

Follow-Up Study, and in this request as the PISA Validation Study—will provide information about how students' skills and experiences at age 15, collected through PISA, relate to subsequent literacy, numeracy, and problem-solving skills, as well as educational attainment, education and work experiences, skills used in daily life, career intentions, and aspects of well-being. In fall 2015, when these students will be around 18 years of age, they will be asked to take the web-based version of the Organization for Economic Cooperation and Development's (OECD) Program for the International Assessment of Adult Competencies (PIAAC) assessment and background questionnaire—the Education and Skills Online (ESO). In fall 2013, students in the United States who participated in PISA 2012 and supplied contact information were contacted and invited to update their contact information in preparation for the follow-up study (OMB# 1850–0900 v.1). In March 2015, OMB approved recruitment of the PISA 2012 sample respondents who have been successfully located; administer ESO to a field test sample in the 2015; and subsequently administering ESO to a main study sample in later 2015 (OMB# 1850–0900 v.2). This submission is to add another module, the subjective well-being and health (SWBH) module, to the validation study questionnaire per OECD requirement. The SWBH module was included in the first approval for PISA Validation Study 2015 (OMB# 1850–0900 v.1) and is now being added to the final field test and main study questionnaire in the currently active PISA Validation Study 2015 record (OMB# 1850–0900 v.2).
