SUPPLEMENTARY INFORMATION:

I. Abstract

The USGS is working with the Federal Advisory Committee on Water Information (ACWI) and its Subcommittee on Ground Water (SOGW) to develop and administer a National Ground-Water Monitoring Network (NGWMN). This network is required as part of Public Law 111–11, Subtitle F—Secure Water: Section 9507 “Water Data Enhancement by the United States Geological Survey”. The Network will consist of an aggregation of wells from existing Federal, State, Tribal, and local groundwater monitoring networks. To support data providers for the National Ground-Water Monitoring Network, the USGS will be providing funding through cooperative agreements to water-resource agencies that collect groundwater data. The USGS will be soliciting applications for funding that will request information from the Agency collecting the data. Proposals will be submitted through the www.grants.gov Web site. Elements of the proposal will include contact information (phone number and email address), and a proposal describing their existing data collection and a plan to evaluate their data for incorporation into the NGWMN. The proposal will be evaluated by the USGS and the NGWMN Program Board to appropriate funding. The proposal will describe the groundwater networks to be included in the NGWMN, the purpose of the networks, an estimate of the number of wells they would submit for the network, an overview of the methods they would use to select and classify wells for the network a description of data collection techniques, and information on their databases. The proposal would also require estimates of one-time costs to complete the above tasks and annual costs to participate in the network.

II. Data

OMB Control Number: 1028–NEW.

Title: National Ground-Water Monitoring Network Cooperative Funding Program.

Type of Request: Approval of new information collection.

Respondent Obligation: Required to obtain benefit.

Frequency of Collection: Annually.

Description of Respondents: Multistate, State, Tribal, or Local water-resource agencies that operate groundwater monitoring networks.

Estimated Total Number of Annual Responses: 100 applications, 25 reports.

Estimated Time per Response: We estimate that it will take 30 hour(s) per person to prepare the proposal. This includes time to review the NGWMN Framework Document to understand the Network design and requirements for data providers. In prior years respondents to similar projects have spent up to 125 hours to prepare the final report.

Estimated Annual Burden Hours: 3000 for applications, 3125 for reports.

Estimated Reporting and Recordkeeping “Non-Hour Cost” Burden: There are no “non-hour cost” burdens associated with this collection of information.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, et seq.) provides that an agency may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number. Until the OMB approves a collection of information, you are not obliged to respond.

Comments: On 02/06/2015, we published a Federal Register notice (80 FR 6746) announcing that we would submit this ICR to OMB for approval and soliciting comments. The comment period closed on 04/07/2015. We received no comments.

III. Request for Comments

We again invite comments concerning this ICR as to: (a) Whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) how to enhance the quality, usefulness, and clarity of the information to be collected; and (d) how to minimize the burden on the respondents, including the use of automated collection
