using the *eComment*

¹ A pig is a tool that the pipeline company inserts into and pushes through the pipeline for cleaning the pipeline, conducting internal inspections, or other purposes.

feature located on the Commission's Web site (www.ferc.gov) under the link to *Documents and Filings*. This is an easy method for submitting brief, text-only comments on a project;

(2) You can also file your comments electronically using the *eFiling* feature on the Commission's Web site (www.ferc.gov) under the link to *Documents and Filings*. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "*eRegister*." You must select the type of filing you are making. If you are filing a comment on a particular project, please select "Comment on a Filing"; or

(3) You can file a paper copy of your comments by mailing them to the following address: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Room 1A, Washington, DC 20426.

Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedures (18 CFR 385.214).² Only intervenors have the right to seek rehearing of the Commission's decision. The Commission grants affected landowners and others with environmental concerns intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which no other party can adequately represent. Simply filing environmental comments will not give you intervenor status, but you do not need intervenor status to have your comments considered.

Additional information about the project is available from the Commission's Office of External Affairs, at (866) 208–FERC, or on the FERC Web site (www.ferc.gov) using the eLibrary link. Click on the eLibrary link, click on "General Search," and enter the docket number excluding the last three digits in the Docket Number field (*i.e.*, CP15–26). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208–3676, or for TTY, contact (202) 502–8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific

² See the previous discussion on the methods for filing comments.

dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Dated: June 19, 2015.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP15-17-000]

Sabal Trail Transmission, LLC; Supplemental Notice of Intent To Prepare an Environmental Impact Statement for the Proposed Southeast Market Pipelines Project and Request for Comments on Environmental Issues Related to the Newly Proposed Albany Compressor Station Location

In a June 10, 2015, filing with the Federal Energy Regulatory Commission (FERC or Commission), Sabal Trail Transmission, LLC (Sabal Trail) proposed a new location for the Albany Compressor Station, a component of the Sabal Trail Project (Project) in Dougherty County, Georgia. This new site, which is described below, would affect new landowners; therefore, the Commission is issuing this supplemental notice (Notice) to provide landowners and other interested parties an opportunity to comment on the new compressor station location. As previously noticed on February 18, 2014, and as supplemented on October 15, 2014, and supplemented herein, the FERC is the lead federal agency responsible for conducting the environmental review of the Project, and is preparing an environmental impact statement (EIS) that discusses the environmental impacts of the Project. This EIS will be used in-part by the Commission to determine whether the Project is in the public convenience and necessity.

You have been identified as a landowner or an interested party residing within 0.5-mile of the newly proposed compressor station location. Information in this Notice was prepared to familiarize you with the new site and instruct you on how to submit comments. This Notice is also being sent to federal, state, and local government agencies; elected officials; Native American tribes; and local

libraries and newspapers. We encourage elected officials and government representatives to notify their constituents about the Project and inform them on how they can comment on their areas of concern. Please note that comments on this Notice should be filed with the Commission by July 20, 2015.

To help potentially affected landowners and other interested parties better understand the Commission and its environmental review process, the "For Citizens" section of the FERC Web site (www.ferc.gov) provides information about getting involved in FERC jurisdictional projects, and a citizens' guide entitled "An Interstate Natural Gas Facility On My Land? What Do I Need to Know?" This guide addresses a number of frequently asked questions, including the use of eminent domain and how to participate in the Commission's proceedings.

Public Participation

You can make a difference by providing us with your specific comments about the Project. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that your comments are considered in a timely manner and properly recorded, please send your comments so that the Commission receives them in Washington, DC on or before July 20, 2015.

For your convenience, there are three methods you can use to submit your comments to the Commission. In all instances, please reference the Project docket number (CP15-17-000) with your submission. The Commission encourages electronic filing of comments and has expert staff available to assist you at (202) 502-8258 or efiling@ferc.gov.

(1) You can file your comments electronically using the *eComment* feature located on the Commission's Web site (www.ferc.gov) under the link to *Documents and Filings*. This is an easy method for interested persons to submit brief, text-only comments on a project;

(2) You can file your comments electronically using the *eFiling* feature located on the Commission's Web site (www.ferc.gov) under the link to *Documents and Filings*. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "eRegister." You must select

the type of filing you are making. If you are filing a comment on a particular project, please select "Comment on a Filing;" or

(3) You can file a paper copy of your comments by mailing them to the following address: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Room 1A, Washington, DC 20426.

Project Summary and Background

The Project is being reviewed concurrently along with the Florida Southeast Connection Project and the Hillabee Expansion Project. These combined projects would involve the construction and operation of over 650 miles of interstate natural gas transmission pipeline and associated facilities in Alabama, Georgia, and Florida (referred to as the Southeast Market Pipelines Project). The Project would connect with the Hillabee Expansion Project in Alabama, and the Florida Southeast Connection Project in Florida.

On October 16, 2013, the FERC environmental staff approved Sabal Trail's request to use the Commission's Pre-Filing Process under docket number PF14-1-000. The purpose of the Pre-Filing Process is to encourage the early involvement of interested stakeholders to identify and resolve project-related issues before an application is filed with the Commission. During the course of the Pre-Filing Process, numerous concerns were expressed about the potential environmental impacts of the Albany Compressor Station and numerous alternative locations were identified and evaluated. On November 21, 2014, Sabal Trail filed its formal application with the Commission which was accepted for processing under docket CP15-17-000. Since that time, we requested additional information from Sabal Trail in three separate data requests. Sabal Trail responded to each of those requests and provided additional information in nine supplemental filings, including the June 10, 2015 filing in which it informed the Commission of the new, proposed location for the Albany Compressor Station.

Newly Proposed Albany Compressor Station Location

In its November 2014 application, Sabal Trail proposed to locate the Albany Compressor Station along Newton Road just southwest of the City of Albany in Dougherty County (the Newton Road Site). Upon further evaluation, Sabal Trail now proposes to locate the Albany Compressor Station on a 98-acre parcel along West Oakridge
