BILLING CODE 7590-01-P

POSTAL REGULATORY COMMISSION

[Docket Nos. MC2015-68 and CP2015-99; Order No. 2581]

New Postal Product

AGENCY: Postal Regulatory Commission.

ACTION: Notice.

SUMMARY: The Commission is noticing a recent Postal Service filing concerning the addition of International Merchandise Return Service Agreements with Foreign Postal Operators Non-Published Rates to the competitive product list. This notice informs the public of the filing, invites public comment, and takes other administrative steps.

DATES: *Comments are due:* July 21, 2015.

ADDRESSES: Submit comments electronically via the Commission's Filing Online system at <http://www.prc.gov>. Those who cannot submit comments electronically should contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section by telephone for advice on filing alternatives.

FOR FURTHER INFORMATION CONTACT: David A. Trissell, General Counsel, at 202-789-6820.

SUPPLEMENTARY INFORMATION:

Table of Contents

- I. Introduction
- II. Notice of Commission Action
- III. Ordering Paragraphs

I. Introduction

In accordance with 39 U.S.C. 3642 and 39 CFR 3020.30 *et seq.*, the United States Postal Service (Postal Service) filed a formal request and associated supporting information to add Competitive International Merchandise Return Service Agreements with Foreign Postal Operators (IMRS-FPO) to the competitive products list.¹ If the

¹ Request of the United States Postal Service to Add Competitive International Merchandise Return Service Agreements with Foreign Postal Operator

proposed product is approved by the Commission, the Postal Service intends to file each new IMRS-FPO agreement in this docket on or before its effective date, pursuant to 39 U.S.C. 407(d). Request at 5 n.8.

To support its Request, the Postal Service filed an application for non-public treatment of materials filed under seal; a redacted copy of Governors' Decision No. 11-6, which authorizes the product; a set of maximum and minimum prices; a statement of supporting justification, as required by 39 CFR 3020.32; a copy of proposed mail classification schedule language; a copy of the IMRS-FPO model agreement; a certification of compliance with 39 U.S.C. 3633(a); a redacted copy of a related management analysis; and supporting financial workpapers.

In the attached statement of supporting justification, the Postal Service asserts the IMRS-FPO would close a gap in currently available postal product offerings and that the proposed product would generate new revenue and encourage growth in cross-border e-commerce via the postal channel. *Id.*, Attachment 3 at 4. The Postal Service further contends that IMRS-FPO belongs on the competitive products list because it will not be subsidized by market dominant products, covers costs attributable to it, does not cause competitive products as a whole to fail to make the appropriate contribution to institutional costs, is part of a market over which the Postal Service does not exercise market dominance, and is not covered by the postal monopoly. Request at 2-4.

II. Notice of Commission Action

The Commission establishes Docket Nos. MC2015-68 and CP2015-99 to consider the Request pertaining to the addition of IMRS-FPO to the competitive products list.

The Commission invites comments on whether the Postal Service's filings in the captioned dockets are consistent with the policies of 39 U.S.C. 3632, 3633, or 3642, 39 CFR part 3015, and 39 CFR part 3020, subpart B. Comments are due no later than July 21, 2015. The public portions of these filings can be accessed via the Commission's Web site (<http://www.prc.gov>).

The Commission appoints James F. Callow to serve as an officer of the Commission to represent the interests of the general public in these proceedings (Public Representative).

(IMRS-FPO) Product to the Competitive Products List and Notice of Filing IMRS-FPO Model Agreement and Application for Non-Public Treatment of Materials Filed Under Seal, July 10, 2015 (Request).

III. Ordering Paragraphs

It is ordered:

1. The Commission establishes Docket Nos. MC2015-68 and CP2015-99 to consider the matters raised in each docket.

2. Pursuant to 39 U.S.C. 505, James F. Callow is appointed to serve as Public Representative in these dockets.

3. Comments are due no later than July 21, 2015.

4. The Secretary shall arrange for publication of this order in the **Federal Register**.

By the Commission.

Ruth Ann Abrams,

Acting Secretary.

BILLING CODE 7710-FW-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-75447; File No. SR-NASDAQ-2015-075]

Self-Regulatory Organizations; The NASDAQ Stock Market LLC; Notice of Filing of Proposed Rule Change Relating to the Listing and Trading of Shares of the First Trust SSI Strategic Convertible Securities ETF of First Trust Exchange-Traded Fund IV

July 14, 2015.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on July 2, 2015, The NASDAQ Stock Market LLC ("Nasdaq" or the "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by Nasdaq. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Nasdaq proposes to list and trade the shares of the First Trust SSI Strategic Convertible Securities ETF (the "Fund") of First Trust Exchange-Traded Fund IV (the "Trust") under Nasdaq Rule 5735 ("Managed Fund Shares").³ The shares

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ The Commission approved Nasdaq Rule 5735 in Securities Exchange Act Release No. 57962 (June 13, 2008), 73 FR 35175 (June 20, 2008) (SR-NASDAQ-2008-039). There are already multiple actively-managed funds listed on the Exchange; *see, e.g.*, Securities Exchange Act Release Nos. 72506

Continued

of the Fund are collectively referred to herein as the “Shares.”

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, Nasdaq included statements concerning the purpose of, and basis for, the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. Nasdaq has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to list and trade the Shares of the Fund under Nasdaq Rule 5735, which governs the listing and trading of Managed Fund Shares⁴ on the Exchange. The Fund will be an actively-managed exchange-traded fund (“ETF”). The Shares will be offered by the Trust, which was established as a Massachusetts business trust on September 15, 2010.⁵ The Trust is registered with the Commission as an investment company and has filed a

(July 1, 2014), 79 FR 38631 (July 8, 2014) (SR–NASDAQ–2014–050) (order approving listing and trading of First Trust Strategic Income ETF); 69464 (April 26, 2013), 78 FR 25774 (May 2, 2013) (SR–NASDAQ–2013–036) (order approving listing and trading of First Trust Senior Loan Fund); and 66489 (February 29, 2012), 77 FR 13379 (March 6, 2012) (SR–NASDAQ–2012–004) (order approving listing and trading of WisdomTree Emerging Markets Corporate Bond Fund). The Exchange believes the proposed rule change raises no significant issues not previously addressed in those prior Commission orders.

⁴ A Managed Fund Share is a security that represents an interest in an investment company registered under the Investment Company Act of 1940 (15 U.S.C. 80a–1) (the “1940 Act”) organized as an open-end investment company or similar entity that invests in a portfolio of securities selected by its investment adviser consistent with its investment objectives and policies. In contrast, an open-end investment company that issues Index Fund Shares, listed and traded on the Exchange under Nasdaq Rule 5705, seeks to provide investment results that correspond generally to the price and yield performance of a specific foreign or domestic stock index, fixed income securities index or combination thereof.

