I. Introduction

1. Against the backdrop of the relief already granted in the *December 2014 Connect America Order*, 80 FR 4446, January 27, 2015. The Wireline Competition Bureau (Bureau) seeks to refresh the record on issues raised in various proceedings related to ETC designations and obligations in areas served by price cap carriers. In the *USF/ICC Transformation FNPRM*, 76 FR 78384, December 16, 2011, the Commission noted that ETC service obligations and funding should be "appropriately matched, while avoiding consumer disruption in access to communications services." It sought comment on how existing voice telephony service obligations for ETCs would change as funding shifts to new, more targeted mechanisms, including potentially via forbearance from the relevant requirements of section 214(e)(1). In the *April 2014 Connect America FNPRM*, 79 FR 39196, July 9, 2014, the Commission sought to develop the record further on how relieving incumbent local exchange carriers (LECs) of their ETC obligations would comport with section 214 of the Communications Act and what specific obligations incumbent LECs would be relieved of in areas where they do not receive high-cost support. In October 2014, USTelecom submitted a petition seeking, among other things, forbearance from the enforcement of section 214(e)(1)(A) where a price cap carrier receives no high-cost support. And recently the Commission released a FNPRM for the Lifeline program seeking comment on proposals for ETC relief
