operational error. In addition, C2’s proposed changes to allow flexibility in setting the ATD for a particular option class or series and to grant intra-day relief in the interest of a fair and orderly market should provide the Exchange with the ability to address particular option characteristics and markets conditions. Accordingly, the Commission finds that waiving the 30-day operative delay is consistent with the protection of investors and the public interest and hereby designates the protection of investors and the proposed rule’s impact on efficiency, competition, and capital formation.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule change should be approved or disapproved.

This notice includes revisions, extensions, and one reinstatement without change of OMB-approved information collections.

2. **Statement of Household Expenses and Contributions—20 CFR 416.1130–416.1148—0960–0456.** SSA bases eligibility for Supplemental Security Income (SSI) on the needs of the recipient. In part, we assess need by determining the amount of income a recipient receives. This income includes in-kind support and maintenance in the form of food and shelter provided by others. SSA uses Form SSA–8011–F3, to determine whether the claimant or recipient receives in-kind support and maintenance. This is necessary to determine (1) the claimant or recipient’s eligibility for SSI and (2) the SSI payment amount. SSA only uses this form in cases where SSA needs the household’s (head of household) corroboration of in-kind support and maintenance. Respondents are householders of homes in which an SSI applicant or recipient resides.

**Type of Request:** Revision of an OMB-approved information collection.

3. **Integrated Registration Services (IRES) System—20 CFR 401.45—0960–0626.** The IRES System verifies the identity of individuals, businesses, organizations, entities, and government agencies seeking to use SSA’s eService Internet and telephone applications. Individuals need this verification to electronically request and exchange business data with SSA. Requestors provide SSA with the information needed to establish their identities.

Once SSA verifies identity, the IRES system issues the requestor a user identification number (User ID) and a password to conduct business with SSA. Respondents are employers and third party submitters of wage data,
