

entitled Evaluation of Emergency Department Crisis Center Follow-up, is to examine the impact of crisis center follow-up with patients admitted to emergency departments or inpatient behavioral health units following a suicide attempt or serious suicidal ideation on subsequent readmissions for suicidal behavior. This effort assesses the capacity of follow-up to save both lives and critical hospital resources. This evaluation effort includes one data collection activity. Clearance is being requested for the continuation and expansion of the already-approved abstraction of hospital data on patients admitted to emergency departments or inpatient behavioral health units following a suicide attempt or serious ideation. This effort will continue to examine the impact of crisis center follow-up on readmissions for suicidal behavior. The data collected through this project will ultimately help SAMHSA to understand and direct crisis center follow-up lifesaving

initiatives. The data collection activity is described below.

Hospitals collaborating with two cohorts (cohorts IV and V) of Lifeline crisis centers will participate in this expanded initiative. Fifteen hospitals per cohort will participate for a total of 30. Patient data will be collected for patients admitted for a suicide attempt in the two years prior to collaboration between the hospital and crisis center and for patients admitted for a suicide attempt for the two-year period after collaboration.

The Hospital Data Abstraction Form will be utilized to collect systematic patient data for patients seen in the 30 participating hospitals' emergency departments or inpatient behavioral health units. Information to be abstracted from patient data include: Demographic data, historical data, and subsequent suicidal behavioral and admission data. Data will be de-identified. Hospital staff will review patient data for qualifying (*i.e.*,

admission to the emergency department for suicide attempt) records. Records to be reviewed will include emergency department or inpatient behavioral health unit admissions for the two years prior to crisis center and hospital collaboration and for two years following collaboration. It is expected that a total of 30,000 records will be abstracted by hospital staff and provided to the evaluation team.

This revision involves an increase in the number of participating hospital respondents and burden associated with the continuation/expansion of the already-approved Hospital Data Abstraction Form (OMB No. 0930-0337; Expiration 09/30/2016), as well as the discontinuation of data collection and burden associated with the Crisis Center Data Abstraction Form.

The estimated response burden to collect this information is as follows annualized over the requested three-year clearance period is presented below:

TOTAL AND ANNUALIZED AVERAGES: RESPONDENTS, RESPONSES, AND HOURS

Instrument	Number of respondents	Responses per respondent*	Total number of responses	Burden per response	Annual burden*
Hospital Data Abstraction Form	30	334	10,020	.04	401

* Rounded to the nearest whole number.

Privacy Act

Anyone can search the electronic form of comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review a Privacy Act notice regarding our public dockets

in the January 17, 2008, issue of the **Federal Register** (73 FR 3316).

Background and Purpose

The Coast Guard published a Notice of Study in the **Federal Register** of December 05, 2014 entitled, "Port Access Route Study (PARS) in the Chuckchi Sea, Bering Strait and Bering Sea". This original notice of study announcement stated the comment period would end on June 3, 2015; however, on February 19, 2015 the Coast Guard issued a notice in the **Federal Register** which errantly stated the comment period would end on August 18, 2015. The Coast Guard placed a correction notice in the **Federal Register** informing the public of the error but because this error was caused by the Coast Guard we are extending the public comment period through August 18, 2015 to ensure all interested members of the public are able to submit their comments to the docket.

Dated: July 2, 2015.

D.B. Abel,

Rear Admiral, U.S. Coast Guard Commander, Seventeenth Coast Guard District.
