Accession Number: 20150723-5110.

Comments Due: 5 p.m. ET 8/13/15.

Docket Numbers: ER15-2255-000.

Applicants: Armenia Mountain Wind, LLC.

Description: § 205(d) Rate Filing: Notice of Succession to be effective 7/24/2015.

Filed Date: 7/23/15.

Accession Number: 20150723-5129.

Comments Due: 5 p.m. ET 8/13/15.

Docket Numbers: ER15-2256-000.

Applicants: Midcontinent Independent System Operator, Inc.

Description: Compliance filing: 2015-07-23 Gas Day Order 809 Compliance Filing to be effective 11/5/2016.

Filed Date: 7/23/15.

Accession Number: 20150723-5132.

Comments Due: 5 p.m. ET 8/13/15.

The filings are accessible in the Commission's eLibrary system by clicking on the links or querying the docket number.

Any person desiring to intervene or protest in any of the above proceedings

must file in accordance with Rules 211 and 214 of the Commission's Regulations (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. Protests may be considered, but intervention is necessary to become a party to the proceeding.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: <http://www.ferc.gov/docs-filing/efiling/filing-req.pdf>. For other information, call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Dated: July 23, 2015.

Nathaniel J. Davis, Sr.,

Deputy Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9931-45-Region 6]

Clean Water Act Section 303(d): Availability of List Decisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: This notice announces the availability of The Environmental Protection Agency's (EPA) Responsiveness Summary Concerning EPA's March 10, 2015 Public Notice of Proposed Decisions to Add Waters and Pollutants to Louisiana's 2014 Section 303(d) List.

On March 10, 2015 EPA published a notice in the **Federal Register** at Volume 80, Number 46, page 12628 providing the public the opportunity to review its decision to partially approve and proposal to partially disapprove Louisiana's 2014 Section 303(d) list. Specifically, EPA approved Louisiana's listing of 279 waterbody-pollutant combinations, and associated priority rankings. EPA proposed to disapprove Louisiana's decisions not to list 43 water quality limited segments and associated pollutants constituting 93 waterbody-pollutant combinations. EPA also proposed to add these waterbody-pollutant combinations to the 2014 Section 303(d) list because applicable numeric water quality standards were not attained in these segments for one of the following parameters: Dissolved oxygen (marine criterion); turbidity; and minerals (individually or a combination of sulfates, chlorides, and/or total dissolved solids).

Based on the Responsiveness Summary, EPA finds no new information or persuasive arguments as to why the 43 water quality limited segments should not be added to the 2014 Louisiana Section 303(d) list as proposed. Therefore, EPA is taking Final Action on the addition of 43 water quality limited segments and associated 93 waterbody-pollutant combinations to the final Louisiana 2014 Section 303(d) list. The basis for these decisions is described in EPA's Decision Document for the Louisiana 2014 Section 303(d) list, available at <http://www.epa.gov/region6/water/npdes/tmdl/index.htm>.

ADDRESSES: Copies of EPA's Responsiveness Summary Concerning EPA's July 21, 2015 Public Notice of Final Decisions to Add Waters and Pollutants to Louisiana's 2014 Section 303(d) list can be obtained at EPA Region 6's Web site at <http://www.epa.gov/region6/water/npdes/tmdl/index.htm#303dlists>, or by writing or calling Evelyn Rosborough, Environmental Protection Specialist, Water Quality Protection Division, U.S. Environmental Protection Agency Region 6, 1445 Ross Ave., Dallas, TX 75202-2733, telephone (214) 665-7515, facsimile (214) 665-6490, or email: rosborough.evelyn@epa.gov. Underlying documents from the administrative record for these decisions are available for public inspection at the above address. Please contact Evelyn Rosborough to schedule an inspection.

FOR FURTHER INFORMATION CONTACT: Evelyn Rosborough at (214) 665-7515.

SUPPLEMENTARY INFORMATION: Section 303(d) of the Clean Water Act (CWA) requires that each state identify those waters for which existing technology-based pollution controls are not stringent enough to attain or maintain state water quality standards. For those waters, states are required to establish Total Maximum Daily Loads (TMDLs) according to a priority ranking.