⁵ The Commission has issued an order, upon which the Trust may rely, granting certain exemptive relief under the 1940 Act. See Investment Company Act Release No. 30029 (April 10, 2012) (File No. 812–13795) (the “Exemptive Relief”). In addition, the Commission has issued no-action relief, upon which the Trust may rely, pertaining to the Fund’s ability to invest in options contracts, futures contracts and swap agreements notwithstanding certain representations in the application for the Exemptive Relief. See Commission No-Action Letter (December 6, 2012).

registration statement on Form N–1A (“Registration Statement”) with the Commission.⁶ The Fund will be a series of the Trust. The Fund intends to qualify each year as a regulated investment company (“RIC”) under Subchapter M of the Internal Revenue Code of 1986, as amended.

First Trust Advisors L.P. will be the investment adviser (“Adviser”) to the Fund. SSI Investment Management Inc. will serve as investment sub-adviser (“Sub-Adviser”) to the Fund and provide day-to-day portfolio management. First Trust Portfolios L.P. (the “Distributor”) will be the principal underwriter and distributor of the Fund’s Shares. The Bank of New York Mellon Corporation (“BNY”) will act as the administrator, accounting agent, custodian and transfer agent to the Fund.

Paragraph (g) of Rule 5735 provides that if the investment adviser to the investment company issuing Managed Fund Shares is affiliated with a broker-dealer, such investment adviser shall erect a “fire wall” between the investment adviser and the broker-dealer with respect to access to information concerning the composition and/or changes to such investment company portfolio.⁷ In addition, paragraph (g) further requires that personnel who make decisions on the open-end fund’s portfolio composition must be subject to procedures designed to prevent the use and dissemination of material non-public information

⁶ See Post-Effective Amendment No. 120 to Registration Statement on Form N–1A for the Trust, dated June 25, 2015 (File Nos. 333–174332 and 811–22559). The descriptions of the Fund and the Shares contained herein are based, in part, on information in the Registration Statement.

⁷ An investment adviser to an open-end fund is required to be registered under the Investment Advisers Act of 1940 (the “Advisers Act”). As a result, the Adviser, the Sub-Adviser and their related personnel are subject to the provisions of Rule 204A–1 under the Advisers Act relating to codes of ethics. This Rule requires investment advisers to adopt a code of ethics that reflects the fiduciary nature of the relationship to clients as well as compliance with other applicable securities laws. Accordingly, procedures designed to prevent the communication and misuse of non-public information by an investment adviser must be consistent with Rule 204A–1 under the Advisers Act. In addition, Rule 206(4)–7 under the Advisers Act makes it unlawful for an investment adviser to provide investment advice to clients unless such investment adviser has (i) adopted and implemented written policies and procedures reasonably designed to prevent violation, by the investment adviser and its supervised persons, of the Advisers Act and the Commission rules adopted thereunder; (ii) implemented, at a minimum, an annual review regarding the adequacy of the policies and procedures established pursuant to subparagraph (i) above and the effectiveness of their implementation; and (iii) designated an individual (who is a supervised person) responsible for administering the policies and procedures adopted under subparagraph (i) above.

regarding the open-end fund’s portfolio. Rule 5735(g) is similar to Nasdaq Rule 5705(b)(5)(A)(i); however, paragraph (g) in connection with the establishment of a “fire wall” between the investment adviser and the broker-dealer reflects the applicable open-end fund’s portfolio, not an underlying benchmark index, as is the case with index-based funds. Neither the Adviser nor the Sub-Adviser is a broker-dealer, although the Adviser is affiliated with the Distributor, a broker-dealer. The Sub-Adviser is not affiliated with a broker-dealer. The Adviser has implemented a fire wall with respect to its broker-dealer affiliate regarding access to information concerning the composition and/or changes to the portfolio. In addition, personnel of the Adviser who make decisions on the Fund’s portfolio composition will be subject to procedures designed to prevent the use and dissemination of material non-public information regarding the Fund’s portfolio. In the event (a) the Adviser or the Sub-Adviser becomes, or becomes newly affiliated with, a broker-dealer, or (b) any new adviser or sub-adviser is a registered broker-dealer or becomes affiliated with another broker-dealer, it will implement a fire wall with respect to its relevant personnel and/or such broker-dealer affiliate, as applicable, regarding access to information concerning the composition and/or changes to the portfolio and will be subject to procedures designed to prevent the use and dissemination of material non-public information regarding such portfolio.

First Trust SSI Strategic Convertible Securities ETF

The investment objective of the Fund will be to seek total return. To achieve its objective, the Fund will invest, under normal market conditions,⁸ at least 80% of its net assets (including investment

⁸ The term “under normal market conditions” as used herein includes, but is not limited to, the absence of adverse market, economic, political or other conditions, including extreme volatility or trading halts in the fixed income markets or the financial markets generally; operational issues causing dissemination of inaccurate market information; or force majeure type events such as systems failure, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labor disruption or any similar intervening circumstance. On a temporary basis, including for defensive purposes, during the initial invest-up period and during periods of high cash inflows or outflows, the Fund may depart from its principal investment strategies; for example, it may hold a higher than normal proportion of its assets in cash. During such periods, the Fund may not be able to achieve its investment objective. The Fund may adopt a defensive strategy when the Adviser believes securities in which the Fund normally invests have elevated risks due to political or economic factors and in other extraordinary circumstances.

borrowings) in the following convertible securities:⁹ convertible notes, bonds and debentures; convertible preferred securities; mandatory convertible securities;¹⁰ contingent convertible securities;¹¹ synthetic convertible securities;¹² corporate bonds and preferred securities with attached warrants;¹³ and convertible Rule 144A securities¹⁴ (collectively, “Convertible Securities”).¹⁵

Through its investment process, the Sub-Adviser will attempt to identify attractive Convertible Securities based on its positive view of the Underlying Security or its view of the company’s potential for credit improvement. The Sub-Adviser will begin its investment process by evaluating a large universe of available Convertible Securities and

⁹ Convertible securities are investment instruments that are normally convertible or exchangeable into equity securities (such equity securities are referred to as “Underlying Securities”) and/or the cash equivalent thereof. These equity-linked instruments offer the potential for equity market participation with potential mitigated downside risk in periods of equity market declines.

¹⁰ Mandatory convertible securities are distinguished as a subset of convertible securities because the conversion is not optional and the conversion price is based solely upon the market price of the underlying equity security. Mandatory convertible securities automatically convert on maturity.

