

§ 6.31 Debarment and suspension.

The provisions in 7 CFR part 3017—Government-wide Debarment and Suspension (Nonprocurement) and Government Requirements for Drug-Free Workplace (Grants), subparts A through E, apply to this subpart.

§ 6.32 Globalization of licenses.

If the Licensing Authority determines that entries of an article from a country are likely to fall short of that country's allocated amount as indicated in Appendixes 1, 2, and 3, the Licensing Authority may permit, with the approval of the Office of the United States Trade Representative, the applicable licensees to enter the remaining balance or a portion thereof from any country during that quota year. Requests for consideration of such adjustments must be submitted to the Licensing Authority no later than September 1. The Licensing Authority will obtain prior consent for such an adjustment of licenses from the government of the exporting country for quantities in accordance with the Uruguay Round commitment of the United States. No globalization requests will be considered prior to April 1 of each year.

§ 6.33 License fee.

(a) A fee will be assessed each quota year for each license to defray the Department's costs of administering the licensing system. To the extent practicable, the fee will be announced by the Licensing Authority in a notice published in the **Federal Register** no later than August 31 of the year preceding the quota year for which the fee is assessed.

(b) The license fee for each license issued is due and payable in full no later than March 15 of the year for which the license is issued. The fee for any license issued after March 15 of any quota year is due and payable in full no later than 10 days from the date of issuance of the license. Fee payments are payable to the Treasurer of the United States and shall be made solely utilizing the electronic software designated for the purpose by the Licensing Authority as provided in § 6.36(b).

(c) If the license fees for all licenses issued to a licensee are not paid by the final payment date, a hold will be placed on the use of all licenses issued to the licensee and no articles will be permitted entry under those licenses. The Licensing Authority shall send a warning by email advising the licensee that if payment is not made in accordance with § 6.36(b) and received within 10 calendar days from the date

of the email, all licenses issued to that licensee will be revoked. Where the license at issue is a historical license, this will result, pursuant to § 6.23(b), in the person's loss of historical eligibility for such license.

§ 6.34 Adjustment of appendices.

(a) Whenever a historical license (Appendix 1) is not issued to an applicant pursuant to the provisions of § 6.23, is permanently surrendered or is revoked by the Licensing Authority, the amount of such license will be transferred to Appendix 2.

(b) The cumulative annual transfers to Appendix 2 made in accordance with paragraph (a) of this section will be published by Notice in the **Federal Register** each year. If a transfer results in the addition of a new article, or an article from a country not previously listed in Appendix 2, the Licensing Authority shall afford all eligible applicants for that quota year the opportunity to apply for a license for such article.

§ 6.35 Correction of errors.

(a) If a person demonstrates, to the satisfaction of the Licensing Authority, that errors were made by officers or employees of the United States Government, the Licensing Authority will review and rectify the errors to the extent permitted under this subpart.

(b) To be considered, a person must provide sufficient documentation regarding the error to the Licensing Authority by email, not later than August 31 of the calendar year following the calendar year in which the error was alleged to have been committed.

(c) If the error resulted in the loss of a historical license by a license holder, the Licensing Authority will transfer the amount of such license from Appendix 2 to Appendix 1 in order to provide for the issuance of such license in the calendar year following the calendar year for which the license was revoked. The cumulative annual transfers to Appendix 1 in accordance with this paragraph will be published in the **Federal Register**.

§ 6.36 Miscellaneous.

(a) If any deadline date in this subpart falls on a Saturday, Sunday, or a Federal holiday, then the deadline shall be the next business day.

(b) All applications and fee payments required under this subpart shall be made utilizing the electronic software designated for this purpose by the Licensing Authority, and official correspondence with the Licensing Authority, except as provided under § 6.28(b), shall be by email. Digital

scanned versions (e.g. PDF, JPEG, TIF, etc.) of hardcopy documents submitted by email are acceptable electronic communications.

§ 6.37 [Removed]

■ 4. Section 6.37 is removed.

