SUPPLEMENTARY INFORMATION: The United States and Chile negotiated the United States-Chile Free Trade Agreement (FTA) and United States-Chile Environmental Cooperation Agreement (ECA) in concert, signing the FTA on June 6, 2003 in Miami, U.S.A. and the ECA on June 17, 2003 in Santiago, Chile. Article 19.3 of the FTA establishes an Environment Affairs Council (Council). The Council ordinarily meets annually to discuss implementation of Chapter 19 of the FTA and its meetings include a public session. The Joint Commission on Environmental Cooperation (Commission) was established in Article II of the ECA. The Commission meets at least every two years to evaluate cooperative activities under the agreement, to recommend options for improving cooperation, and to establish programs of work that reflect national priorities and identify the scope and focus of environmental cooperation work over the coming years.

The Council and Commission last met in January 2013 in Santiago, Chile. The Council reviewed the implementation of the Environment Chapter of the FTA. The Commission signed the 2012–2014 Work Program, which built on previous successes and identified activities to achieve the long-term goals of: (1) Strengthening effective implementation and enforcement of environmental laws and regulations; (2) encouraging development and adoption of sound environmental practices and technologies, particularly in business enterprises; (3) promoting sustainable development and management of environmental resources, including wild fauna and flora, protected wild areas, and other ecologically important ecosystems; and (4) encouraging civil society participation in the environmental decision-making process and environmental education.

If you would like to attend the public session, please notify Katherine Weber and David Oliver at the email addresses listed above under the heading ADDRESSES. Please include your full name and identify any organization or group you represent. In preparing comments, we encourage submitters to refer to:

Deepwater Port License Application: Delfin LNG LLC, Delfin LNG Deepwater Port

AGENCY: Maritime Administration, Department of Transportation.
ACTION: Notice of intent; notice of public meeting; request for comments.
SUMMARY: The Maritime Administration (MARAD), in coordination with the U.S. Coast Guard (USCG), will prepare an environmental impact statement (EIS) as part of the environmental review of the Delfin LNG LLC (Delfin LNG) deepwater port license application. The application proposes the ownership, construction, operation and eventual decommissioning of an offshore liquefied natural gas (LNG) deepwater port export facility that would be located in Federal waters within the Outer Continental Shelf (OCS) West Cameron Area, West Addition Protraction Area (Gulf of Mexico), approximately 37.4 to 40.8 nautical miles off the coast of Cameron Parish, Louisiana, in water depths ranging from approximately 64 to 72 feet (19.5 to 21.9 meters). The deepwater port would consist of four semi-permanently moored floating liquefaction natural gas vessels (FLNGVs), and would reuse and repurpose two existing offshore natural gas pipelines: The former U–T Operating System (UTOS) pipeline and the High Island Operating System (HIOS) pipeline (see Summary of the Application for additional project specifics).
The onshore components of the proposed deepwater port would be located in Cameron Parish, Louisiana and would be reviewed by the Federal Energy Regulatory Commission (FERC) under a separate authorization process (see FERC; Docket No. CP15–490–000; 80 FR 30226 (May 27, 2015)). The onshore facility would consist of reactivating approximately 1.1 miles of the existing UTOS pipeline; the addition of 74,000 horsepower of new compression and associated metering and regulation facilities; the installation of new supply header pipelines (which would consist of 0.25 miles of new 42-inch pipeline to connect the former UTOS line to the new meter station); and 0.6 miles of new twin 30-inch pipelines between Transco Station 44 and the new compressor station site. Publication of this Notice of Intent (NOI) begins a 30 day scoping process that will help identify and determine
