The telephone number for the Docket Center is (202) 566–1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

ICR status: This ICR is for a new information collection activity.

Under PRA, 44 U.S.C. 3501 *et seq.*, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This ICR covers the information collection activities associated with Tier 2 data collection activities for certain chemicals under EPA's EDSP. The EDSP is established under section 408(p) of the Federal Food, Drug, and Cosmetic Act (FFDCA) (21 U.S.C. 346a(p)), which requires EPA to develop a chemical screening program using appropriate validated test systems and other scientifically relevant information to determine whether certain substances may have hormonal effects. The EDSP consists of a two-tiered approach to screen chemicals for potential endocrine disrupting effects. The purpose of Tier 1 screening is to identify substances that have potential bioactivity in the estrogen, androgen, or thyroid hormone systems using a battery of assays. Substances that have potential bioactivity with estrogen, androgen or thyroid hormone systems may proceed to Tier 2, which is designed to identify any adverse endocrine-related effects caused by the substance, and establish a quantitative relationship between the dose and that endocrine effect. Additional information about the EDSP is available through the Agency's Web site at <http://www.epa.gov/endo>.

This ICR addresses the information collection activities for those chemicals that were screened under Tier 1 of the EDSP and are now proceeding to testing under Tier 2 of the EDSP. The ICR covers the information collection activities associated with Tier 2 of the EDSP. As such, this ICR addresses the paperwork activities associated with generating the data requested, and submitting the data to EPA pursuant to the order.

Respondents/Affected Entities: Those individuals and companies that receive an EDSP Tier 2 order issued by the Agency. Under FFDCA section 408(p)(5)(A), EPA “shall issue” EDSP test orders “to a registrant of a substance for which testing is required . . . or to a person who manufactures or imports a substance for which testing is required.”

Respondent’s obligation to respond: FFDCA section 408(p)(5) obligates test order recipients to respond.

Estimated total number of potential respondents: 100.

Frequency of response: On occasion.

Estimated total burden: 83,116 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Estimated total costs: \$5,861,023 (per year). This primarily represents estimated labor cost, with related administrative costs of \$104. Given the nature of the activities, there are no costs estimated for capital investment or maintenance and operational costs.

Changes in the estimates: This is a request for a new approval from OMB.

Authority: 44 U.S.C. 3501 *et seq.*

Acting Director, Collection Strategies Division.

Need and Uses: In order to determine which carriers are entitled to high-cost loop support, rate-of-return incumbent local exchange carriers (LECs) must provide the National Exchange Carrier Association (NECA) with the loop cost and loop count data required by 47 CFR 54.1305 of the Commission’s rules for each of its study areas and, if applicable, for each wire center (that term is defined in 47 CFR part 54). The loop cost and loop count information is to be filed annually with NECA by July 31st of each year, and may be updated occasionally pursuant to 47 CFR 54.1306. Pursuant to section 54.1307, the information filed on July 31st of each year will be used to calculate universal service support for each study area and is filed by NECA with the Commission by October 1 of each year. An incumbent LEC is defined as a carrier that meets the definition of “incumbent local exchange carrier” in 47 CFR 51.5 of the Commission’s rules.
