Safety Zone; Charleston Patriot Festival, Cooper River; Charleston, SC

AGENCY: Coast Guard, DHS.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to establish a safety zone on the Cooper River in Charleston, South Carolina during the International Outboard Grand Prix (IOGP) Charleston Patriot Festival, a series of high-speed boat races. The event is scheduled to take place on Friday, September 11 through Sunday, September 13, 2015. Approximately 25 high-speed race boats are anticipated to participate in the races. This safety zone is necessary to provide for the safety of life and property on navigable waters of the United States during the event. This safety zone would temporarily restrict vessel traffic in a portion of Cooper River in front of River Front Park. Persons and vessels that are not participating in the races would be prohibited from entering, transiting

through, anchoring in, or remaining within the restricted area unless authorized by the Captain of the Port Charleston or a designated representative.

DATES: This proposed rule would be effective from September 11, 2015 until September 13, 2015. It would be enforced on September 11, 2015 from 4:00 p.m. until 6:45 p.m.; on September 12, 2015 from 9:00 a.m. until 7:30 p.m.; and on September 13, 2015 from 10:00 a.m. until 5:45 p.m. There will be periodic river openings between each race.

B. Basis and Purpose

The legal basis for the rule is the Coast Guard's authority to establish a safety zone: 33 U.S.C. 1231; 50 U.S.C. 191; 33 CFR 1.05-1, 6.04-1, 6.04-6, and 160.5; Department of Homeland Security Delegation No. 0170.1.

The purpose of the proposed rule is to protect the safety of spectator and participant vessels and to ensure safety of life and property of the general public on the navigable waters of the United States during the IOGP Charleston Patriot Festival boat races.

C. Discussion of Proposed Rule

On Friday September 11 through Sunday September 13, 2015 the IOGP will host "Charleston Patriot Festival" a series of high-speed boat races. The event will be held on a portion of Cooper River in Charleston, South Carolina. Approximately 25 high-speed race boats are anticipated to participate in the races.

The proposed rule would establish a safety zone to encompass certain waters of the Cooper River in Charleston, South Carolina. The safety zone would be enforced daily: 4:00 p.m. through 6:45 p.m. on September 11, 9:00 a.m. through 7:30 p.m. on September 12, and 10:00 a.m. through 5:45 p.m. on September 13, 2015. There will be periodic river openings to allow vessel traffic to pass between races. The safety zone establishes a regulated area around vessels participating in the event in the vicinity of Cooper River Front Park.

Persons and vessels, except those participating in the race, would be prohibited from entering, transiting through, anchoring, or remaining within the safety zone unless specifically authorized by the Captain of the Port Charleston or a designated representative. Persons and vessels would be able to request authorization to enter, transit through, anchor in, or remain within the regulated area by contacting the Captain of the Port Charleston by telephone at (843) 740-7050, or a designated representative via VHF radio on channel 16. If authorization to enter, transit through, anchor in, or remain within the regulated area is granted by the Captain of the Port Charleston or a designated representative, all persons and vessels receiving such authorization would be required to comply with the instructions of the Captain of the Port Charleston or designated representative. The Coast Guard would provide notice of the safety zone by Local Notice to Mariners, Broadcast Notice to Mariners, and on-scene designated representatives.

D. Regulatory Analyses

We developed this proposed rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes or executive orders.

1. Regulatory Planning and Review

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of Executive Order 12866 or under section 1 of Executive Order 13563. The Office of Management and Budget has not reviewed it under those Orders. The economic impact of this proposed rule is not significant for the following reasons: (1) Although persons and vessels would not be able to enter, transit through, anchor in, or remain within the regulated area without authorization from the Captain of the Port Charleston or a designated representative, they would be able to operate in the surrounding area during the enforcement periods; (2) even during the enforcement periods, the River would periodically open between races to allow vessel traffic to pass; (3) persons and vessels would still be able to enter, transit through, anchor in, or remain within the regulated area if authorized by the Captain of the Port Charleston or a designated

representative; and (4) the Coast Guard would provide advance notification of the regulated area to the local maritime community by Local Notice to Mariners and Broadcast Notice to Mariners.

2. Impact on Small Entities

The Regulatory Flexibility Act of 1980 (RFA), 5 U.S.C. 601-612, as amended, requires federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule will not have a significant economic impact on a substantial number of small entities: This proposed rule may affect the following entities, some of which may be small entities: The owners or operators of vessels intending to enter, transit through, anchor in, or remain within that portion of the Charleston harbor encompassed within the safety zone on September 11, 2015 from 4:00 p.m. until 6:45 p.m.; on September 12, 2015 from 9:00 a.m. until 7:30 p.m.; and on September 13, 2015 from 10:00 a.m. until 5:45 p.m. For the reasons discussed in the Regulatory Planning and Review section above, this proposed rule would not have a significant economic impact on a substantial number of small entities.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104-121), we want to assist small entities in understanding this proposed rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section above. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

4. Collection of Information

This proposed rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520.).

5. Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this proposed rule under that Order and determined that this rule does not have implications for federalism.

6. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

7. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

8. Taking of Private Property

This proposed rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

9. Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

10. Protection of Children From Environmental Health Risks

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from

Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

11. Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

12. Energy Effects

This proposed rule is not a “significant energy action” under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use.

13. Technical Standards

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

14. Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions which do not individually or cumulatively have a significant effect on the human environment. This proposed rule involves establishing a safety zone effective from 4:00 p.m. September 11 through 5:45 p.m. on September 13, 2015. This proposed rule involves establishing a safety zone as described in Figure 2–1, paragraph (34)(g), of the Commandant Instruction. A preliminary environmental analysis checklist supporting this determination and a Categorical Exclusion Determination are available in the docket where indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

I. Background

On June 22, 2010, EPA revised the primary SO₂ NAAQS (hereafter the 2010 SO₂ NAAQS) to establish a new 1-hour standard, with a level of 75 parts per billion, based on the 3-year average of the annual 99th percentile of 1-hour daily maximum concentrations (75 FR 35520). Each state must submit an i-SIP within three years after the promulgation of a new or revised NAAQS. Section 110(a)(2) of the CAA includes a list of specific elements the i-SIP must meet. EPA issued guidance addressing the i-SIP elements for NAAQS.¹ The Secretary of the New Mexico Environmental Department (NMED) submitted an i-SIP revision to address this revised NAAQS.

EPA is proposing to approve the New Mexico i-SIP submittal for the 2010 SO₂ NAAQS.²

II. EPA's Evaluation of New Mexico's i-SIP Submittal

Below is a summary of EPA's evaluation of the New Mexico i-SIP for each applicable element of 110(a)(2) A-M.³ New Mexico provided a demonstration of how the existing New Mexico SIP met all the requirements of the 2010 SO₂ NAAQS on February 14, 2014. This SIP submission became complete by operation of law on August 14, 2014. See CAA section 110(k)(1)(B).