¹¹ Contingent convertible securities (which generally provide for conversion under certain circumstances) are distinguished as a subset of convertible securities. Similar to mandatory convertible securities (and unlike traditional convertible securities), some contingent convertible securities provide for mandatory conversion under certain circumstances. In addition, various contingent convertible securities may contain features that limit an investor’s ability to convert the security unless certain conditions are met.

¹² A synthetic convertible security will (i) consist of two or more distinct securities whose economic characteristics, when taken together, resemble those of traditional convertible securities (*i.e.*, an income-producing security and the right to acquire an equity security through, for example, an option or a warrant) or (ii) be an exchangeable or equity-linked security issued by a broker-dealer, investment bank or other financial institution with proceeds going directly to the broker-dealer, investment bank or other financial institution, as applicable, that has economic characteristics similar to those of traditional convertible securities.

¹³ Other than warrants that represent a component of a synthetic convertible security, the Fund’s investments in warrants will be limited to such attached warrants, and such attached warrants will be exchange-listed.

¹⁴ Under normal market conditions, convertible Rule 144A securities will have, at the time of original issuance, \$100 million or more principal amount outstanding to be considered eligible investments.

¹⁵ The Adviser expects that, under normal market conditions, generally, for a Convertible Security to be considered as an eligible investment, after taking into account such an investment, at least 75% of the Fund’s net assets that are invested in Convertible Securities will be comprised of Convertible Securities that will have, at the time of original issuance, \$200 million or more par amount outstanding.

screening for liquidity and convexity. Convexity is the ratio of upside move in the Convertible Security in conjunction with appreciation of the Underlying Security relative to the downside move in the Convertible Security in conjunction with depreciation of the Underlying Security. The screening process will rely on the Sub-Adviser’s fundamental credit evaluation of the issuers. This credit analysis will allow the Sub-Adviser to attempt to identify the downside risk of the Convertible Security, assess the value of the embedded equity and understand the amount of participation expected with a change in the price of the Underlying Security. Once attractive Convertible Securities (*i.e.*, Convertible Securities that are most highly ranked, based on a ranking system incorporating target characteristics) have been identified, the Sub-Adviser will use fundamental equity analysis to determine which of the attractive Convertible Securities it believes have a sound Underlying Security with potential for increase in value. In conjunction with its analysis, the Sub-Adviser will review the overall economic situation. In this regard, the Fund will be actively managed, whereby, the Sub-Adviser will assess the position of the economic cycle and the performance outlook for certain economic sectors. The Sub-Adviser will, at times, overweight or underweight different economic sectors, market capitalizations, and credit quality exposures relative to the available universe of Convertible Securities. The Sub-Adviser may also adjust the sensitivity of the portfolio to movements in the equity market and to interest rates based on the macroeconomic outlook. The Fund may manage the market exposure defensively during periods of market distress.

The Fund will invest in Convertible Securities of any credit quality, including unrated securities, and with effective or final maturities of any length. Convertible Securities may be issued by domestic or foreign entities.

The Fund will hold debt securities (including, in the aggregate, Convertible Securities and the debt securities described below) of at least 13 non-affiliated issuers.

Other Investments of the Fund

The Fund may invest up to 20% of its net assets in short-term debt securities and other short-term debt instruments (described below), as well as cash equivalents, or it may hold cash. The percentage of the Fund invested in such holdings will vary and will depend on several factors, including market conditions.

Short-term debt instruments are issued by issuers having a long-term debt rating of at least A by Standard & Poor’s Ratings Services (“S&P Ratings”), Moody’s Investors Service, Inc. (“Moody’s”) or Fitch Ratings (“Fitch”) and have a maturity of one year or less. The Fund may invest in the following short-term debt instruments: (1) Fixed rate and floating rate U.S. government securities, including bills, notes and bonds differing as to maturity and rates of interest, which are either issued or guaranteed by the U.S. Treasury or by U.S. government agencies or instrumentalities; (2) certificates of deposit issued against funds deposited in a bank or savings and loan association; (3) bankers’ acceptances, which are short-term credit instruments used to finance commercial transactions; (4) repurchase agreements,¹⁶ which involve purchases of debt securities; (5) bank time deposits, which are monies kept on deposit with banks or savings and loan associations for a stated period of time at a fixed rate of interest; (6) commercial paper, which is short-term unsecured promissory notes;¹⁷ and (7) corporate debt obligations.

The Fund may invest up to 20% of its net assets in exchange-traded notes (“ETNs”).

The Fund may invest up to 20% of its net assets in exchange-listed equity securities (referred to collectively as “Equity Securities”).¹⁸ In addition to U.S. exchange-listed equity securities of domestic issuers, Equity Securities may include securities of foreign issuers that are listed on U.S. or foreign exchanges as well as investments in equity securities that are in the form of American Depositary Receipts (“ADRs”) or Global Depositary Receipts (“GDRs”, and together with ADRs, “Depositary Receipts”).¹⁹

¹⁶ The Fund intends to enter into repurchase agreements only with financial institutions and dealers believed by the Adviser and/or the Sub-Adviser to present minimal credit risks in accordance with criteria approved by the Board of Trustees of the Trust (“Trust Board”). The Adviser and/or the Sub-Adviser will review and monitor the creditworthiness of such institutions. The Adviser and/or the Sub-Adviser will monitor the value of the collateral at the time the transaction is entered into and at all times during the term of the repurchase agreement.

¹⁷ The Fund may only invest in commercial paper rated A–1 or higher by S&P Ratings, Prime-1 or higher by Moody’s or F1 or higher by Fitch.

¹⁸ The Fund may hold Equity Securities either through direct investment or upon conversion of a Convertible Security into its corresponding Underlying Security (referred to as a “Post-Conversion Underlying Security”).

¹⁹ The Fund will not invest in any unsponsored Depositary Receipts. In addition, for the avoidance of doubt, the term “Equity Securities” may include

The Fund may invest up to 20% of its net assets in exchange-listed equity index futures contracts, in exchange-listed and over-the-counter (“OTC”) index credit default swaps, and in forward foreign currency exchange contracts. The use of futures contracts may allow the Fund to obtain net long or short exposures to selected equity indexes. Index credit default swaps may be used to gain exposure to a basket of credit risk by “selling protection” against default or other credit events, or to hedge a broad market credit risk by “buying protection.” Forward foreign currency exchange contracts may be used to protect the value of the Fund’s portfolio against uncertainty in the level of future currency exchange rates.²⁰ The Fund’s investments in derivative instruments will be consistent with the Fund’s investment objective and the 1940 Act and will not be used to seek to achieve a multiple or inverse multiple of an index. The Fund will only enter into transactions in OTC index credit default swaps and forward foreign currency exchange contracts with counterparties that the Adviser and/or the Sub-Adviser reasonably believes are capable of performing under the applicable agreement.²¹

Investment Restrictions

The Fund may not invest 25% or more of the value of its total assets in securities of issuers in any one industry. This restriction does not apply to (a) obligations issued or guaranteed by the U.S. government, its agencies or instrumentalities or (b) securities of other investment companies.²²

The Fund may hold up to an aggregate amount of 15% of its net assets in illiquid assets (calculated at the time of investment), including Rule 144A securities deemed illiquid by the

exchange-listed equity securities of business development companies (“BDCs”).