EPA's Water Quality Planning and Management regulations include requirements related to the implementation of Section 303(d) of the CWA (40 CFR 130.7). The regulations require states to identify water quality limited waters still requiring TMDLs every two years. The list of waters still needing TMDLs must also include priority rankings and must identify the waters targeted for TMDL development during the next two years (40 CFR 130.7).

Consistent with EPA's regulations, Louisiana submitted to EPA its 2014 listing decisions under Section 303(d) on August 19, 2014. On February 26, 2015, EPA approved Louisiana's 2014

listing of 279 water body-pollutant combinations and associated priority rankings, and proposed to disapprove Louisiana's decisions not to list 43 water quality limited segments and associated pollutants constituting 93 waterbody-pollutant combinations. On July 21, 2015, EPA finalized the action to disapprove Louisiana's 2014 listing decisions not to list 43 water quality limited segments. EPA identified these additional waters for inclusion on the 2014 Section 303(d) List.

Dated: July 21, 2015.

William K. Honker,

Director, Water Quality Protection Division, Region 6.

Pesticide Cumulative Risk Assessment: Framework for Screening Analysis; Notice of Availability and Request for Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is announcing the availability of draft guidance, *Pesticide Cumulative Risk Assessment: Framework for Screening Analysis*, for public comment. This document provides guidance on how the EPA will screen groups of pesticides for cumulative evaluation using a two-step approach beginning with the evaluation of available toxicological information and if necessary followed by a risk-based screening approach. This framework supplements the existing guidance documents for establishing common mechanism groups (CMGs) and conducting cumulative risk assessments (CRA). Additionally, EPA is also seeking comments on a draft copy of the human health risk assessment where the cumulative assessment was conducted in conjunction with pending actions for abamectin.

DATES: Comments must be received on or before August 28, 2015.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2015-0422 by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI)

or other information whose disclosure is restricted by statute.

- *Mail:* OPP Docket, Environmental Protection Agency Docket Center (EPA/DC), (28221T), 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001.

- *Hand Delivery:* To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at <http://www.epa.gov/dockets/contacts.html>.

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <http://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT:

Monique Perron, Health Effects Division (7509P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001; telephone number: (703) 347-0395; email address: perron.monique@epa.gov or Don Wilbur, Health Effects Division (7509P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001; telephone number: (703) 347-8894; email address: wilbur.donald@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](http://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that

includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <http://www.epa.gov/dockets/comments.html>.

II. What action is the Agency taking?

Section 408(b)(2)(D)(v) of the Federal Food, Drug, and Cosmetic Act (FFDCA) requires EPA to take into account available evidence concerning the cumulative effects of pesticide residues and other substances that have a common mechanism of toxicity. The Office of Pesticide Programs (OPP) has previously developed two guidance documents:

- *Guidance For Identifying Pesticide Chemicals and Other Substances that have a Common Mechanism of Toxicity* (USEPA, 1999), which describes the process for CMGs;

- *Guidance on Cumulative Risk Assessment of Pesticide Chemicals That Have a Common Mechanism of Toxicity* (USEPA, 2002), which describes the steps used in conducting CRA. Copies of those two guidance documents can be found at <http://www.regulations.gov> in docket ID number EPA-HQ-OPP-2015-0422.

The process described in those documents results in a highly refined CRA but requires an extensive amount of resources, large amounts of toxicology and exposure data, and may involve sophisticated modelling. The process involves developing science policy documents that establish a CMG before conducting a highly refined CRA. To date, OPP has established five CMGs: Organophosphates (OPs), N-methyl carbamates (NMCs), chloracetanilides, triazines, and naturally occurring pyrethrins and synthetic pyrethroids. CRAs have been conducted on each group and are available at <http://www.epa.gov/oppsrrd1/cumulative/>.

The level of refinement provided by this approach is not necessary or even feasible for all existing pesticide classes. The 2002 CRA guidance notes that not all cumulative assessments need to be of the same depth and scope and that it is important to determine the need for a comprehensive risk assessment by considering the exposure profile. The 2011 World Health Organization International Programme on Chemical Safety guidance on CRA which are available at <http://www.who.int/ipcs/en>
