DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and

Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).
Title: Southeast Region Permit Family of Forms.

OMB Control Number: 0648-0205.

Form Number(s): None.

Type of Request: Regular (revision of a currently approved information collection).

Number of Respondents: 13,409.

Average Hours per Response: 30 minutes.

Burden Hours: 5,836.

Needs and Uses: The collection consists of vessel and dealer permits that are part of the National Marine Fisheries Service (NMFS) program to manage fisheries in the Southeast Region. The fisheries in the Southeast Region are managed under the Magnuson-Stevens Fishery Conservation and Management Act (MSA) (16 U.S.C. 1801) and regulations at 50 CFR part 622, 50 CFR part 635 and 50 CFR prt 300. NMFS issues permits to fishing vessels and dealers in order to collect information necessary to comply with domestic and international fisheries obligations, secure compliance with regulations, and disseminate necessary information.

This revision would amend the "Federal Permit Application for Vessels Fishing in the Exclusive Economic Zone (EEZ)" to add the collection of an International Maritime Organization/Lloyd's Registry (IMO/LR) number to the permit application for commercial HMS vessels ≥ 20 meters (65'7") in length that are obtaining or renewing a HMS limited access permit, including the Atlantic tuna longline, shark incidental, shark directed, swordfish incidental, swordfish directed, and swordfish handgear permits. The International Commission for the Conservation of Atlantic Tunas (ICCAT) approved a recommendation (13-13) for Contracting Parties to require commercial vessels ≥ 20 meters (65'7") in length to obtain an IMO/LR number from IHS/Fairplay by no later than January 1, 2016. Permit applications that do not contain the required supporting documents will be considered incomplete.

This revision would also change the Report for the Deposit or Harvest of Aquacultured Live Rock by adding language to the instructions, specifically, "If not originally approved, then provide a new sample of rock," adding the USCG documentation number or state registration number for

the primary vessel the permit is used on, changing the wording in the instructions for the box describing the deposited material to include the "type and specific geographic origin" of the material, and adding a yes/no check box for whether a sample of the deposit material has been provided to NMFS.

Also, this revision removes the responses, time and cost burden associated with the South Atlantic rock shrimp VMS requirement and transfers those responses, time and cost burden to the OMB Control No. 0648-0544 information collection.

Affected Public: Business or other for-profit organizations.

Frequency: Annually and on occasion.

Respondent's Obligation: Mandatory.

This information collection request may be viewed at *reginfo.gov*. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *OIRA_Submission@omb.eop.gov* or fax to (202) 395-5806.

Dated: July 9, 2015.

Marine Mammals; File No. 14534

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of permit amendment.

SUMMARY: Notice is hereby given that NOAA's Office of Science and Technology, Silver Spring, MD, (Brandon Southall, Ph.D.—Principal Investigator) has been issued a minor amendment to Scientific Research Permit No. 14534-02.

ADDRESSES: The amendment and related documents are available for review upon written request or by appointment in the Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427-8401; fax (301) 713-0376.

FOR FURTHER INFORMATION CONTACT: Courtney Smith or Howard Goldstein, (301) 427-8401.

SUPPLEMENTARY INFORMATION: The requested amendment has been granted under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*) and the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of

1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222 through 226).

The original permit (No. 14534), issued on July 2, 2010 (75 FR 39665) through June 30, 2015 authorized research on a variety of marine mammals, and involves temporarily attaching individual recording tags to measure vocalization, diving and other behaviors, and physiological parameters before, during, and after carefully controlled exposures of sound in conventional playback experiments. The research is focused in the waters within the U.S. Navy's Southern California Range Complex, and primarily near the vicinity of San Clemente Island. A minor amendment to the permit (No. 14534-01) was issued on August 30, 2010 to combine long-beaked common dolphins and short-beaked common dolphins into a single "unidentified common dolphin" category for takes by harassment incidental to the playbacks.

A second, major amendment (No. 14534-02) was issued on May 14, 2012 (77 FR 33199) that added endangered humpback whales (*Megaptera novaeangliae*) as an additional focal species for tagging and intentional exposure to sound playbacks with associated behavioral observations. The amendment also increased the number of non-ESA listed minke whales (*Balaenoptera acutorostrata*) and killer whales (*Orcinus orca*) that may be harassed annually.

The current minor amendment (No. 14534-03) extends the duration of the permit through June 30, 2016, but does not change any other terms or conditions of the permit.

Dated: July 9, 2015.

Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.
