Proposed Information Collection Activity; Comment Request

Proposed Projects

Title: Disaster Information Collection Plans.

OMB No.: NEW.

Description: This request is for approval of a plan for conducting more than one information collection that is very similar, voluntary, low-burden and uncontroversial. The Information collections under this generic clearance will be activated during a disaster. These forms will be used after a disaster to develop a technical assistance plan for affected ACF programs.

Presidential Policy Directive-8 (PPD–8), which was signed into law in 2011, provides federal guidance and planning procedures under established phases—protection, preparedness, response, recovery, and mitigation. The data collection addresses response, and recovery for ACF programs with a statutory preparedness planning requirement and other programs without that requirement.

ACF/Office of Human Services Emergency Preparedness and Response (OHSEPR) has a requirement under PPD–8, the National Response Framework, and the National Disaster Recovery Framework to report impacts of disasters to ACF-supported human services programs to the HHS Secretary's Operation Center (SOC). ACF/OHSEPR works in conjunction with the Assistant Secretary for Preparedness and Response (ASPR), and the Federal Emergency Management Agency (FEMA) to ensure that impacted ACF programs are returned to their normal or close to normal operations.

The primary purpose of the information collection pertains to ACF's initiative to provide real time updates during the response and recovery phases of a disaster; the information will be used to respond to inquiries about human services response and recovery efforts, specifically for individuals, children, and families that need support from ACF programs. Further, the information collection will be used to support ACF/OHSEPR's goal to quickly identify critical gaps, resources, needs, and services to support State, local and non-profit capacity for disaster case management and to augment and build capacity where none exists.
