

*Type of Request:* Renewal of a currently approved collection.

*OMB Control Number:* 2127-0621.

*Form Number:* None.

*Abstract:* FMVSS No. 403, Platform lift systems for motor vehicles, establishes minimum performance standards for platform lifts designed for installation on motor vehicles. Its purpose is to prevent injuries and fatalities to passengers and bystanders during the operation of platform lifts that assist wheelchair users and other persons with limited mobility in entering and leaving a vehicle. FMVSS No. 404, Platform lift installations in motor vehicles, places specific requirements on vehicle manufacturers or alterers who install platform lifts in new vehicles. Under these regulations, lift manufacturers must certify that their lifts meet the requirements of FMVSS No. 403 and must declare the certification on the owner's manual insert, the installation instructions, and the lift operating instruction label. Certification of compliance with FMVSS No. 404 is on the certification label already required of vehicle manufacturers and alterers under 49 CFR part 567. Under these two safety standards, lift manufacturers must produce: An insert that is placed in the vehicle owner's manual; installation instructions; and one or two labels that are placed near the controls for operating the lift in normal mode and in back-up mode. The requirements and our estimates of burden and cost to the lift manufacturers are given below. There is no burden to the general public.

*Affected Parties:* Businesses or other for-profit entities.

*Respondents:* Platform lift manufacturers and vehicle manufacturers/alterers that install platform lifts in new motor vehicles before first vehicle sale.

*Estimated Number of Respondents:* 10.

*Frequency of Collection:* Per each production platform lift unit.

*Estimated Total Annual Burden:* Estimated burden to lift manufacturers to produce an insert for the vehicle owner's manual stating the lift's platform operating volume, maintenance schedule, and instructions regarding the lift operating procedures:

—10 manufacturers × 24 hrs. amortized over 5 yrs. = 48 hrs. per year.  
Estimated burden to lift manufacturers to produce lift installation instructions identifying the vehicles on which the lift is designed to be installed:

—10 manufacturers × 24 hrs. amortized over 5 yrs. = 48 hrs. per year.

Estimated burden to lift manufacturers to produce two labels for operating and backup lift operation:

—10 manufacturers × 48 hrs. amortized over 5 yrs. = 96 hrs. per year.

Estimated cost to lift manufacturers to produce:

—Label for operating instructions—27,398 lifts × \$0.13 per label = \$3,561.74.

—Label for backup operations—27,398 lifts × \$0.13 per label = \$3,561.74.

—Owner's manual insert—27,398 lifts × \$0.04 per page × 1 page = \$1,095.92.

—Installation instructions—27,398 lifts × \$0.04 per page × 1 page = \$1,095.92.

Although lift installation instructions are considerably more than one page, lift manufacturers already provide lift installation instructions in the normal course of business and one additional page should be adequate to allow the inclusion of FMVSS-specific information.

Total estimated annual cost = \$9,315.32.

Total estimated hour burden per year = 192 hours.

*Addressee:* Send comments regarding the burden estimate, including suggestions for reducing the burden, to the Office of Management and Budget, Attention: Desk Officer for the Office of the Secretary of Transportation, 725 17th Street NW., Washington, DC 20503.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

**SUPPLEMENTARY INFORMATION:** Under the PRA (44 U.S.C. 3501-3520), Federal agencies must obtain approval from OMB for each collection of information they conduct or sponsor. "Collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) to include agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. The definition contained in 5 CFR 1320.3(c) also includes a voluntary collection. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, the OCC is publishing, on behalf of the Agencies, a notice of the proposed collection of information set forth in this document.

In connection with issuance of the assessment entitled "FFIEC Cybersecurity Assessment Tool,"<sup>1</sup> OMB provided a six-month approval for this information collection. The OCC is proposing to extend OMB approval of the collection for the standard three years.

*Title:* FFIEC Cybersecurity Assessment Tool.

*OMB Number:* 1557-0328.

*Description:* Cyber threats have evolved and increased exponentially with greater sophistication than ever before. Financial institutions<sup>2</sup> are exposed to cyber risks because they are dependent on information technology to deliver services to consumers and businesses every day. Cyber attacks on financial institutions may not only

result in access to, and the compromise of, confidential information, but also the destruction of critical data and systems. Disruption, degradation, or unauthorized alteration of information and systems can affect an institution's operations and core processes and undermine confidence in the nation's financial services sector. Absent immediate attention to these rapidly increasing threats, financial institutions and the financial sector as a whole are at risk.

For this reason, the Agencies, under the auspices of the Federal Financial Institutions Examination Council ("FFIEC"), have accelerated efforts to assess and enhance the state of the financial industry's cyber preparedness and to close gaps in the Agencies' examination procedures and training that can strengthen the oversight of financial industry cybersecurity readiness. The Agencies also have focused on improving their abilities to provide financial institutions with resources that can assist in protecting institutions and their customers from the growing risk posed by cyber attacks.

As part of these increased efforts, the Agencies have developed a Cybersecurity Assessment Tool ("Assessment") that will assist financial institutions of all sizes in assessing their inherent cybersecurity risks and their risk management capabilities. The Assessment will allow a financial institution to identify its inherent cyber risk profile based on the financial institution's technologies and connection types, delivery channels, online/mobile products and technology services it offers, organizational characteristics, and threats it is likely to face. Once an institution identifies its inherent cyber risk profile, it will be able to use the Assessment's maturity matrix to evaluate its level of cybersecurity preparedness based on the institution's cyber risk management and oversight, threat intelligence capabilities, cybersecurity controls, external dependency management, and cyber incident management and resiliency planning. A financial institution can use the matrix's maturity levels to identify opportunities for improving the institution's cybersecurity, based on its inherent risk profile. The Assessment also will enable a financial institution to identify areas more rapidly that could improve its cybersecurity risk management and response programs, if needed. Use of the Assessment by financial institutions is not mandatory.

*Type of Review:* Regular.

*Affected Public:* Businesses or other for-profit.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on:

(a) Whether the collection of information is necessary for the proper performance of the functions of the Agencies, including whether the information has practical utility;

(b) The accuracy of the Agencies' estimates of the burden of the collection of information;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected;

(d) Ways to minimize the burden of the collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

(e) Estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

<sup>3</sup> Burden is estimated conservatively and assumes all institutions will complete the Assessment. Therefore, the estimated burden may exceed the actual burden because use of the Assessment by financial institutions is not mandatory.
