

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-75273; File No. SR-NYSEARCA-2015-38]

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Designation of Longer Period for Commission Action on Proposed Rule Change Adopting New Equity Trading Rules Relating to Trading Sessions, Order Ranking and Display, and Order Execution To Reflect the Implementation of Pillar, the Exchange's New Trading Technology Platform

June 23, 2015.

On April 30, 2015, NYSE Arca, Inc. ("Arca") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposed rule change to adopt new equity trading rules relating to Trading Sessions, Order Ranking and Display, and Order Execution to reflect the implementation of Pillar, the Exchange's new trading technology platform. The proposed rule change was published for comment in the **Federal Register** on May 19, 2015.³ The Commission received no comment letters regarding the proposed rule change.

Section 19(b)(2) of the Act⁴ provides that within 45 days of the publication of notice of the filing of a proposed rule change, or within such longer period up to 90 days as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or as to which the self-regulatory organization consents, the Commission shall either approve the proposed rule change, disapprove the proposed rule change, or institute proceedings to determine whether the proposed rule change should be approved or disapproved. The 45th day for this filing is July 3, 2015.

The Commission is extending the 45-day time period for Commission action on the proposed rule change. The Commission finds that it is appropriate to designate a longer period within which to take action on the proposed rule change so that it has sufficient time to consider the proposed rule change.

Accordingly, pursuant to Section 19(b)(2) of the Act⁵ and for the reasons stated above, the Commission designates August 17, 2015, as the date

by which the Commission should either approve or disapprove, or institute proceedings to determine whether to approve or disapprove, the proposed rule change.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.⁶

Application for a Social Security Number Card, the Social Security Number Application Process (SSNAP), and Internet SSN Replacement Card

(iSSNRC) Application—20 CFR 422.103–422.110—0960–0066. SSA collects information on the SS-5 (used in the United States) and SS-5-FS (used outside the United States) to issue original or replacement Social Security cards. SSA also enters the application data into the Social Security Number Application Process (SSNAP) when applicants request a new or replacement card via telephone or in person. In addition, hospitals collect the same information on SSA's behalf for newborn children through the Enumeration-at-Birth process. In this process, parents of newborns provide hospital birth registration clerks with information required to register these newborns. Hospitals send this information to State Bureaus of Vital Statistics (BVS), and they send the information to SSA's National Computer Center. SSA then uploads the data to the SSA mainframe along with all other enumeration data, and we assign the newborn a Social Security number

(SSN) and issue a Social Security card. Respondents can also use these modalities to request a change in their SSN records. Additionally, the iSSNRC application will collect information similar to the paper SS-5 for no-change replacement SSN cards for adult U.S. citizens. A new iSSNRC modality included in the current clearance will allow certain applicants for an SSN replacement card to apply by completing an internet application and submitting the required evidence online rather than completing a paper Form SS-5, Application for a Social Security Card. The respondents for this collection are applicants for original and replacement Social Security cards, or individuals who wish to change information in their SSN records, who use any of the modalities described above.

Type of Request: Revision of an OMB-approved information collection.

Application scenario	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)
Respondents who do not have to provide parents' SSNs	10,500,000	1	8.5	1,487,500
Adult U.S. Citizens requesting a replacement card with no changes through new iSSNRC modality*	1,500,000	1	5	125,000
Respondents whom we ask to provide parents' SSNs (when applying for original SSN cards for children under age 18)	400,000	1	9	60,000
Applicants age 12 or older who need to answer additional questions so SSA can determine whether we previously assigned an SSN	1,500,000	1	9.5	237,500
Applicants asking for a replacement SSN card beyond the new allowable limits (i.e., who must provide additional documentation to accompany the application)	900	1	60	900
Authorization to SSA to obtain personal information cover letter	500	1	15	125
Authorization to SSA to obtain personal information follow-up cover letter ..	500	1	15	125
Totals	13,901,900	1,911,150

* The total timeline for complete national coverage of the iSSNRC application is two years from the date of initial implementation and is dependent on the contractor enrolling each State into the network. By fiscal year 2018, we would expect to issue about 1.5 million replacement cards annually via the iSSNRC application. However, the estimated volume could vary based on the date of implementation, when the contractor acquires States, and our marketing efforts to the public.

Cost Burden: The state BVSs incur costs of approximately \$11 million for transmitting data to SSA's mainframe. However, SSA reimburses the states for these costs.

Dated: June 24, 2015.

Faye I. Lipsky,

Reports Clearance Officer, Social Security Administration.