²⁰ The Fund may also enter into foreign currency transactions on a spot (*i.e.*, cash) basis.

²¹ The Fund will seek, where possible, to use counterparties, as applicable, whose financial status is such that the risk of default is reduced; however, the risk of losses resulting from default is still possible. The Adviser and/or the Sub-Adviser will evaluate the creditworthiness of counterparties on an ongoing basis. In addition to information provided by credit agencies, the Adviser’s and/or Sub-Adviser’s analysis will evaluate each approved counterparty using various methods of analysis and may consider the Adviser’s and/or Sub-Adviser’s past experience with the counterparty, its known disciplinary history and its share of market participation.

²² See Form N-1A, Item 9. The Commission has taken the position that a fund is concentrated if it invests more than 25% of the value of its total assets in any one industry. See, *e.g.*, Investment Company Act Release No. 9011 (October 30, 1975), 40 FR 54241 (November 21, 1975).

Adviser and/or the Sub-Adviser.²³ The Fund will monitor its portfolio liquidity on an ongoing basis to determine whether, in light of current circumstances, an adequate level of liquidity is being maintained, and will consider taking appropriate steps in order to maintain adequate liquidity if, through a change in values, net assets, or other circumstances, more than 15% of the Fund’s net assets are held in illiquid assets. Illiquid assets include securities subject to contractual or other restrictions on resale and other instruments that lack readily available markets as determined in accordance with Commission staff guidance.²⁴

Creation and Redemption of Shares

The Fund will issue and redeem Shares on a continuous basis at net asset value (“NAV”) ²⁵ only in large blocks of Shares (“Creation Units”) in transactions with authorized participants, generally including broker-dealers and large institutional investors (“Authorized Participants”). Creation Units generally will consist of 50,000 Shares, although this may change from time to time. Creation Units, however, are not expected to consist of less than 50,000 Shares. As described in the Registration Statement and consistent

²³ In reaching liquidity decisions, the Adviser and the Sub-Adviser may consider the following factors: the frequency of trades and quotes for the security; the number of dealers wishing to purchase or sell the security and the number of other potential purchasers; dealer undertakings to make a market in the security; and the nature of the security and the nature of the marketplace in which it trades (*e.g.*, the time needed to dispose of the security, the method of soliciting offers and the mechanics of transfer).

²⁴ The Commission has stated that long-standing Commission guidelines have required open-end funds to hold no more than 15% of their net assets in illiquid securities and other illiquid assets. See Investment Company Act Release No. 28193 (March 11, 2008), 73 FR 14618 (March 18, 2008), footnote 34. See also Investment Company Act Release No. 5847 (October 21, 1969), 35 FR 19989 (December 31, 1970) (Statement Regarding “Restricted Securities”); Investment Company Act Release No. 18612 (March 12, 1992), 57 FR 9828 (March 20, 1992) (Revisions of Guidelines to Form N-1A). A fund’s portfolio security is illiquid if it cannot be disposed of in the ordinary course of business within seven days at approximately the value ascribed to it by the fund. See Investment Company Act Release No. 14983 (March 12, 1986), 51 FR 9773 (March 21, 1986) (adopting amendments to Rule 2a-7 under the 1940 Act); Investment Company Act Release No. 17452 (April 23, 1990), 55 FR 17933 (April 30, 1990) (adopting Rule 144A under the Securities Act of 1933).

²⁵ The NAV of the Fund’s Shares generally will be calculated once daily Monday through Friday as of the close of regular trading on the New York Stock Exchange (“NYSE”), generally 4:00 p.m., Eastern Time (the “NAV Calculation Time”). NAV per Share will be calculated by dividing the Fund’s net assets by the number of Fund Shares outstanding. For more information regarding the valuation of Fund investments in calculating the Fund’s NAV, see the Registration Statement.

with the Exemptive Relief, the Fund will issue and redeem Creation Units in exchange for an in-kind portfolio of instruments and/or cash in lieu of such instruments (the “Creation Basket”). In addition, if there is a difference between the NAV attributable to a Creation Unit and the market value of the Creation Basket exchanged for the Creation Unit, the party conveying instruments with the lower value will pay to the other an amount in cash equal to the difference (referred to as the “Cash Component”).

Creations and redemptions must be made by or through an Authorized Participant that has executed an agreement that has been agreed to by the Distributor and BNY with respect to creations and redemptions of Creation Units. All standard orders to create Creation Units must be received by the transfer agent no later than the closing time of the regular trading session on the NYSE (ordinarily 4:00 p.m., Eastern Time) (the “Closing Time”) in each case on the date such order is placed in order for the creation of Creation Units to be effected based on the NAV of Shares as next determined on such date after receipt of the order in proper form. Shares may be redeemed only in Creation Units at their NAV next determined after receipt not later than the Closing Time of a redemption request in proper form by the Fund through the transfer agent and only on a business day.

The Fund’s custodian, through the National Securities Clearing Corporation, will make available on each business day, prior to the opening of business of the Exchange, the list of the names and quantities of the instruments comprising the Creation Basket, as well as the estimated Cash Component (if any), for that day. The published Creation Basket will apply until a new Creation Basket is announced on the following business day prior to commencement of trading in the Shares.

Net Asset Value

The Fund’s NAV will be determined as of the close of regular trading on the NYSE on each day the NYSE is open for trading. If the NYSE closes early on a valuation day, the NAV will be determined as of that time. NAV per Share will be calculated for the Fund by taking the market price of the Fund’s total assets, including interest or dividends accrued but not yet collected, less all liabilities, and dividing such amount by the total number of Shares outstanding. The result, rounded to the nearest cent, will be the NAV per Share. All valuations will be subject to review by the Trust Board or its delegate.

