#### Notice of Inventory Completion: Tennessee Valley Authority, Knoxville, TN

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

**SUMMARY:** The Tennessee Valley Authority (TVA) has completed an inventory of human remains in consultation with the appropriate federally recognized Indian tribes and has determined that there is no cultural affiliation between the human remains and any present-day federally recognized Indian tribes. Representatives of any federally recognized Indian tribe not identified in this notice that wish to request transfer of control of these human remains should submit a written request to TVA. If no additional requestors come forward, transfer of control of the human remains to the federally recognized Indian tribe stated in this notice may proceed.

**DATES:** Representatives of any federally recognized Indian tribe not identified in this notice that wish to request transfer of control of these human remains should submit a written request with information in support of the request to TVA at the address in this notice by September 4, 2015.

**ADDRESSES:** Dr. Thomas O. Maher, TVA, 400 West Summit Hill Drive, WT11D, Knoxville, TN 37902-1401, telephone (865) 632-7458, email [tomaher@tva.gov](mailto:tomaher@tva.gov).

**SUPPLEMENTARY INFORMATION:** Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains under the control and possession of TVA. The human remains were removed from site 40MI21, in Marion County, TN.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3) and 43 CFR 10.11(d). The determinations in this notice are the sole responsibility of the museum,

institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations in this notice.

#### Consultation

A detailed assessment of the human remains was made by TVA's professional staff in consultation with representatives of the Absentee Shawnee Tribe of Oklahoma; Alabama-Coushatta Tribe of Texas (previously listed as the Alabama-Coushatta Tribes of Texas); Alabama-Quassarte Tribal Town; Cherokee Nation; Eastern Band of Cherokee Indians; Eastern Shawnee Tribe of Oklahoma; Kialegee Tribal Town; Poarch Band of Creeks (previously listed as the Poarch Band of Creek Indians of Alabama); Shawnee Tribe; The Chickasaw Nation; The Muscogee (Creek) Nation of Oklahoma; The Seminole Nation of Oklahoma; Thlopthlocco Tribal Town; and the United Keetoowah Band of Cherokee Indians in Oklahoma.

#### History and Description of the Remains

Between 1964 and 1965, human remains representing, at minimum, two individuals were removed from site 40MI21, in Marion County, TN, by amateur archeologists following the building of Nickajack Dam. TVA has under its control and in its physical possession human remains from one adult male and one adult female. No known individuals were identified. No associated funerary objects are present.

Ernest A. Bachman and others removed 20 burials from site 40MI21 between 1964 and 1965 and reported on this in the *Tennessee Archaeologist* (Bachman 1966). Bachman indicated that an erosional trench was being cut through the site as a result of dredging, revealing human burials. Bachman states that some of the non-funerary ceramic artifacts were examined by the University of Tennessee and identified as representing Late Archaic (c. 3000-1000 B.C.) and Woodland (900 B.C.-A.D. 900) components.

Since no funerary objects accompanied the human remains under the control of TVA, it is not known if they were derived from the Late Archaic or the Woodland occupation. The lack of any detailed information on these human remains leads TVA to determine that they are culturally unidentifiable.

#### Determinations Made by the Tennessee Valley Authority

Officials of TVA have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice

are Native American based on their presence in prehistoric archeological contexts.

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of 2 individuals of Native American ancestry.

- Pursuant to 25 U.S.C. 3001(2), a relationship of shared group identity cannot be reasonably traced between the Native American human remains and any present-day Indian tribe.

- According to final judgments of the Indian Claims Commission or the Court of Federal Claims, the land from which the Native American human remains were removed is the aboriginal land of the Cherokee Nation, Eastern Band of Cherokee Indians, and the United Keetoowah Band of Cherokee Indians in Oklahoma.

- Pursuant to 43 CFR 10.11(c)(1)(ii), TVA has decided to transfer control of the culturally unidentifiable human remains to the Cherokee Nation, Eastern Band of Cherokee Indians, and the United Keetoowah Band of Cherokee Indians in Oklahoma.

#### Additional Requestors and Disposition

Representatives of any federally recognized Indian tribe not identified in this notice that wish to request transfer of control of these human remains should submit a written request with information in support of the request to Dr. Thomas O. Maher, TVA, 400 West Summit Hill Drive, WT11D, Knoxville, TN 37902-1401, telephone (865) 632-7458, email [tomaher@tva.gov](mailto:tomaher@tva.gov), by September 4, 2015. After that date, if no additional requestors have come forward, transfer of control of the human remains to the Cherokee Nation, Eastern Band of Cherokee Indians, and the United Keetoowah Band of Cherokee Indians in Oklahoma may proceed.

TVA is responsible for notifying the Absentee Shawnee Tribe of Oklahoma; Alabama-Coushatta Tribe of Texas (previously listed as the Alabama-Coushatta Tribes of Texas); Alabama-Quassarte Tribal Town; Cherokee Nation; Eastern Band of Cherokee Indians; Eastern Shawnee Tribe of Oklahoma; Kialegee Tribal Town; Poarch Band of Creeks (previously listed as the Poarch Band of Creek Indians of Alabama); Shawnee Tribe; The Chickasaw Nation; The Muscogee (Creek) Nation of Oklahoma; The Seminole Nation of Oklahoma; Thlopthlocco Tribal Town; and the United Keetoowah Band of Cherokee Indians in Oklahoma that this notice has been published.

Dated: June 29, 2015.

