INTERNATIONAL TRADE COMMISSION

[Investigation No. 337–TA–613 Remand]

Certain 3G Mobile Handsets and Components Thereof; Commission Decision to Review in Part a Final Initial Determination on Remand; Request for Written Submissions

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined to review in part the presiding administrative law judge’s (“ALJ”) final initial determination on remand (“RID”) issued on April 27, 2015, making

findings concerning whether there is a violation of section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337 (“section 337”).

Copies of non-confidential documents filed in connection with this investigation are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436, telephone (202) 205–2000. The public record for this investigation may be viewed on the Commission’s electronic docket (EDIS) at <http://edis.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission’s TDD terminal on (202) 205–1810.

SUPPLEMENTARY INFORMATION: The Commission instituted Inv. No. 337–TA–613 on September 11, 2007, based on a complaint filed by InterDigital Communications Corp. of King of Prussia, Pennsylvania and InterDigital Technology Corp. of Wilmington, Delaware (collectively, “InterDigital”) on August 7, 2007. 72 FR 51838 (Sept. 11, 2007). The complaint, as amended, alleged violations of section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain 3G mobile handsets and components thereof by reason of infringement of certain claims of U.S. Patent Nos. 7,117,004 (“the ‘004 patent”); 7,190,966 (“the ‘966 patent”); 7,286,847 (“the ‘847 patent”); and 6,693,579 (“the ‘579 patent”). The Notice of Investigation named Nokia Corporation of Espoo, Finland (“Nokia”) and Nokia Inc. of Irving, Texas (“Nokia Inc.”) as respondents. The Office of Unfair Import Investigations (“OUII”) was named as a participating party. The Commission later amended the Notice of Investigation to substitute complainant InterDigital Communications, Inc. for InterDigital Communications Corp. Notice (Feb. 15, 2015); Order No. 53 (Jan. 14, 2015). The Commission also later amended the Notice of Investigation to add Microsoft Mobile OY (“MMO”) as a party. 79 FR 43068–69 (July 24, 2014).

On February 13, 2009, InterDigital moved for summary determination that a domestic industry exists because its licensing activities in the United States satisfy the domestic industry requirement under 19 U.S.C. 1337(a)(3)(C). On March 10, 2009, the presiding Administrative Law Judge (“ALJ”) issued an initial determination (“ID”) (Order No. 42) granting the motion. On April 9, 2009, the Commission determined not to review the ID. Notice (Apr. 9, 2009).

On August 14, 2009, the ALJ issued his final ID, finding no violation of section 337. In particular, he found that the asserted claims of the patents-in-suit are not infringed and that they are not invalid. The ALJ further found no prosecution laches relating to the ‘004, ‘966, and ‘847 patents and that the ‘579 patent is not unenforceable.

On October 16, 2009, the Commission determined to review the final ID in part. 74 FR 55068–69 (Oct. 26, 2009) (“Notice of Review”). In particular, although the Commission affirmed the ID’s determination of no violation of section 337 and terminated the investigation, the Commission reviewed and modified the ID’s claim construction of the term “access signal” found in the asserted claims of the ‘847 patent. The Commission also reviewed, but took no position on, the ID’s construction of the term “synchronize” found in the asserted claims of the ‘847 patent. The Commission further reviewed, but took no position on, validity with respect to all of the asserted patents. The Commission did not review the ID’s construction of the claim limitations “code” and “increased power level” in the asserted claims of the ‘966 and ‘847 patents.

InterDigital timely appealed the Commission’s final determination of no violation of section 337 as to claims 1, 3, 8, 9, and 11 of the ‘966 patent and claim 5 of the ‘847 patent to the Federal Circuit. Specifically, InterDigital appealed the final ID’s unreviewed constructions of the claim limitations “code” and “increased power level” in the ‘966 and ‘847 patents. Respondent Nokia, the intervenor on appeal, raised as an alternate ground of affirmance the issue of whether the Commission correctly determined that InterDigital has a license-based domestic industry.

On August 1, 2012, the Federal Circuit reversed the Commission’s construction of the claim limitations “code” and “increased power level” in the ‘966 and ‘847 patents, reversed the Commission’s determination of non-infringement as to the asserted claims of those patents, and remanded to the Commission for further proceedings.