The Fund's investments will be valued daily at market value or, in the absence of market value with respect to any investments, at fair value. Market value prices represent last sale or official closing prices from a national or foreign exchange (*i.e.*, a regulated market) and will primarily be obtained from third party pricing services (each, a "Pricing Service"). Fair value prices represent any prices not considered market value prices and will either be obtained from a Pricing Service or determined by the pricing committee of the Adviser (the "Pricing Committee"),²⁶ in accordance with valuation procedures (which may be revised from time to time) adopted by the Trust Board (the "Valuation Procedures"), and in accordance with provisions of the 1940 Act. The information summarized below is based on the Valuation Procedures as currently in effect; however, as noted above, the Valuation Procedures are amended from time to time and, therefore, such information is subject to change.

Certain securities, including in particular Convertible Securities, in which the Fund may invest will not be listed on any securities exchange or board of trade. Such securities will typically be bought and sold by institutional investors in individually negotiated private transactions that function in many respects like an OTC secondary market, although typically no formal market makers will exist. Certain securities, particularly debt securities, will have few or no trades, or trade infrequently, and information regarding a specific security may not be widely available or may be incomplete. Accordingly, determinations of the fair value of debt securities may be based on infrequent and dated information. Because there is less reliable, objective data available, elements of judgment may play a greater role in valuation of debt securities than for other types of securities.

The following investments will typically be fair valued using information provided by a Pricing Service or obtained from broker-dealer quotations: (a) Convertible Securities (including convertible notes, bonds and debentures; convertible preferred securities; mandatory convertible securities; contingent convertible securities; synthetic convertible securities; corporate bonds and preferred securities with attached

warrants;²⁷ and convertible Rule 144A securities);²⁸ (b) except as provided below, short-term U.S. government securities, commercial paper, bankers' acceptances and short-term corporate debt obligations, all as set forth under "Other Investments of the Fund" (collectively, "Short-Term Debt Instruments"); and (c) OTC index credit default swaps. Debt instruments may be valued at evaluated bid prices, as provided by Pricing Services. Pricing Services typically value non-exchange-traded instruments utilizing a range of market-based inputs and assumptions, including readily available market quotations obtained from broker-dealers making markets in such instruments, cash flows, and transactions for comparable instruments. In pricing certain instruments, the Pricing Services may consider information about an instrument's issuer or market activity provided by the Adviser or the Sub-Adviser.

Short-Term Debt Instruments having a remaining maturity of 60 days or less when purchased will typically be valued at cost adjusted for amortization of premiums and accretion of discounts, provided the Pricing Committee has determined that the use of amortized cost is an appropriate reflection of fair value given market and issuer-specific conditions existing at the time of the determination.

Repurchase agreements will typically be fair valued as follows: Overnight repurchase agreements will be fair valued at cost. Term repurchase agreements (*i.e.*, those whose maturity exceeds seven days) will be fair valued at the average of the bid quotations obtained daily from at least two recognized dealers.

Common stocks and other equity securities (including Depository Receipts, BDCs, Post-Conversion Underlying Securities, and other Equity Securities), as well as ETNs, listed on any exchange other than the Exchange and the London Stock Exchange Alternative Investment Market ("AIM") will typically be valued at the last sale price on the exchange on which they are principally traded on the business day as of which such value is being determined. Such equity securities and ETNs listed on the Exchange or the AIM

will typically be valued at the official closing price on the business day as of which such value is being determined. If there has been no sale on such day, or no official closing price in the case of securities traded on the Exchange or the AIM, such equity securities and ETNs will typically be valued using fair value pricing. Such equity securities and ETNs traded on more than one securities exchange will be valued at the last sale price or official closing price, as applicable, on the business day as of which such value is being determined at the close of the exchange representing the principal market for such securities.

Exchange-Listed Convertible Securities, exchange-listed equity index futures contracts and exchange-listed index credit default swaps will typically be valued at the closing price in the market where such instruments are principally traded. If no official closing price is available, such instruments will be fair valued at the mean of their most recent bid and asked price on the exchange on which they are principally traded, if available, and otherwise at their closing bid price.

Forward foreign currency exchange contracts will typically be fair valued at the current day's interpolated foreign exchange rate, as calculated using the current day's spot rate, and the thirty, sixty, ninety and one-hundred-eighty day forward rates provided by a Pricing Service or by certain independent dealers in such contracts.

Because foreign exchanges may be open on different days than the days during which an investor may purchase or sell Shares, the value of the Fund's assets may change on days when investors are not able to purchase or sell Shares. Assets denominated in foreign currencies will be translated into U.S. dollars at the exchange rate of such currencies against the U.S. dollar as provided by a Pricing Service. The value of assets denominated in foreign currencies will be converted into U.S. dollars at the exchange rates in effect at the time of valuation.

Valuing the Fund's assets using fair value pricing can result in using prices for those assets (particularly assets that trade in foreign markets) that may differ from current market valuations.

Availability of Information

The Fund's Web site (www.ftportfolios.com), which will be publicly available prior to the public offering of Shares, will include a form of the prospectus for the Fund that may be downloaded. The Web site will include the Shares' ticker, CUSIP and exchange information along with additional quantitative information

²⁶ The Pricing Committee will be subject to procedures designed to prevent the use and dissemination of material non-public information regarding the Fund's portfolio.

²⁷ Although the attached warrants will be exchange-listed, for purposes of valuation, these Convertible Securities will typically be treated as single non-exchange-listed instruments.

²⁸ Convertible Securities are generally not expected to be exchange-listed. However, to the extent the Fund invests in any Convertible Securities that are exchange-listed (referred to as "Exchange-Listed Convertible Securities"), they will be valued as provided below.

updated on a daily basis, including, for the Fund: (1) Daily trading volume, the prior business day's reported NAV and closing price, mid-point of the bid/ask spread at the time of calculation of such NAV (the "Bid/Ask Price"),²⁹ and a calculation of the premium and discount of the Bid/Ask Price against the NAV; and (2) data in chart format displaying the frequency distribution of discounts and premiums of the daily Bid/Ask Price against the NAV, within appropriate ranges, for each of the four previous calendar quarters. On each business day, before commencement of trading in Shares in the Regular Market Session³⁰ on the Exchange, the Fund will disclose on its Web site the identities and quantities of the portfolio of securities, and other assets (the "Disclosed Portfolio" as defined in Nasdaq Rule 5735(c)(2)) held by the Fund that will form the basis for the Fund's calculation of NAV at the end of the business day.³¹ The Fund's disclosure of derivative positions in the Disclosed Portfolio will include information that market participants can use to value these positions intraday. On a daily basis, the Fund will disclose on the Fund's Web site the following information regarding each portfolio holding, as applicable to the type of holding: ticker symbol, CUSIP number or other identifier, if any; a description of the holding (including the type of holding, such as the type of swap), the identity of the security or other asset or instrument underlying the holding, if any; quantity held (as measured by, for example, par value, notional value or number of shares, contracts or units); maturity date, if any; coupon rate, if any; effective date, if any; market value of the holding; and percentage weighting of the holding in the Fund's portfolio. The Web site information will be publicly available at no charge.

