I. Funding Opportunity Description

Purpose of Program: The purpose of this program is to provide training and technical assistance (TA) to designated State agencies (DSAs) (the State agencies that provide vocational rehabilitation services to individuals who are blind) that receive grant funding under the Independent Living Services for Older Individuals who are Blind (OIB) program and to other service providers that receive OIB program funding from DSAs to provide services to consumers. Such training and TA is designed to improve the administration, operation, and performance of the OIB program.

Priority: We are establishing this priority for the FY 2015 grant competition only, in accordance with section 437(d)(1) of the General Education Provisions Act (GEPA), 20 U.S.C. 1232(d)(1).

Absolute Priority: This priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

This priority is:

Independent Living Services for Older Individuals Who Are Blind (OIB) Training and Technical Assistance.

Background:

The Workforce Innovation and Opportunity Act (WIOA), enacted in July of 2014, made significant changes to the Rehabilitation Act of 1973 (the Act), including adding provisions to the OIB program that require the reservation of funds to support training and technical assistance. In particular, section 751A of the Act requires the Commissioner of the Rehabilitation Services Administration (RSA) to reserve not less than 1.8 percent and not more than 2 percent of the funds appropriated to the OIB program to provide training and technical assistance to DSAs or other providers of OIB services that receive OIB program funds.

The purpose of the OIB program is to:

(1) Provide independent living (IL) services to older individuals who are blind;

(2) Conduct activities that will improve or expand services for these individuals; and

(3) Conduct activities to help improve public understanding of these individuals' challenges. An "older individual who is blind" is an individual age 55 or older whose significant visual impairment makes competitive employment extremely difficult to attain but for whom independent living goals are feasible. Through these services and activities, the program seeks to improve independent living options for older individuals who are blind and increase their independence and self-sufficiency.

To help determine funding priorities, section 751A of the Act requires RSA to conduct a survey of DSAs that receive OIB program grants to determine their training and TA needs. In response to this requirement, RSA added a new section to the annual report submitted by DSAs (Section VII Training and Technical Assistance) to obtain this information.

Survey results from the most recent annual report submitted by each of the OIB program grantees identified the need for training and TA in the following areas: Fiscal and management practices, annual report (Form RSA 7–OIB), reporting requirements, data analysis and program performance, service provision and service delivery, promising practices, resources and information, and outreach.

Priority:

This priority supports a cooperative agreement to establish an OIB Training and Technical Assistance Center (Center) to provide sustained training and TA—generalized, targeted, and intensive—to DSAs funded under the OIB program and to any service providers the DSAs fund to provide services directly to consumers. The Center will develop and provide training and TA to DSAs and other service providers funded under the OIB program in the following general topic areas:

(a) Community outreach;

(b) Best practices in the provision and delivery of services;

(c) Program performance, including data reporting and analysis; and

(d) Financial and management practices, including practices to ensure compliance with grant administration requirements.

Project Activities

To meet the requirements of this priority, the Center must, at a minimum, conduct the following activities:

(a) Annually provide intensive training and TA to a minimum of three DSAs and other service providers on the topic areas in this priority. The TA must be:

(1) Consistent with the project activities and tailored to the specific needs and challenges of the DSA or other service provider receiving the intensive training and TA;

(2) Provided under an agreement with each DSA or other service provider that, at a minimum, details the purpose, intended outcomes, and requirements for subsequent evaluation of the training and TA; and

(3) Assessed 90 days after completion to ensure that DSAs and other service providers receiving intensive training and TA are applying it effectively and to address any issues or challenges in its implementation.

(b) Provide a range of targeted and general training and TA products and services on the general topic areas in this priority. The training and TA should include, at a minimum, the following activities:

(1) Provide a minimum of two Webinars or video conferences on each of the topic areas in this priority to describe and disseminate information about emerging and best practices in each area.

(2) Develop new information technology (IT) platforms or systems, or modify existing platforms and systems, as follows:

(i) Develop and maintain a state-of-the-art IT platform sufficient to support Webinars, teleconferences, video conferences, and other virtual methods of dissemination of information and training and TA;

(ii) Develop and maintain a state-of-the-art archiving and dissemination system that is open and available to the public and that provides a central location for later use of training and TA products, including course curricula, audiovisual materials, Webinars, examples of emerging and best practices related to the topic areas in this priority, and any other training and TA products.
(c) Conduct outreach to DSAs so that they are aware of and can participate in training and TA activities.

(d) Establish a community of practice 1 that will act as a vehicle for communication, an exchange of information among DSAs and other service providers, and a forum for sharing the results of training and TA projects that are in progress or have been completed.

(e) Communicate and coordinate, on an ongoing basis, with other federally funded training and TA projects, particularly Department-funded projects and the Training and Technical Assistance grant for Centers for Independent Living supported by the Department of Health and Human Services, to ensure that training and TA activities are complementary and non-duplicative;

(f) Conduct an evaluation to determine the impact of the Center’s training and TA on the DSAs and other service providers that received the Center’s services.

