Statistics, including whether the information will have practical utility;  
—Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;  
—Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and  
—Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

1. Type of Information Collection: Revision and extension of a currently approved collection of the Department of Justice Equitable Sharing Agreement and Certification, a previously approved collection for which approval will expire on January 31, 2018.

2. The Title of the Form/Collection: Department of Justice Equitable Sharing Agreement and Certification.

3. The agency form number, if any, and the applicable component of the Department sponsoring the collection: There is not an agency form number. The applicable component within the Department of Justice is the Asset Forfeiture and Money Laundering Section, in the Criminal Division.

4. Affected public who will be asked or required to respond, as well as a brief abstract:

The Attorney General is required by statute to “assure that any property transferred to a State or local law enforcement agency . . . will serve to encourage further cooperation between the recipient State or local agency and Federal law enforcement agencies.” 21 U.S.C. 881(e)(3). The Asset Forfeiture and Money Laundering Section (AFMLS) ensures such cooperation by requiring that all such “equitably shared” funds be used only for law enforcement purposes and not be distributed to other governmental agencies by the recipient law enforcement agencies. By requiring that law enforcement agencies that participate in the Equitable Sharing Program (Program) file an Equitable Sharing Agreement and Certification (ESAC), AFMLS can readily ensure compliance with its statutory obligations.

The ESAC requires information regarding the receipt and expenditure of Program funds from the participating agency. Accordingly, it seeks information that is exclusively in the hands of the participating agency.

5. An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: An estimated 7,600 state and local law enforcement agencies electronically file the ESAC annually with AFMLS. It is estimated that it takes 30 minutes per year to enter the information. All of the approximately 7,600 agencies must fully complete the form each year to maintain compliance and continue participation in the Department of Justice Equitable Sharing Program.

6. An estimate of the total public burden (in hours) associated with the collection: The estimated public burden associated with this collection is 3,800 hours. It is estimated that respondents will take 30 minutes to complete the form. (7,600 participants x 30 minutes = 3,800 hours).

If additional information is required contact: Jerri Murray, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution Square, 145 N Street NE., 3E.405B, Washington, DC 20530.

Dated: July 14, 2015.

Jerri Murray,  
Department Clearance Officer for PRA, U.S. Department of Justice.

BILLING CODE 4410–14–P

DEPARTMENT OF LABOR

Mine Safety and Health Administration  
[OMB Control No. 1219–0082]

Proposed Extension of Information Collection; Records of Preshift and Onshift Inspections of Slope and Shaft Areas of Slope and Shaft Sinking Operations at Coal Mines

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Request for public comments.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed collections of information in accordance with the Paperwork Reduction Act of 1995, 44 U.S.C. 3506(c)(2)(A). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments on the information collection for Records of Preshift and Onshift Inspections of Slope and Shaft Areas of Slope and Shaft Sinking Operations at Coal Mines.

DATES: All comments must be received on or before September 15, 2015.

ADDRESSES: Comments concerning the information collection requirements of this notice may be sent by any of the methods listed below.

• Regular Mail: Send comments to USDOL–MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, Suite 4E401, Arlington, VA 22202–5452.

• Hand Delivery: USDOL–Mine Safety and Health Administration, 201 12th Street South, Suite 4E401, Arlington, VA 22202–5452. Sign in at the receptionist’s desk on the 4th floor via the East elevator.

FOR FURTHER INFORMATION CONTACT: Sheila McConnell, Acting Director, Office of Standards, Regulations, and Variances, MSHA, at MSHA.information.collections@dol.gov (email); 202–693–9440 (voice); or 202–693–9441 (facsimile).

SUPPLEMENTARY INFORMATION:

I. Background

The sinking of slopes and shafts is a particularly hazardous operation where conditions change drastically in short periods of time. Explosive methane and other harmful gases can be expected to infiltrate the work environment at any time. The working environment is typically a confined area in close proximity to moving equipment. Accordingly, 30 CFR Section 77.1901 requires operators to conduct examinations of slope and shaft areas for hazardous conditions, including tests for methane and oxygen deficiency, within 90 minutes before each shift, once during each shift, and before and after blasting. The surface area surrounding each slope and shaft is also required to be inspected for hazards.

The standard also requires that a record be kept of the results of the inspections. The record includes a
description of any hazardous condition found and the corrective action taken to abate it. The record is necessary to ensure that the inspections and tests are conducted in a timely fashion and that corrective action is taken when hazardous conditions are identified, thereby ensuring a safe working environment for the slope and shaft sinking employees. The record is maintained at the mine site for the duration of the operation.