In addition, for the Fund, an estimated value, defined in Rule 5735(c)(3) as the "Intraday Indicative

Value," that reflects an estimated intraday value of the Fund's Disclosed Portfolio, will be disseminated. Moreover, the Intraday Indicative Value, available on the NASDAQ OMX Information LLC proprietary index data service,³² will be based upon the current value for the components of the Disclosed Portfolio and will be updated and widely disseminated by one or more major market data vendors and broadly displayed at least every 15 seconds during the Regular Market Session. The Intraday Indicative Value will be based on quotes and closing prices from the securities' local market and may not reflect events that occur subsequent to the local market's close. Premiums and discounts between the Intraday Indicative Value and the market price may occur. This should not be viewed as a "real time" update of the NAV per Share of the Fund, which is calculated only once a day.

The dissemination of the Intraday Indicative Value, together with the Disclosed Portfolio, will allow investors to determine the value of the underlying portfolio of the Fund on a daily basis and will provide a close estimate of that value throughout the trading day.

Investors will also be able to obtain the Fund's Statement of Additional Information ("SAI"), the Fund's annual and semi-annual reports (together, "Shareholder Reports"), and its Form N-CSR and Form N-SAR, filed twice a year. The Fund's SAI and Shareholder Reports will be available free upon request from the Fund, and those documents and the Form N-CSR and Form N-SAR may be viewed on-screen or downloaded from the Commission's Web site at www.sec.gov. Information regarding market price and trading volume of the Shares will be continually available on a real-time basis throughout the day on brokers' computer screens and other electronic services. Information regarding the previous day's closing price and trading volume information for the Shares will be published daily in the financial section of newspapers. Quotation and last sale information for the Shares will be available via Nasdaq proprietary quote and trade services, as well as in accordance with the Unlisted Trading Privileges and the Consolidated Tape Association ("CTA") plans for the

Shares. Quotation and last sale information for U.S. exchange-listed equity securities will be available from the exchanges on which they are traded as well as in accordance with any applicable CTA plans. Pricing information for Exchange-Listed Convertible Securities; ETNs; Depositary Receipts, BDCs, Post-Conversion Underlying Securities, and other Equity Securities; exchange-listed equity index futures contracts; and exchange-listed index credit default swaps will be available from the applicable listing exchange and from major market data vendors. Pricing information for OTC Convertible Securities (including convertible notes, bonds and debentures; convertible preferred securities; mandatory convertible securities; contingent convertible securities; synthetic convertible securities; corporate bonds and preferred securities with attached warrants;³³ and convertible Rule 144A securities); Short-Term Debt Instruments (including short-term U.S. government securities, commercial paper, bankers' acceptances and short-term corporate debt obligations, all as set forth under "Other Investments of the Fund"); repurchase agreements; OTC index credit default swaps; and forward foreign currency exchange contracts will be available from major broker-dealer firms and/or major market data vendors and/or Pricing Services.

Additional information regarding the Fund and the Shares, including investment strategies, risks, creation and redemption procedures, fees, Fund holdings disclosure policies, distributions and taxes will be included in the Registration Statement.

Initial and Continued Listing

The Shares will be subject to Rule 5735, which sets forth the initial and continued listing criteria applicable to Managed Fund Shares. The Exchange represents that, for initial and/or continued listing, the Fund must be in compliance with Rule 10A-3³⁴ under the Act. A minimum of 100,000 Shares will be outstanding at the commencement of trading on the Exchange. The Exchange will obtain a representation from the issuer of the Shares that the NAV per Share will be calculated daily and that the NAV and the Disclosed Portfolio will be made

²⁹ The Bid/Ask Price of the Fund will be determined using the mid-point of the highest bid and the lowest offer on the Exchange as of the time of calculation of the Fund's NAV. The records relating to Bid/Ask Prices will be retained by the Fund and its service providers.

³⁰ See Nasdaq Rule 4120(b)(4) (describing the three trading sessions on the Exchange: (1) Pre-Market Session from 4 a.m. to 9:30 a.m., Eastern Time; (2) Regular Market Session from 9:30 a.m. to 4 p.m. or 4:15 p.m., Eastern Time; and (3) Post-Market Session from 4 p.m. or 4:15 p.m. to 8 p.m., Eastern Time).

³¹ Under accounting procedures to be followed by the Fund, trades made on the prior business day ("T") will be booked and reflected in NAV on the current business day ("T+1"). Accordingly, the Fund will be able to disclose at the beginning of the business day the portfolio that will form the basis for the NAV calculation at the end of the business day.

³² Currently, the NASDAQ OMX Global Index Data Service ("GIDS") is the NASDAQ OMX global index data feed service, offering real-time updates, daily summary messages, and access to widely followed indexes and Intraday Indicative Values for ETFs. GIDS provides investment professionals with the daily information needed to track or trade NASDAQ OMX indexes, listed ETFs, or third-party partner indexes and ETFs.

³³ Although the attached warrants will be exchange-listed, for purposes of obtaining pricing information, these Convertible Securities will typically be treated as single non-exchange-listed instruments.

³⁴ See 17 CFR 240.10A-3.

available to all market participants at the same time.

Trading Halts

With respect to trading halts, the Exchange may consider all relevant factors in exercising its discretion to halt or suspend trading in the Shares of the Fund. Nasdaq will halt trading in the Shares under the conditions specified in Nasdaq Rules 4120 and 4121, including the trading pauses under Nasdaq Rules 4120(a)(11) and (12). Trading may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable. These may include: (1) The extent to which trading is not occurring in the securities and/or the other assets constituting the Disclosed Portfolio of the Fund; or (2) whether other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present. Trading in the Shares also will be subject to Rule 5735(d)(2)(D), which sets forth circumstances under which Shares of the Fund may be halted.

Trading Rules

Nasdaq deems the Shares to be equity securities, thus rendering trading in the Shares subject to Nasdaq's existing rules governing the trading of equity securities. Nasdaq will allow trading in the Shares from 4:00 a.m. until 8:00 p.m., Eastern Time. The Exchange has appropriate rules to facilitate transactions in the Shares during all trading sessions. As provided in Nasdaq Rule 5735(b)(3), the minimum price variation for quoting and entry of orders in Managed Fund Shares traded on the Exchange is \$0.01.