### Notice of Intent To Repatriate Cultural Items: Washington State Parks and Recreation Commission, Olympia, WA

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

**SUMMARY:** The Washington State Parks and Recreation Commission [hereafter State Parks], in consultation with lineal descendants and the appropriate Indian tribes or Native Hawaiian organizations, has determined that the cultural items listed in this notice meet the definition of unassociated funerary objects. Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to claim these cultural items should submit a written request to State Parks. If no additional claimants come forward, transfer of control of the cultural items to the lineal descendants, Indian tribes, or Native Hawaiian organizations stated in this notice may proceed.

**DATES:** Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to claim these cultural items should submit a written request with information in support of the claim to State Parks at the address in this notice by September 4, 2015.

**ADDRESSES:** Alicia Woods, Washington State Parks and Recreation Commission, P.O. Box 42650, Olympia, WA 98504-2650, telephone (360) 902.0939, email [Alicia.Woods@parks.wa.gov](mailto:Alicia.Woods@parks.wa.gov).

**SUPPLEMENTARY INFORMATION:** Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3005, of the intent to repatriate cultural items under the control of the State Parks, Olympia, WA, that meet the definition of unassociated funerary objects under 25 U.S.C. 3001.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal

agency that has control of the Native American cultural items. The National Park Service is not responsible for the determinations in this notice.

### History and Description of the Cultural Items

In 1951, 88 cultural items were removed from the archeological site 45-SP-5 in Spokane County, WA, by Louis R. Caywood with the National Park Service and under contract with State Parks. During the archeological excavation of the site, the burial location of Jacques Raphael Finlay (1768-1828, of Saulteaux-Cree (Chippewa)/Eastern Woodland (Ojibwe) and Scottish descent) was discovered and removed along with 88 documented funerary objects. In 1976, the Finlay/Finley family, spanning (at minimum) a tristate region, requested and received permission for the reburial of Mr. Finlay's remains. A detailed inventory of the collection in 2005 revealed the funerary objects had not been reburied with Mr. Finlay's remains. In 1951 at the time of excavation, a Memorandum of Agreement between the Eastern Washington State Historical Society (EWSHS, also now known as the Northwest Museum of Arts and Culture) and State Parks released custody and control of all excavated material to EWSHS. In 1976, the EWSHS deaccessioned Mr. Finlay's remains and released them to Mr. Elwood Ball of Ball and Dodd Funeral Home for reburial. In 1989, the EWSHS deaccessioned the balance of the 1951 excavated material in a transfer to State Parks. The funerary objects listed below were identified in the collection by staff at the Burke Museum of Natural History and Culture (Burke Museum) in 2005. The objects were subsequently transferred to State Parks headquarters in Olympia, WA.

The 88 unassociated funerary objects are 3 brass buttons, 2(+) fragments of cloth, 2 fragments of glass and 9 metal fragments believed to have once been a pair of spectacles, 1 bone comb fragment, 17 nails believed to have been from the burial vessel, 2 pipe bowl fragments, 5 pipe stem fragments, 1 glass bead fragment, 1 porcelain fragment, 20(+) wood fragments believed to be from the burial vessel, 1 charcoal fragment, 1 white clay fragment, 1 complete wood pipe and 20(+) particles of burned tobacco. One (1) "killed" knife with wood handle and 1 writing slate are missing from inventory. Efforts to track and recover these two items over the last four years have failed.

The site is that of Spokane House, a fur trade fort, founded and built by Mr. Finlay (an on-again, off-again employee

of the North West Company and a free/independent trader) and a colleague under the direction of David Thompson around 1809. The fort changed ownership to the Hudson's Bay Company, who, in 1825, moved their operation from Spokane House (Nisbet, 2003). Mr. Finlay first arrived in what would later become the Spokane, WA, area with a wife and children. Mr. Finlay's wife is believed to have been from a similar or close tribe to that of his mother's. At some point Mr. Finlay took one, possibly two more wives, both believed to have been Native American women, and went on to father more children. In total he appears to have had, at minimum, 15 children, although possibly as many as 19 children. He died in December of 1828, and his wife buried him at the site of Spokane House.

State Parks staff has determined the 88 unassociated funerary objects are reasonably believed to have been placed with or near Mr. Finlay at the time of his death or later as part of the death rite or ceremony. The surviving Finlay family is large (some estimates put their size at over 11,000 living in the 1990s). State Parks performed a lineal descendant search that resulted in 35 descendants that contacted State Parks and 12 lineal descendants that placed formal claims. The claimants are as follows: Dumont, Harold Tommy; Dumont-Friday, Michelle; Dumont, Monte; Childress, JuLee Lain; Childress, Michael L.; Childress, minor child #1; Childress, minor child #2; Finley, Marian; Loper, Donald; Salois, Britton; Samsel, Joan; and Trahan, Albert. State Parks has also determined there is a relationship of shared group identity that can be reasonably traced between Mr. Finlay's funerary objects and modern-day tribes. Based on a preponderance of the following evidence the objects are culturally affiliated to the modern-day tribes of the Coeur d'Alene Tribe of the Coeur d'Alene Reservation, Idaho; Confederated Salish and Kootenai Tribes of the Flathead Reservation, Montana; Confederated Tribes of the Colville Reservation, Washington; Kalispel Tribe of the Kalispel Reservation, Washington; and Spokane Tribe of the Spokane Reservation, Washington. This determination is based on ethnographic evidence that the Upper and Middle Spokane people predominantly resided in the area and utilized the resources of the site both pre and post-contact. Included in this evidence are tribal members and tribal descents that share kinship connections; shared linguistic heritage, overlapping trade networks, battle alliances, shared
