DEPARTMENT OF ENERGY

[FE Docket No. 14–206–LNG]

Air Flow North America Corp.; Application for Long-Term, Multi-Contract Authorization To Export Liquefied Natural Gas to Non-Free Trade Agreement Countries

AGENCY: Office of Fossil Energy, DOE.
ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt of an application (Application), filed by Air Flow North America Corp. (Air Flow), on December 16, 2014, and subsequently amended. In the Application, Air Flow requests long-term, multi-contract authorization to export domestically produced liquefied natural gas (LNG) by use of approved ISO IMO7–TVAC–ASME LNG (ISO) containers transported on ocean-going carriers to any country located within South America, Central America, the Caribbean, or Africa with which the United States does not have a free trade agreement (FTA) that requires national treatment for trade in natural gas, and with which trade is not prohibited by U.S. law or policy (non-FTA countries). Air Flow seeks authorization to export the LNG on its own behalf in a volume equivalent to approximately 0.67 billion cubic feet (Bcf) per year of natural gas, or 0.002 Bcf per day. Air Flow states that it will obtain its LNG supplies from Clean Energy Fuel Corp. (Clean Energy), and seeks authorization to export the LNG by vessel from Clean Energy’s existing LNG production facility located in Willis, Texas, which Air Flow states has the capability to load LNG onto trucks and ISO containers. Air Flow

states that the LNG would be loaded into its ISO containers; transported via trucks to a seaport in Houston, Texas; then exported by ocean-going cargo vessel from one or more ports in the Southeastern United States (including ports in Texas, Florida, and Louisiana). Air Flow also requests authorization to load at any other U.S. port that is now or in the future will be capable of loading ISO containers. Air Flow asks for the requested authorization to be effective on the date when the order is signed, and to extend until July 31, 2021.2 The Application was filed under section 3(a) of the Natural Gas Act (NGA). Additional details can be found in Air Flow’s Application, posted on the DOE/FE Web site at: http://energy.gov/fe/downloads/air-flow-north-america-corp-fe-dkt-no-14-206-lng.

Protests, motions to intervene, notices of intervention, and written comments are invited.

DATES: Protests, motions to intervene or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed using procedures detailed in the Public Comment Procedures section no later than 4:30 p.m., Eastern time, August 28, 2015.

ADDRESSES:
Electronic Filing by email: fergas@hq.doe.gov.
Hand Delivery or Private Delivery Services (e.g., FedEx, UPS, etc.): U.S. Department of Energy (FE–34), Office of Oil and Gas Global Security and Supply, Office of Fossil Energy, Forrestal Building, Room 3E–042, 1000 Independence Avenue SW., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT:

According to Air Flow, the facility, built in 1994, produces 100,000 gallons of LNG per day, and is able to store 1 million gallons of LNG on site. It has one loading rack, able to load one truck to be loaded with LNG at a time, and up to 12 trucks loaded with LNG per day. See Air Flow North America Corp., Amendment, FE Docket No. 14–206–LNG (May 28, 2015) [Second Amendment].

Air Flow requested this authorization period in an amendment to the Application filed on April 30, 2015, to ensure that the Application accurately reflects Air Flow’s contract with Clean Energy. It supersedes the authorization period requested in the Application. See Air Flow North America Corp., Amendment, FE Docket No. 14–206–LNG (April 30, 2015) [First Amendment].

1 In an amendment to the Application filed on May 28, 2015, Air Flow provided additional information about the Clean Energy facility in Willis, Texas (also known as the Pickens Plant). 2 Air Flow requested this authorization period in an amendment to the Application filed on April 30, 2015.
provided 60 days from the date of publication of this Notice in which to submit comments, protests, motions to intervene, or notices of intervention. Any person wishing to become a party to the proceeding must file a motion to intervene or notice of intervention. The filing of comments or a protest with respect to the Application will not serve to make the commenter or protestant a party to the proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate action to be taken on the Application. All protests, comments, motions to intervene, or notices of intervention must meet the requirements specified by the regulations in 10 CFR part 500.

