### Substance Abuse and Mental Health Services Administration

#### Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

**Proposed Project: National Survey of Substance Abuse Treatment Services (N-SSATS) (OMB No. 0930-0106)—Revision**

The Substance Abuse and Mental Health Services Administration (SAMHSA) is requesting a revision of the National Survey of Substance Abuse Treatment (N-SSATS) data collection (OMB No. 0930-0106), which expires on January 31, 2016. N-SSATS provides both national and state-level data on the numbers and types of patients treated and the characteristics of facilities providing substance abuse treatment services. It is conducted under the authority of section 505 of the Public Health Service Act (42 U.S.C. 290aa-4) to meet the specific mandates for annual information about public and private substance abuse treatment providers and the clients they serve.

This request includes:

- Collection of N-SSATS, which is an annual survey of substance abuse treatment facilities; and
- Updating of the Inventory of Behavioral Health Services (I-BHS) which is the facility universe for the N-SSATS as well as the annual survey of mental health treatment facilities, the National Mental Health Services Survey (N-MHSS). The I-BHS includes all substance abuse treatment and mental health treatment facilities known to SAMHSA. (The N-MHSS data collection is covered under OMB No. 0930-0119.)

The information in I-BHS and N-SSATS is needed to assess the nature and extent of these resources, to identify gaps in services, and to provide a database for treatment referrals. Both I-BHS and N-SSATS are components of

the Behavioral Health Services Information System (BHSIS).

The request for OMB approval will include a request to update the I-BHS facility listing on a continuous basis and to conduct the N-SSATS and the between cycle N-SSATS (N-SSATS BC) in 2016, 2017, and 2018. The N-SSATS BC is a procedure for collecting services data from newly identified facilities between main cycles of the survey and will be used to improve the listing of treatment facilities in the online Behavioral Health Treatment Services Locator.

**Planned Changes**

*I-BHS:* No changes.

*N-SSATS:* The N-SSATS with client counts will continue to be conducted in alternate years, as in the past with an alternate version of the N-SSATS questionnaire that includes workforce questions as well as questions to update the Treatment Locator conducted in the interim years.

*Version B (2016 and 2018)*

The workforce questions will be conducted in even years in place of the “locator” version of N-SSATS that was completed in even years previously.

The following questions have been deleted:

Questions on religious affiliation, standard operating procedures, how (paper/electronic/both) a facility performs selected activities, questions about reporting client counts, including how the facility will complete client counts; number of facilities in client counts; names and addresses of additional facilities reported for; number of hospital inpatient client counts by category, by number under age 18, number receiving methadone,

buprenorphine, or Vivitrol®, and number of dedicated beds; number of residential client counts by category, by number under age 18, and number receiving methadone, buprenorphine, or Vivitrol®, and number of dedicated beds; number of outpatient client counts by category, by number under age 18, and number receiving methadone, buprenorphine, or Vivitrol®, and capacity indicator; type of substance abuse problem, percent of co-occurring clients; and 12-month admissions, and the National Provider Identifier (NPI).

The following questions have been added:

A new question has been added to ascertain the numbers of types of workforce staff and the average number of hours worked per week for each type of staff. Three questions, one for each of the major types of treatment (hospital inpatient, residential, and outpatient) have been added asking for an overall number of active clients on the survey reference date; the purpose is to provide an indication of size of facility for analysis of the added workforce questions. A question asking overall numbers of active clients in the facility that received methadone, buprenorphine, or Vivitrol® for detoxification or maintenance purposes has been added to aid in the analysis of the added workforce question.

*Version A (2017)*

Client counts will be conducted in odd years. The National Provider Identifier (NPI) number question has been deleted.

*N-SSATS (Between Cycles-BC):* No changes.

Estimated annual burden for the DASIS activities is shown below:

Type of respondent and activity	Number of respondents	Responses per respondent	Total responses	Hours per response	Total burden hours
<b>States:</b>					
I-BHS Online <sup>1</sup> .....	56	75	4,200	0.08	336
State Subtotal .....	56	.....	4,200	.....	336
<b>Facilities:</b>

<sup>1</sup> States use the I-BHS Online system to submit information on newly licensed/approved facilities and on changes in facility name, address, status, etc.

<sup>2</sup> New facilities complete and submit the online I-BHS application form in order to get listed on the Inventory.

## DEPARTMENT OF HOMELAND SECURITY

### U.S. Customs and Border Protection

#### Notice of Issuance of Final Determination Concerning Storage Infrastructure Solution System

**AGENCY:** U.S. Customs and Border Protection, Department of Homeland Security.

**ACTION:** Notice of final determination.

**SUMMARY:** This document provides notice that U.S. Customs and Border Protection (“CBP”) has issued a final determination concerning the country of origin of the VistA imaging tier II storage infrastructure solution (“VistA Storage Solution”) manufactured and distributed by Merlin International (“Merlin”). Based upon the facts presented, CBP has concluded that the United States will be the country of origin of the VistA Storage Solution for purposes of U.S. Government procurement.