Application Requirements

To be funded under this priority, applicants must meet the application and administrative requirements in this priority. RSA encourages innovative approaches to meet these requirements, which are:

(a) Demonstrate, in the narrative section of the application under “Significance of the Project,” how the proposed project will

(C) Up-to-date resources, publications, applicable laws and regulations, and other materials that may be used to supplement the module;

(D) Exercises that will provide an opportunity for application of the module’s subject matter; and

(E) A description of how participant knowledge, skills, and abilities will be measured.

(ii) A plan for how the proposed project will achieve its intended outcomes;

(iii) A plan for communicating and coordinating with key staff in DSAs and other service providers; and

(iv) A draft training module for one of the topic areas in this priority to serve as an example of how participants would be trained in that area. The module is a required attachment in the application and must include, at a minimum, the following:

(A) The goals and objectives of this training module;

(B) A specific list of what participants should know and be able to do as a result of successfully completing the module;

(C) Up-to-date resources, publications, applicable laws and regulations, and other materials that may be used to supplement the module;

(D) Exercises that will provide an opportunity for application of the module’s subject matter; and

(E) A description of how participant knowledge, skills, and abilities will be measured.

2 For the purposes of this priority, “universal, general training and technical assistance” means technical assistance and information provided to independent users through their own initiative, resulting in minimal interaction with technical assistance center staff and including one-time, invited or offered conference presentations by technical assistance center staff. This category of technical assistance also includes information or products, such as newsletters, guidebooks, or research syntheses, downloaded from the technical assistance center’s Web site by independent users. Brief communications by technical assistance center staff with recipients, either by telephone or email, are also considered universal, general technical assistance.

2 For the purposes of this priority, “targeted, specialized training and technical assistance” means technical assistance based on needs common to multiple recipients and not extensively individualized. A relationship is established between the technical assistance recipient and one or more technical assistance center staff. This category of technical assistance includes one-time, labor-intensive events, such as facilitating strategic planning or hosting regional or national conferences. It can also include episodic, less labor-intensive events that extend over a period of time, such as facilitating a series of conference calls on single or multiple topics that are designed around the needs of the recipients. Facilitating communities of practice can also be considered targeted, specialized technical assistance.

3 For the purposes of this priority, “intensive, sustained training and TA” refers to projects that are more intensive, sustained training and TA; and

(C) Its proposed methodology for providing intensive, sustained training and TA.

(iii) Its proposed approach to intensive, sustained training and TA, which must identify—

(A) Its proposed approach to identifying recipients for intensive, sustained training and TA;

(B) Its proposed approach to assessing the training and TA needs of recipients, including their ability to respond effectively to the training and TA; and

(C) Its proposed methodology for providing intensive, sustained training and TA.

3,4 For the purposes of this priority, “intensive, sustained training and TA” means training and TA services often provided on-site and requiring a stable, ongoing relationship between the TA center and the TA recipient. “TA services” are defined as negotiated series of activities designed to reach a valued outcome. This category of TA should result in changes to policy, program, practice, or operations that support increased recipient capacity or improved outcomes at one or more systems levels.

(i) Its proposed approach to universal, general training and TA; 2

(ii) Its proposed approach to targeted, specialized training and TA, 3 which must identify—

(A) The intended recipients of the products and services under this approach, including the categories of personnel that would be receiving the training and TA;

(B) Its proposed medium for providing targeted, specialized training and TA; and

(C) Its proposed methodology for determining topics for the targeted, specialized training and TA.

(iv) A draft training module for one of the topic areas in this priority to serve as an example of how participants would be trained in that area. The module is a required attachment in the application and must include, at a minimum, the following:

(D) Exercises that will provide an opportunity for application of the module’s subject matter; and

(E) A description of how participant knowledge, skills, and abilities will be measured.

5. Funding Restrictions: We reference regulations outlining funding restrictions in the Applicable Regulations section of this notice.

6. Data Universal Numbering System Number, Taxpayer Identification Number, and System for Award Management:
To do business with the Department of Education, you must—

a. Have a Data Universal Numbering System (DUNS) number and a Taxpayer Identification Number (TIN);

b. Register both your DUNS number and TIN with the System for Award Management (SAM) (formerly the Central Contractor Registry (CCR)), the Government’s primary registrant database;

c. Provide your DUNS number and TIN on your application; and

d. Maintain an active SAM registration with current information while your application is under review by the Department and, if you are awarded a grant, during the project period.

You can obtain a DUNS number from Dun and Bradstreet. A DUNS number can be created within one to two business days.

If you are a corporate entity, agency, institution, or organization, you can obtain a TIN from the Internal Revenue Service. If you are an individual, you can obtain a TIN from the Internal Revenue Service or the Social Security Administration. If you need a new TIN, please allow 2–5 weeks for your TIN to become active.