Filings may be submitted using one of the following methods: (1) Emailing the filing to fer gas@hq.doe.gov, with FE Docket No. 14–206–LNG in the title line; (2) mailing an original and three paper copies of the filing to the Office of Oil and Gas Global Security and Supply at the address listed in ADDRESSES; or (3) hand delivering an original and three paper copies of the filing to the Office of Oil and Gas Global Supply at the address listed in ADDRESSES. All filings must include a reference to FE Docket No. 14–206–LNG. Please Note: If submitting a filing via email, please include all related documents and attachments (e.g., exhibits) in the original email correspondence. Please do not include any active hyperlinks or password protection in any of the documents or attachments related to the filing. All electronic filings submitted to DOE must follow these guidelines to ensure that all documents are filed in a timely manner. Any hardcopy filing submitted greater in length than 50 pages must also include, at the time of the filing, a digital copy on disk of the entire submission.

A decisional record on the Application will be developed through responses to this notice by parties, including the parties’ written comments and replies thereto. Additional procedures will be used as necessary to achieve a complete understanding of the facts and issues. If an additional procedure is scheduled, notice will be provided to all parties. If no party requests additional procedures, a final Opinion and Order may be issued based on the official record, including the Application and responses filed by parties pursuant to this notice, in accordance with 10 CFR 590.316. The Application is available for inspection and copying in the Division of Natural Gas Regulatory Activities docket room, Room 3E–042, 1000 Independence Avenue SW., Washington, DC 20585. The docket room is open between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. The Application and any filed protests, motions to intervene or notice of interventions, and comments will also be available electronically by going to the following DOE/FE Web address: http://www.fje.doe.gov/programs/gasregulation/index.html.

Issued in Washington, DC, on June 23, 2015.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2492–013–Maine]

Woodland Pulp LLC; Notice of Availability of Draft Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission’s (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the application for license for the Vanceboro Dam Storage Project, located on the East Branch of the St. Croix River Washington County, Maine, and has prepared a draft Environmental Assessment (EA) for the project. The project does not occupy any federal land.

The draft EA contains the staff’s analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the draft EA is on file with the Commission and is available for public inspection. The draft EA may also be viewed on the Commission’s Web site at http://www.ferc.gov using the “eLibrary” link. Enter the docket number, excluding the last three digits in the docket number field, to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at 1–866–208–3676, or for TTY, (202) 502–8659. You may also register online at http://www.ferc.gov/docs-filing/esubscription.asp to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

Any comments should be filed within 30 days from the date of this notice. Comments may be filed electronically via the Internet. See 18 CFR 385.201(a)(1)(iii) and the instructions on the Commission’s Web site http://www.ferc.gov/docs-filing/efiling.asp. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at http://www.ferc.gov/docs-filing/eComment.asp. You must include your name and contact information at the end of your comments.

For assistance, please contact FERC Online Support. Although the Commission strongly encourages electronic filing, documents may also be paper-filed. To paper-file, mail comments to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. The first page of any filing should include docket number P–2492–013.

FOR FURTHER INFORMATION CONTACT: Michael Watts at (202) 502–6123 or michael.watts@ferc.gov.

Dated: June 22, 2015.

Kimberly D. Bose, Secretary.

[Docket No. OR15–29–000]

Phillips 66 Carrier LLC; Notice of Petition for Declaratory Order

Take notice that on June 19, 2015, pursuant to Rule 207(a)[2] of the Commission’s Rules of Practice and Procedure, 18 CFR 385.207(a)[2](2014), Phillips 66 Carrier LLC (Phillips 66) filed a petition requesting a declaratory order approving the overall tariff and service structure for the Cross-Channel Connector Project (The Project). The Project will reactivate, expand, and reconfigure existing assets to provide capacity to transport refined petroleum products across the Houston Ship Channel, which is part of the Port of Houston in Texas, all as more fully explained in the petition.