II. Desired Focus of Comments

MSHA is soliciting comments concerning the proposed information collection related to Records of Preshift and Onshift Inspections of Slope and Shaft Areas of Slope and Shaft Sinking Operations at Coal Mines. MSHA is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility;
- Evaluate the accuracy of MSHA’s estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

The information collection request will be available on http://www.regulations.gov. MSHA cautions the commenter against providing any information in the submission that should not be publicly disclosed. Full comments, including personal information provided, will be made available on www.regulations.gov and www.reginfo.gov.

The public may also examine publicly available documents at USDOL-Mine Safety and Health Administration, 201 12th Street South, Suite 4E01, Arlington, VA 22202–5452. Sign in at the receptionist’s desk on the 4th floor via the East elevator.

Questions about the information collection requirements may be directed to the person listed in the FOR FURTHER INFORMATION CONTACT section of this notice.

III. Current Actions

This request for collection of information contains provisions for

Records of Preshift and Onshift Inspections of Slope and Shaft Areas of Slope and Shaft Sinking Operations at Coal Mines. MSHA has updated the data with respect to the number of respondents, responses, burden hours, and burden costs supporting this information collection request.

Type of Review: Extension, without change, of a currently approved collection.

Agency: Mine Safety and Health Administration.

OMB Number: 1219–0082.

Affected Public: Business or other for-profit.

Number of Respondents: 19.

Frequency: On occasion.

Number of Responses: 8,360.

Annual Burden Hours: 10,450 hours.

Annual Respondent or Recordkeeper Cost: $0.

Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated: July 13, 2015.

Sheila McConnell, Certifying Officer.

BILLING CODE 4510–43–P

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Petitions for Modification of Application of Existing Mandatory Safety Standards

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Notice.

SUMMARY: Section 101(c) of the Federal Mine Safety and Health Act of 1977 and Title 30 of the Code of Federal Regulations, 30 CFR part 44, govern the application, processing, and disposition of petitions for modification. This notice is a summary of petitions for modification submitted to the Mine Safety and Health Administration (MSHA) by the parties listed below.

DATES: All comments on the petitions must be received by the Office of Standards, Regulations, and Variances on or before August 17, 2015.

ADDRESSES: You may submit your comments, identified by “docket number” on the subject line, by any of the following methods:

1. Electronic Mail: zzMSHA-comments@dol.gov. Include the docket number of the petition in the subject line of the message.

3. Regular Mail or Hand Delivery: MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, Suite 4E01, Arlington, Virginia 22202–5452. Attention: Sheila McConnell, Acting Director, Office of Standards, Regulations, and Variances. Persons delivering documents are required to check in at the receptionist’s desk in Suite 4E01. Individuals may inspect copies of the petitions and comments during normal business hours at the address listed above.

MSHA will consider only comments postmarked by the U.S. Postal Service or proof of delivery from another delivery service such as UPS or Federal Express on or before the deadline for comments.

FOR FURTHER INFORMATION CONTACT:

Barbara Barron, Office of Standards, Regulations, and Variances at 202–693–9447 (Voice), barron.barbara@dol.gov (Email), or 202–693–9441 (Facsimile).

[These are not toll-free numbers.]

SUPPLEMENTARY INFORMATION:

I. Background

Section 101(c) of the Federal Mine Safety and Health Act of 1977 (Mine Act) allows the mine operator or representative of miners to file a petition to modify the application of any mandatory safety standard to a coal or other mine if the Secretary of Labor determines that:

1. An alternative method of achieving the result of such standard exists which will at all times guarantee no less than the same measure of protection afforded the miners of such mine by such standard; or

2. That the application of such standard to such mine will result in a diminution of safety to the miners in such mine.

In addition, the regulations at 30 CFR 44.10 and 44.11 establish the requirements and procedures for filing petitions for modification.

II. Petitions for Modification

Mine: Peerless Rachel Mine, MSHA. I.D. No. 46–09258, located in Boone County, West Virginia.

Regulation Affected: 30 CFR 75.1909(b)(6) (Nonpermissible diesel-powered equipment; design and performance requirements).

Modification Request: The petitioner requests a modification of the existing standard, which requires service brakes that act on each wheel of the vehicle, to permit the use of a Getman diesel grader