Surveillance

The Exchange represents that trading in the Shares will be subject to the existing trading surveillances, administered by both Nasdaq and also the Financial Industry Regulatory Authority ("FINRA") on behalf of the Exchange, which are designed to detect violations of Exchange rules and applicable federal securities laws.³⁵ The Exchange represents that these procedures are adequate to properly monitor Exchange trading of the Shares in all trading sessions and to deter and detect violations of Exchange rules and applicable federal securities laws.

The surveillances referred to above generally focus on detecting securities trading outside their normal patterns,

which could be indicative of manipulative or other violative activity. When such situations are detected, surveillance analysis follows and investigations are opened, where appropriate, to review the behavior of all relevant parties for all relevant trading violations.

FINRA, on behalf of the Exchange, will communicate as needed regarding trading in the Shares and the exchange-traded securities and instruments held by the Fund (including Exchange-Listed Convertible Securities; ETNs; Depositary Receipts, BDCs, Post-Conversion Underlying Securities, and other Equity Securities; exchange-listed equity index futures contracts; and exchange-listed index credit default swaps) with other markets and other entities that are members of the Intermarket Surveillance Group ("ISG"),³⁶ and FINRA may obtain trading information regarding trading in the Shares and the exchange-traded securities and instruments held by the Fund from such markets and other entities. In addition, the Exchange may obtain information regarding trading in the Shares and the exchange-traded securities and instruments held by the Fund from markets and other entities that are members of ISG, which includes securities and futures exchanges, or with which the Exchange has in place a comprehensive surveillance sharing agreement. Moreover, FINRA, on behalf of the Exchange, will be able to access, as needed, trade information for certain fixed income securities held by the Fund reported to FINRA's Trade Reporting and Compliance Engine ("TRACE").

At least 90% of the Fund's net assets that are invested in Exchange-Listed Convertible Securities; ETNs; Depositary Receipts, BDCs, Post-Conversion Underlying Securities, and other Equity Securities; exchange-listed equity index futures contracts; and exchange-listed index credit default swaps (in the aggregate) will be invested in investments that trade in markets that are members of ISG or are parties to a comprehensive surveillance sharing agreement with the Exchange. Further, at least 90% of the Underlying Securities corresponding to the pre-conversion Convertible Securities held by the Fund (measured by par value) will trade in markets that are members of ISG or are parties to a comprehensive

surveillance sharing agreement with the Exchange.

In addition, the Exchange also has a general policy prohibiting the distribution of material, non-public information by its employees.

Information Circular

Prior to the commencement of trading, the Exchange will inform its members in an Information Circular of the special characteristics and risks associated with trading the Shares. Specifically, the Information Circular will discuss the following: (1) The procedures for purchases and redemptions of Shares in Creation Units (and that Shares are not individually redeemable); (2) Nasdaq Rule 2111A, which imposes suitability obligations on Nasdaq members with respect to recommending transactions in the Shares to customers; (3) how information regarding the Intraday Indicative Value and the Disclosed Portfolio is disseminated; (4) the risks involved in trading the Shares during the Pre-Market and Post-Market Sessions when an updated Intraday Indicative Value will not be calculated or publicly disseminated; (5) the requirement that members deliver a prospectus to investors purchasing newly issued Shares prior to or concurrently with the confirmation of a transaction; and (6) trading information. The Information Circular will also discuss any exemptive, no-action and interpretive relief granted by the Commission from any rules under the Act.

Additionally, the Information Circular will reference that the Fund is subject to various fees and expenses described in the Registration Statement. The Information Circular will also disclose the trading hours of the Shares of the Fund and the applicable NAV Calculation Time for the Shares. The Information Circular will disclose that information about the Shares of the Fund will be publicly available on the Fund's Web site.

2. Statutory Basis

Nasdaq believes that the proposal is consistent with Section 6(b) of the Act in general and Section 6(b)(5) of the Act in particular in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanism of a free and open market and, in general, to protect investors and the public interest.

³⁵ FINRA surveils trading on the Exchange pursuant to a regulatory services agreement. The Exchange is responsible for FINRA's performance under this regulatory services agreement.

³⁶ For a list of the current members of ISG, see www.isgportal.org. The Exchange notes that not all components of the Disclosed Portfolio may trade on markets that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement.

The Exchange believes that the proposed rule change is designed to prevent fraudulent and manipulative acts and practices in that the Shares will be listed and traded on the Exchange pursuant to the initial and continued listing criteria in Nasdaq Rule 5735. The Exchange represents that trading in the Shares will be subject to the existing trading surveillances, administered by both Nasdaq and also FINRA on behalf of the Exchange, which are designed to detect violations of Exchange rules and applicable federal securities laws.

Neither the Adviser nor the Sub-Adviser is a broker-dealer, although the Adviser is affiliated with the Distributor, a broker-dealer. The Sub-Adviser is not affiliated with a broker-dealer. The Adviser has implemented a fire wall with respect to its broker-dealer affiliate regarding access to information concerning the composition and/or changes to the portfolio. In addition, paragraph (g) of Nasdaq Rule 5735 further requires that personnel of the Adviser who make decisions on the open-end fund's portfolio composition must be subject to procedures designed to prevent the use and dissemination of material non-public information regarding the open-end fund's portfolio.

FINRA, on behalf of the Exchange, will communicate as needed regarding trading in the Shares and the exchange-traded securities and instruments held by the Fund (including Exchange-Listed Convertible Securities; ETNs; Depositary Receipts, BDCs, Post-Conversion Underlying Securities, and other Equity Securities; exchange-listed equity index futures contracts; and exchange-listed index credit default swaps) with other markets and other entities that are members of ISG, and FINRA may obtain trading information regarding trading in the Shares and the exchange-traded securities and instruments held by the Fund from such markets and other entities that are members of ISG, which includes securities and futures exchanges, or with which the Exchange has in place a comprehensive surveillance sharing agreement. Moreover, FINRA, on behalf of the Exchange, will be able to access, as needed, trade information for certain fixed income securities held by the Fund reported to FINRA's TRACE.

At least 90% of the Fund's net assets that are invested in Exchange-Listed Convertible Securities; ETNs; Depositary Receipts, BDCs, Post-Conversion Underlying Securities, and

other Equity Securities; exchange-listed equity index futures contracts; and exchange-listed index credit default swaps (in the aggregate) will be invested in investments that trade in markets that are members of ISG or are parties to a comprehensive surveillance sharing agreement with the Exchange. Further, at least 90% of the Underlying Securities corresponding to the pre-conversion Convertible Securities held by the Fund (measured by par value) will trade in markets that are members of ISG or are parties to a comprehensive surveillance sharing agreement with the Exchange.

