

Release Schedule and improve Colorado River cutthroat habitat quality. The licensee requests approval of three new mitigation measures as the primary replacements for the Water Release Schedule stipulated under Condition No. 14(1) of the Commission's August 31, 2007 Order Issuing New License. Specifically, the licensee proposes to replace a culvert crossing under USFS road 30166 to improve passage of all life stages of Colorado River cutthroat trout; remove two fish passage barriers located in the West Fork of Boulder Creek to improve system connectivity with the East Fork; and install a fish trap to support a trapping and spawning operation for native Colorado River cutthroat trout to benefit the Project area and elsewhere within the local watershed populations.
