SUPPLEMENTARY INFORMATION:
Authority for This Rulemaking
The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the
safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend controlled airspace at the Missouri airports listed in this NPRM.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both the docket number and proposal number, amend Class E airspace areas, air traffic service routes, and reporting points.

The Proposal

This action proposes to amend Title 14, Code of Federal Regulations (14 CFR), Part 71 by modifying Class E airspace extending upward from 700 feet or more above the surface for standard instrument approach procedures (SIAP) at Chillicothe Municipal Airport, Chillicothe, MO; Cuba Municipal Airport, Cuba, MO; Farmington Regional Airport, Farmington, MO; Lamar Municipal Airport, Lamar, MO; Mountain View Airport, Mountain View, MO; Nevada Municipal Airport, Nevada, MO; and Poplar Bluff Municipal Airport, Poplar Bluff, MO. Also, Class E airspace extending upward from the surface would be amended at Farmington Regional Airport, Farmington, MO. Airspace reconfiguration is necessary due to the decommissioning of NDBs and/or cancellation of the NDB approach at each airport. Controlled airspace is necessary for the safety and management of IFR operations for SIAPs at the airports. Geographic coordinates also would be adjusted for Lamar Municipal Airport, Lamar, MO; Nevada Municipal Airport, Nevada, MO; and Poplar Bluff Municipal Airport, Poplar Bluff, MO, to coincide with the FAA's aeronautical database. Class E airspace areas are published in Paragraph 6005 of FAA Order 7400.9Y, dated August 6, 2014, and effective September 15, 2014, is amended as follows:

**PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS**