Appendixes 1–3 to Subpart—Dairy Tariff-Rate Import Quota Licensing [Removed]

■ 5. Appendixes 1–3 to Subpart—Dairy Tariff-Rate Import Quota Licensing are removed.

Airworthiness Directives; Various Transport Category Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: We are revising Airworthiness Directive (AD) 2012-11-09 for certain transport category airplanes. AD 2012-11-09 required either activating all chemical oxygen generators in the lavatories until the generator oxygen supply is expended, or removing the oxygen generator(s); and, for each chemical oxygen generator, after the generator is expended (or removed), removing or restowing the oxygen masks and closing the mask dispenser door. AD 2012-11-09 also required installing a supplemental oxygen system in affected lavatories, which terminated the requirements of AD 2012-11-09. This AD clarifies a certain restriction by providing a broader method of compliance. This AD was prompted by the discovery that the requirement to change the instructions for continued airworthiness under certain conditions may impose an unnecessary burden on operators. We are issuing this AD to eliminate a hazard that could jeopardize flight safety, and to ensure that all lavatories have a supplemental oxygen supply.

DATES: This AD is effective July 27, 2015.

We must receive any comments on this AD by September 10, 2015.

ADDRESSES: You may send comments, using the procedures found in 14 CFR 11.43 and 11.45, by any of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>. Follow the instructions for submitting comments.

SUPPLEMENTARY INFORMATION:

Discussion

On May 23, 2012, we issued AD 2012-11-09, Amendment 39-17072 (77 FR 38000, June 26, 2012), for certain transport category airplanes. AD 2012-11-09 superseded AD 2011-04-09, Amendment 39-16630 (76 FR 12556, March 8, 2011). AD 2012-11-09 required either activating all chemical oxygen generators in the lavatories until the generator oxygen supply is expended, or removing the oxygen generator(s); and, for each chemical oxygen generator, after the generator is expended (or removed), removing or restowing the oxygen masks and closing the mask dispenser door. AD 2012-11-

09 also required installing a supplemental oxygen system in affected lavatories, which terminated the requirements of AD 2011-04-09. AD 2012-11-09 was prompted by reports that the design of the oxygen generators presented a hazard that could jeopardize flight safety. We issued AD 2012-11-09 to eliminate a hazard that could jeopardize flight safety, and to ensure that all lavatories have a supplemental oxygen supply.

Actions Since Issuance of AD 2012-11-09, Amendment 39-17072 (77 FR 38000, June 26, 2012)

Since we issued AD 2012-11-09, Amendment 39-17072 (77 FR 38000, June 26, 2012), we have discovered that a certain requirement might have imposed an unnecessary burden on Boeing and operators. Paragraph (l)(2) of AD 2012-11-09 required adding “an airworthiness limitation that prohibits the installation of chemical oxygen generators in lavatories” to the operator’s maintenance program, if compliance with AD 2012-11-09 was shown without a chemical oxygen generator. The intent of this provision was to have a mechanism in place in the operators’ maintenance programs that prevents the inadvertent reinstallation of a chemical oxygen generator in a lavatory.

That use of the term “airworthiness limitation” could be interpreted as the Airworthiness Limitations section of the Instructions for Continued Airworthiness (ICA), as required by section 25.1529 of the Federal Aviation Regulations (14 CFR 25.1529). While that is an acceptable method of compliance, the FAA did not intend to compel that specific method of compliance. We have therefore revised paragraph (l)(2) of this AD to remove the “airworthiness limitation” restriction and to instead prohibit installation of a chemical oxygen generator in a lavatory. We are issuing this AD to correct the unsafe condition on certain transport category airplanes.

FAA’s Determination

We are issuing this AD because we evaluated all the relevant information and determined the unsafe condition described previously is likely to exist or develop in other products of these same type designs.

AD Requirements

This AD continues to require the actions specified in AD 2012-11-09, Amendment 39-17072 (77 FR 38000, June 26, 2012). This AD clarifies a certain restriction by providing a broader method of compliance.
