Sec. 16.

The areas described aggregate 1,680.00 acres in Josephine and Curry Counties.

The Assistant Secretary for Land and Minerals Management approved the BLM's petition/application. Therefore, the petition/application constitutes a withdrawal proposal of the Secretary of the Interior (43 CFR 2310.1-3(e)).

The use of a right-of-way, interagency, or cooperative agreement would not adequately constrain non-discretionary uses that may result in disturbance of the lands embraced within the Southwestern Oregon Watershed and Salmon Protection Areas.

There are no suitable alternative sites as the described lands contain the resource values to be protected.

No water rights will be needed to fulfill the purpose of the proposed withdrawal.

Records relating to the application may be examined by contacting the BLM at the above address and phone number.

For a period until September 28, 2015, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal application may present their views in writing to the Oregon State Director, BLM, at the above address. Information regarding the withdrawal application will be available for public review at the BLM Oregon State Office during regular business hours, 8:45 a.m. to 4:30 p.m. Monday through Friday, except Federal holidays. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. Individuals who submit written comments may request confidentiality by asking us in your comment to withhold your personal identifying information from public review; however, we cannot guarantee that we will be able to do so.

Notice is hereby given that there will be several public meetings held in

connection with the proposed withdrawal. A notice of the times and places of the public meetings will be announced at least 30 days in advance in the **Federal Register** and through local media, newspapers, and the BLM and the USFS Web sites.

For a period until *June 29, 2017*, subject to valid existing rights, the public and National Forest System lands described in this notice will be segregated from settlement, sale, location, and entry under the public land laws, location and entry under the United States mining laws, and operation of the mineral and geothermal leasing laws, unless the application is denied or canceled or the withdrawal is approved prior to that date.

Licenses, permits, cooperative agreements, or discretionary land use authorizations of a temporary nature that will not significantly impact the values to be protected by the withdrawal may be allowed with the approval of the authorized officer of the BLM or the USFS during the temporary segregation period.

The application will be processed in accordance with the regulations set forth in 43 CFR part 2300.

Fred O'Ferrall,

Chief, Branch of Land, Minerals, and Energy Resources.
