AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) is partially rescinding its administrative review of the antidumping duty order on certain preserved mushrooms (mushrooms) from India for the period February 1, 2014, through January 31, 2015 (POR).

DATES: *Effective Date:* July 21, 2015.

FOR FURTHER INFORMATION CONTACT: Kate Johnson or Terre Keaton Stefanova, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-4929 or (202) 482-1280, respectively.

SUPPLEMENTARY INFORMATION:**Background**

On February 2, 2015, the Department published in the **Federal Register** a notice of “Opportunity to Request Administrative Review” of the antidumping duty order on mushrooms from India for the POR.¹

On March 2, 2015, in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.213(b), the Department received timely requests from Monterey Mushrooms Inc. (the petitioner), and Sunny Dell Foods Inc. (Sunny Dell), a domestic interested party, to conduct an administrative review of the sales of Agro Dutch Industries Limited (Agro Dutch), Himalya International Ltd. (Himalya), Hindustan Lever Ltd. (formerly Ponds India, Ltd.) (Hindustan), Transchem Ltd. (Transchem), and Weikfield Foods Pvt. Ltd (Weikfield).²

On April 3, 2015, the Department published in the **Federal Register** a notice of initiation of an administrative review of the antidumping duty order

on mushrooms from India with respect to the above-named companies.³

On May 1, 2015, we received a no shipment claim for the POR from Weikfield.⁴

On July 2, 2015, the petitioner and Sunny Dell timely withdrew their request for a review of Agro Dutch, Hindustan, Transchem, and Weikfield.⁵

Partial Rescission of Review

Pursuant to 19 CFR 351.213(d)(1), the Department will rescind an administrative review, in whole or in part, if the parties that requested a review withdraw the request within 90 days of the date of publication of notice of initiation of the requested review. The petitioner’s and Sunny Dell’s withdrawal requests were filed before the 90-day deadline. Therefore, in response to the withdrawals of request for review of Agro Dutch, Hindustan, Transchem and Weikfield, and pursuant to 19 CFR 351.213(d)(1), we are rescinding this review with regard to these companies. However, because the petitioner and Sunny Dell did not withdraw their requests for review of Himalya, the instant review will continue with respect to this company.

Assessment

The Department will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on all appropriate entries. For the companies for which this review is rescinded, antidumping duties shall be assessed at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(1)(i). The Department intends to issue appropriate assessment instructions directly to CBP 15 days after the date of publication of this notice in the **Federal Register**.

Notification to Importers

This notice serves as the only reminder to importers of their responsibility, under 19 CFR 351.402(f)(2), to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement may result in the presumption that reimbursement of

antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification Regarding Administrative Protective Order

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/ destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This notice is published in accordance with section 751 of the Act and 19 CFR 351.213(d)(4).

Dated: July 15, 2015.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for reinstatement, with changes of a previously approved information collection.

Numerous management measures have recently been proposed or implemented that affect recreational charter boat fishing for Pacific halibut off Alaska. On January 5, 2010, NMFS issued a final rule establishing a limited entry permit system for charter vessels in the guided halibut sport fishery in International Pacific Halibut Commission Areas 2C (Southeast Alaska) and 3A (Central Gulf of Alaska) (75FR554). This permit system is intended to address concerns about the growth of fishing capacity in this fishery sector, which accounts for a substantial portion of the overall recreational halibut catch in Alaska. On March 16, 2011, a size limit on Pacific halibut caught while charter boat fishing in Area 2C for the 2011 fishing season was established (76FR14300). In addition, a Halibut Catch Sharing Plan (76FR44156) was implemented in 2014 that altered the way Pacific halibut is allocated between the guided sport (*i.e.*, the charter sector) and the commercial halibut fishery.

To assess the effect of regulatory restrictions (currently in place or potential) on charter operator and owner behavior and welfare, it is necessary to obtain a better general understanding of the Alaska recreational charter boat industry. Some information useful for this purpose is already collected from existing sources, such as charter vessel logbooks administered by the Alaska Department of Fish and Game (ADF&G). In addition, a voluntary survey under this OMB Control Number administered to collect economic information for three fishing seasons (2011–2013) from business owners in the charter fleet was administered between 2012 and 2014. It collected information on vessel and crew characteristics, services offered to clients, spatial and temporal aspects of their operations and fishing behavior, and costs and earnings information for the three fishing seasons prior to implementation of the Halibut Catch Sharing Plan. These data were collected directly from the industry since they are not available from other existing data sources. A description of the previously-fielded survey and a summary of the results are available in a NOAA Technical Memorandum that can be accessed at <http://www.afsc.noaa.gov/>

Publications/AFSC-TM/NOAA-TM-AFSC-299.pdf.

To evaluate changes in the charter sector associated with the Halibut Catch Sharing Plan, the National Marine Fisheries Service's (NMFS) Alaska Fisheries Science Center proposes to continue the implementation of the survey of charter vessel owners to collect annual cost, earnings, and employment data that will supplement logbook data collected by ADF&G. The proposed data collection will provide another three years of basic economic information about the charter sector beyond the 2011 to 2013 data that was collected previously, including revenues produced from different products and services provided to clients, fixed and variable operating costs, and locations of purchases. These data will support improved analysis and of the effects of fisheries regulations on the charter fishing industry, information that is increasingly needed by the North Pacific Fishery Management Council and NMFS to more completely understand ongoing halibut allocation issues and other fishery management issues involving the charter industry. The survey will have minor changes, including, possibly, a small set of questions about how charter vessels have been impacted by a new management program)

II. Method of Collection

The method of data collection will be a survey of charter vessel owners implemented through a voluntary mail questionnaire.