**DATES:** The final determination was issued on July 16, 2015. A copy of the final determination is attached. Any party-at-interest, as defined in 19 CFR 177.22(d), may seek judicial review of this final determination within August 21, 2015.

**FOR FURTHER INFORMATION CONTACT:** Antonio J. Rivera, Valuation and Special Programs Branch, Regulations and Rulings, Office of International Trade (202) 325-0226.

**SUPPLEMENTARY INFORMATION:** Notice is hereby given that on July 16, 2015 pursuant to subpart B of Part 177, U.S. Customs and Border Protection Regulations (19 CFR part 177, subpart B), CBP has issued a final determination concerning the country of origin of the VistA Storage Solution manufactured and distributed by Merlin, which may be offered to the U.S. Government under an undesignated government procurement contract. This final determination, HQ H259758, was issued under procedures set forth at 19 CFR part 177, subpart B, which implements

Title III of the Trade Agreement Act of 1979, as amended (19 U.S.C. 2511–18). In the final determination CBP found that, based upon the facts presented, four U.S.-origin hardware and software components and two foreign-origin hardware and software components were integrated into one end product, the VistA Storage Solution. CBP found that assembling the hardware components together, loading the software components onto the hardware components, and configuring the software components to reach the desired storage infrastructure, which were processes that took place entirely in the United States, substantially transformed the individual components into the final product, the VistA Storage Solution. CBP noted that the majority of the components were from the United States; that the processing took place entirely in the United States; that the name, character and use of the individual components differed from the name, character and use of the final product; that the tariff classification of the foreign components changed when they were integrated into the final product; and, the cost breakdown of each component, to find that under the totality of the circumstances, the country of origin of the VistA Storage Solution will be the United States for purposes of U.S. Government procurement.

Section 177.29, CBP Regulations (19 CFR 177.29), provides that a notice of final determination shall be published in the **Federal Register** within 60 days of the date the final determination is issued. Section 177.30, CBP Regulations (19 CFR 177.30), provides that any party-at-interest, as defined in 19 CFR 177.22(d), may seek judicial review of a final determination within 30 days of publication of such determination in the **Federal Register**.

RE: U.S. Government Procurement;  
Country of Origin of Storage  
Infrastructure Solution Systems;  
Substantial Transformation

Dear Mr. Thompson:

This is in response to your letter, dated November 21, 2014, requesting a

final determination on behalf of Merlin International, Inc. (“Merlin”), pursuant to subpart B of part 177 of the U.S. Customs and Border Protection (“CBP”) Regulations (19 C.F.R. part 177). Under these regulations, which implement Title III of the Trade Agreements Act of 1979 (“TAA”), as amended (19 U.S.C. § 2511 *et seq.*), CBP issues country of origin advisory rulings and final determinations as to whether an article is or would be a product of a designated country or instrumentality for the purposes of granting waivers of certain “Buy American” restrictions in U.S. law or practice for products offered for sale to the U.S. Government.

This final determination concerns the country of origin of Merlin’s VistA Imaging Tier II Storage Infrastructure Solution (“VistA Storage Solution”). We note that Merlin is a party-at-interest within the meaning of 19 C.F.R. § 177.22(d)(1) and is entitled to request this final determination.

#### FACTS:

You describe the pertinent facts as follows. The VistA Storage Solution is a record imaging, storage, and data retrieval system produced by Merlin in accordance with its contract with the Veterans Administration (“VA”). The VistA Storage Solution at issue contains a 24 TeraByte (“TB”) storage system.<sup>1</sup> Under its contract with the VA (“VA Contract”), Merlin will install the VistA Storage Solution at 144 VA locations where Veterans Integrated Service Network (“VISN”) facilities are hosted. The VA Contract requires that each installed VistA Storage Solution (1) be networked into a single “grid” to allow access to, and automatic replication of, stored data throughout the networked system; while also (2) performing as “virtual machines” to ensure that data stored remains available in the event of any system failures. To meet these contract requirements, Merlin designed the VistA Storage Solution, assembling together three main hardware components and configuring them with three main software components, in order to provide the particular product required by the VA.

#### A. The Hardware Components

Each VistA Storage Solution will consist of at least the following hardware components: two to four Cisco UCS C240 rack-mount servers (“Cisco Servers”); one or more NetApp E2600 series Fibre Channel storage arrays

<sup>1</sup> Merlin produces other VistA Storage Solutions with the same functionality as the subject VistA Storage Solution, but with different storage capabilities that include 18, 36, 90, 120, and 180 TB storage systems.
