National Institutes of Health

Center for Scientific Review; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. App.), notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: Center for Scientific Review Special Emphasis Panel, Vascular Biology and Hematology AREA.

Date: August 17, 2015.

Time: 2:00 p.m. to 5:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, 6701 Rockledge Drive, Bethesda, MD 20892, (Virtual Meeting).

Contact Person: Larry Pinkus, Ph.D., Scientific Review Officer, Center for Scientific Review, National Institutes of Health, 6701 Rockledge Drive, Room 4132, MSC 7802, Bethesda, MD 20892, (301) 435-1214, pinkusl@csr.nih.gov.

(Catalogue of Federal Domestic Assistance Program Nos. 93.306, Comparative Medicine; 93.333, Clinical Research, 93.306, 93.333, 93.337, 93.393-93.396, 93.837-93.844, 93.846-93.878, 93.892, 93.893, National Institutes of Health, HHS)

Dated: July 22, 2015.

David Clary,

Program Analyst, Office of Federal Advisory Committee Policy.

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C.

Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Project: Data Resource Toolkit Protocol for the Crisis Counseling Assistance and Training Program (CCP)—Revision

The Substance Abuse and Mental Health Services Administration's (SAMHSA) Center for Mental Health Services (CMHS) as part of an interagency agreement with the Federal Emergency Management Agency (FEMA) provides a toolkit to be used for the purposes of collecting data on the Crisis Counseling Assistance and Training Program (CCP). The CCP provides supplemental funding to states and territories for individual and community crisis intervention services during a federal disaster.

The CCP has provided disaster mental health services to millions of disaster survivors since its inception and, as a result of 30 years of accumulated expertise, it has become an important model for federal response to a variety of catastrophic events. Recent State CCPs include programs in New Jersey and New York following 2012 Hurricane Sandy; two programs in Colorado, one related to a wildfire and the second to a flood; a program in Oklahoma in the aftermath of severe storms and tornadoes in 2013; and programs in Washington and Alaska related to flooding and mudslides in 2014. These programs have primarily addressed the short-term mental health needs of communities through (a) outreach and public education, (b) individual and group counseling, and (c) referral. Outreach and public education serve primarily to normalize reactions and to engage people who might need further care. Crisis counseling assists survivors to cope with current stress and symptoms in order to return to pre-disaster functioning. Crisis counseling relies largely on "active listening," and crisis counselors also provide psycho-education (especially about the nature of responses to trauma) and help clients build coping skills. Crisis counseling typically continues no more than a few times. Because crisis counseling is time-limited, referral is the third important functions of CCPs. Counselors are expected to refer clients to formal treatment if the person has developed more serious psychiatric problems.

Data about services delivered and users of services will be collected throughout the program period. The data will be collected via the use of a toolkit that relies on standardized forms. At the program level, the data will be entered quickly and easily into a

cumulative database to yield summary tables for quarterly and final reports for the program. Additionally, we are in the process of developing and testing the feasibility of using mobile devices for data entry purposes. Because the data will be collected in a consistent way from all programs, they can be uploaded or linked into an ongoing national database that likewise provides CMHS and FEMA with a way of producing summary reports of services provided across all programs funded.

The components of the tool kit are listed and described below:

- **Encounter logs.** These forms document all services provided. Completion of these logs is required by the crisis counselors. There are three types of encounter logs: (1) Individual/Family or Household Crisis Counseling Services Encounter Log; (2) Group Encounter Log; and (3) Weekly Tally Sheet.

- **Individual/Family or Household Crisis Counseling Services Encounter Log.** Crisis counseling is defined as an interaction that lasts at least 15 minutes and involves participant disclosure. This form is completed by the Crisis Counselor for each service recipient, defined as the person or persons who actively participated in the session (*e.g.*, by verbally participating), not someone who is merely present. The same form may be completed with other family or household members who are actively engaged in the visit. Information collected includes demographics, service characteristics, risk factors, event reactions, and referral data.

- **Group Encounter Log.** This form is used to identify either a group crisis counseling encounter or a group public education encounter. A check at the top identifies the class of activities (*i.e.*, counseling or education). Information collected includes services characteristics, group identity and characteristics, and group activities.

- **Weekly Tally Sheet.** This form documents brief educational and supportive encounters not captured on any other form. Information collected includes service characteristics, daily tallies and weekly totals for brief educational or supportive contacts, and material distribution with no or minimal interaction.

- **Assessment and Referral Tools.** This tool provides descriptive information about intense users of services either child/youth or adults, defined as all individuals receiving a third individual crisis counseling visit. This tool will be used beginning three months postdisaster and will be completed by the crisis counselor.