The SAM registration process can take approximately seven business days, but may take upwards of several weeks, depending on the completeness and accuracy of the data entered into the SAM database by an entity. Thus, if you think you might want to apply for Federal financial assistance under a program administered by the Department, please allow sufficient time to obtain and register your DUNS number and TIN. We strongly recommend that you register early.

Note: Once your SAM registration is active, you will need to allow 24 to 48 hours for the information to be available in Grants.gov and before you can submit an application through Grants.gov.

If you are currently registered with SAM, you may not need to make any changes. However, please make certain that the TIN associated with your DUNS number is correct. Also note that you will need to update your registration annually. This may take three or more business days.

Information about SAM is available at www.SAM.gov. To further assist you with obtaining and registering your DUNS number and TIN in SAM or updating your existing SAM account, we have prepared a SAM.gov Tip Sheet, which you can find at: http://www2.ed.gov/fund/grant/apply/sam-faqs.html.

In addition, if you are submitting your application via Grants.gov, you must (1) be designated by your organization as an Authorized Organization Representative (AOR); and (2) register yourself with Grants.gov as an AOR. Details on these steps are outlined at the following Grants.gov Web page: www.grants.gov/web/grants/register.html.

- After you electronically submit your application, you will receive from Grants.gov an automatic notification of receipt that contains a Grants.gov tracking number. (This notification indicates receipt by Grants.gov only, not receipt by the Department.) The Department then will retrieve your application from Grants.gov and send a second notification to you by email. This second notification indicates that the Department has received your application and has assigned your application a PR/Award number (an ED-specified identifier number unique to your application).
- We may request that you provide us original signatures on forms at a later date.

V. Application Review Information

1. Selection Criteria: The selection criteria for this program are from the selection criteria found in EDGAR at 34 CFR 75.210 and are listed in the application package.

2. Review and Selection Process: We remind potential applicants that in reviewing applications in any discretionary grant competition, the Secretary may consider, under 34 CFR 75.217(d)(3), the past performance of the applicant in carrying out a previous award, such as the applicant’s use of funds, achievement of project objectives, and compliance with grant conditions. The Secretary may also consider whether the applicant failed to submit a timely performance report or submitted a report of unacceptable quality.

In addition, in making a competitive grant award, the Secretary also requires various assurances including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department of Education (34 CFR 100.4, 104.5, 106.4, 108.4, and 110.23).

3. Special Conditions: Under 2 CFR 3474.10, the Secretary may impose special conditions and, in appropriate circumstances, high-risk conditions on a grant if the applicant or grantee is not financially stable; has a history of unsatisfactory performance; has a financial or other management system that does not meet the standards in 2 CFR 200, subpart D; has not fulfilled the conditions of a prior grant; or is otherwise not responsible.

VI. Award Administration Information

1. Award Notices: If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN); or we may send you an email containing a link to access an electronic version of your GAN. We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.

2. Administrative and National Policy Requirements: We identify administrative and national policy requirements in the application package and reference these and other requirements in the Applicable Regulations section of this notice.

We reference the regulations outlining the terms and conditions of an award in the Applicable Regulations section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. Reporting: (a) If you apply for a grant under this program, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the program. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to http://www2.ed.gov/print/fund/grant/apply/appforms/appforms.html.

4. Performance Measures: The Government Performance and Results Act of 1993 directs Federal departments and agencies to improve the effectiveness of their programs by engaging in strategic planning, setting outcome-related goals for programs, and measuring program results against those goals.

The goal of this grant is to provide training and TA designed to improve the operation and performance of OIB programs to eligible DSAs and other service providers that receive funding under chapter 2 of title VII of the Act, as amended by WIOA.

To assess the success of the grantee in meeting the training and TA goals of this program, the Department is in the process of developing performance measures. In general, these measures will assess the quality, relevance, and usefulness of the training and TA provided by the Center, as well as the performance of the Center in achieving the project’s intended outcomes in the specific topics in each priority area established annually by RSA in the cooperative agreement. The grantee will be required to collect and annually report data showing its performance on these measures in the
Center’s annual and final performance reports to the Department.

The annual performance report must include both quantitative and qualitative information sufficient to assess the quality, relevance, and usefulness of the training and TA provided by the Center and the progress toward training and TA objectives for that year. The data used must be valid and verifiable.

The annual performance reports must provide, at a minimum, specific information on the number of training and TA activities conducted by the Center, the topics of these activities, the type of training and TA provided (i.e., intensive, targeted, general), the number and types of participants served (i.e., DSAs or other providers of services under the OIB program), and summary data from participant evaluations.

5. Continuation Awards: In making a continuation award under 34 CFR 75.253, the Secretary considers, among other things: whether a grantee has made substantial progress in achieving the goals and objectives of the project; whether the grantee has expended funds in a manner that is consistent with its approved application and budget; and, if the Secretary has established performance measurement requirements, the performance targets in the grantee’s approved application. In making a continuation grant, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).