The investment objective of the Fund will be to seek total return. To achieve its objective, the Fund will invest, under normal market conditions, at least 80% of its net assets (including investment borrowings) in a portfolio of Convertible Securities. The Fund may invest up to 20% of its net assets in exchange-listed equity index futures contracts, in exchange-listed and OTC index credit default swaps, and in forward foreign currency exchange contracts. The Fund's investments in derivative instruments will be consistent with the Fund's investment objective and the 1940 Act and will not be used to seek to achieve a multiple or inverse multiple of an index. The Fund may hold up to an aggregate amount of 15% of its net assets in illiquid assets (calculated at the time of investment), including Rule 144A securities deemed illiquid by the Adviser and/or the Sub-Adviser. The Fund will monitor its portfolio liquidity on an ongoing basis to determine whether, in light of current circumstances, an adequate level of liquidity is being maintained, and will consider taking appropriate steps in order to maintain adequate liquidity if, through a change in values, net assets, or other circumstances, more than 15% of the Fund's net assets are held in illiquid assets. Illiquid assets include securities subject to contractual or other restrictions on resale and other instruments that lack readily available markets as determined in accordance with Commission staff guidance.

The proposed rule change is designed to promote just and equitable principles of trade and to protect investors and the public interest in that the Exchange will obtain a representation from the issuer of the Shares that the NAV per Share will be calculated daily and that the NAV and the Disclosed Portfolio will be made available to all market participants at the same time. In addition, a large amount of information will be publicly available regarding the Fund and the Shares, thereby promoting market transparency. Moreover, the

Intraday Indicative Value, available on the NASDAQ OMX Information LLC proprietary index data service, will be widely disseminated by one or more major market data vendors and broadly displayed at least every 15 seconds during the Regular Market Session. On each business day, before commencement of trading in Shares in the Regular Market Session on the Exchange, the Fund will disclose on its Web site the Disclosed Portfolio that will form the basis for the Fund's calculation of NAV at the end of the business day. Information regarding market price and trading volume of the Shares will be continually available on a real-time basis throughout the day on brokers' computer screens and other electronic services, and quotation and last sale information for the Shares will be available via Nasdaq proprietary quote and trade services, as well as in accordance with the Unlisted Trading Privileges and the CTA plans for the Shares. Quotation and last sale information for U.S. exchange-listed equity securities will be available from the exchanges on which they are traded as well as in accordance with any applicable CTA plans. Pricing information for Exchange-Listed Convertible Securities; ETNs; Depositary Receipts, BDCs, Post-Conversion Underlying Securities, and other Equity Securities; exchange-listed equity index futures contracts; and exchange-listed index credit default swaps will be available from the applicable listing exchange and from major market data vendors. Pricing information for OTC Convertible Securities (including convertible notes, bonds and debentures; convertible preferred securities; mandatory convertible securities; contingent convertible securities; synthetic convertible securities; corporate bonds and preferred securities with attached warrants; and convertible Rule 144A securities); Short-Term Debt Instruments (including short-term U.S. government securities, commercial paper, bankers' acceptances and short-term corporate debt obligations, all as set forth under "Other Investments of the Fund"); repurchase agreements; OTC index credit default swaps; and forward foreign currency exchange contracts will be available from major broker-dealer firms and/or major market data vendors and/or Pricing Services.

The Fund's Web site will include a form of the prospectus for the Fund and additional data relating to NAV and other applicable quantitative information. Trading in Shares of the Fund will be halted under the

conditions specified in Nasdaq Rules 4120 and 4121 or because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable, and trading in the Shares will be subject to Nasdaq Rule 5735(d)(2)(D), which sets forth circumstances under which Shares of the Fund may be halted. In addition, as noted above, investors will have ready access to information regarding the Fund's holdings, the Intraday Indicative Value, the Disclosed Portfolio, and quotation and last sale information for the Shares.

The Fund's investments will be valued daily at market value or, in the absence of market value with respect to any investments, at fair value. Market value prices represent last sale or official closing prices from a national or foreign exchange (*i.e.*, a regulated market) and will primarily be obtained from Pricing Services. Fair value prices represent any prices not considered market value prices and will either be obtained from a Pricing Service or determined by the Pricing Committee, in accordance with the Valuation Procedures and in accordance with provisions of the 1940 Act. The Pricing Committee will be subject to procedures designed to prevent the use and dissemination of material non-public information regarding the Fund's portfolio.

The proposed rule change is designed to perfect the mechanism of a free and open market and, in general, to protect investors and the public interest in that it will facilitate the listing and trading of an additional type of actively-managed exchange-traded product that will enhance competition among market participants, to the benefit of investors and the marketplace. As noted above, FINRA, on behalf of the Exchange, will communicate as needed regarding trading in the Shares and the exchange-traded securities and instruments held by the Fund (including Exchange-Listed Convertible Securities; ETNs; Depositary Receipts, BDCs, Post-Conversion Underlying Securities, and other Equity Securities; exchange-listed equity index futures contracts; and exchange-listed index credit default swaps) with other markets and other entities that are members of ISG, and FINRA may obtain trading information regarding trading in the Shares and the exchange-traded securities and instruments held by the Fund from such markets and other entities. In addition, the Exchange may obtain information regarding trading in the Shares and in the exchange-traded securities and instruments held by the Fund from markets and other entities that are

members of ISG, which includes securities and futures exchanges, or with which the Exchange has in place a comprehensive surveillance sharing agreement. Furthermore, as noted above, investors will have ready access to information regarding the Fund's holdings, the Intraday Indicative Value, the Disclosed Portfolio, and quotation and last sale information for the Shares.

For the above reasons, Nasdaq believes the proposed rule change is consistent with the requirements of Section 6(b)(5) of the Act.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes that the proposed rule change will facilitate the listing and trading of an additional type of actively-managed exchange-traded fund that will enhance competition among market participants, to the benefit of investors and the marketplace.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will: (a) By order approve or disapprove such proposed rule change; or (b) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or

- Send an email to rule-comments@sec.gov. Please include File Number SR-NASDAQ-2015-075 on the subject line.

Paper Comments

- Send paper comments in triplicate to Brent J. Fields, Secretary, Securities and Exchange Commission, Station Place, 100 F Street NE., Washington, DC 20549.

All submissions should refer to File Number SR-NASDAQ-2015-075. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site <http://www.sec.gov/rules/sro.shtml>. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public Reference Room, 100 F Street NE., Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of Nasdaq. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-NASDAQ-2015-075 and should be submitted on or before August 10, 2015.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.³⁷

Robert W. Errett,
Deputy Secretary.
