DEPARTMENT OF ENERGY

[FE Docket No. 15-62-LNG]

Texas LNG Brownsville LLC; Application for Long-Term, Multi-Contract Authorization To Export Liquefied Natural Gas to Non-Free Trade Agreement Nations for a 25-Year Period

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt of an application (Application), filed on April 15, 2015, by Texas LNG Brownsville LLC (Texas LNG), requesting long-term, multi-contract authorization to export domestically produced liquefied natural gas (LNG) in a volume equivalent to approximately 0.55 billion cubic feet per year (Bcf/d) of natural gas (200.75 Bcf per year (Bcf/yr)). On May 22, 2015, Texas LNG filed a First Amendment to the Application, increasing the requested export volume to 0.56 Bcf/d of natural gas (204.4 Bcf/yr), which it states is equivalent to 4 million metric tons per annum of LNG. Texas LNG seeks authorization to export the LNG by vessel from the proposed Texas LNG facility to be constructed at the Port of Brownsville in Brownsville, Texas, to any country with which the United States does not have a free trade agreement (FTA) requiring national treatment for trade in natural gas, and with which trade is not prohibited by

U.S. law or policy (non-FTA countries).¹ Texas LNG requests the authorization for a 25-year term to commence on the earlier of the date of first export or 10 years from the date the authorization is granted. Texas LNG seeks to export this LNG on its own behalf and as agent for other entities who hold title to the LNG at the time of export. The Application was filed under section 3 of the Natural Gas Act (NGA). Additional details can be found in Texas LNG's Application and First Amendment to the Application, posted on the DOE/FE Web site at: http://energy.gov/sites/prod/files/2015/05/f22/15_62_lng.pdf and http://energy.gov/sites/prod/files/2015/06/f22/Amendment%20to%20Application05_22_15.pdf. Protests, motions to intervene, notices of intervention, and written comments are invited.

DATES: Protests, motions to intervene or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed using procedures detailed in the Public Comment Procedures section no later than 4:30 p.m., Eastern time, October 5, 2015.

¹ In FE Docket No. 13-160-LNG, DOE/FE previously issued Order No. 3443 to Texas LNG, authorizing it to export LNG in a volume equivalent to 100 Bcf/yr of natural gas (0.27 Bcf/d) to FTA countries. Texas LNG further notes that a non-FTA export application for the same volume remains pending in that docket. See App. at 7. In the current Application, Texas LNG states that "[the] FTA authorization and non-FTA application in Docket No. 13-160-LNG shall remain in effect until the DOE/FE acts on the authorized requested in this new docket, at which time Texas LNG LLC shall request that Docket No. 13-160-LNG be novated." *Id.* Additionally, in the current Application, Texas LNG requests authorization to export LNG to any nation that currently has, or in the future may enter into, a FTA requiring national treatment for trade in natural gas, and with which trade is not prohibited by U.S. law or policy (FTA countries). DOE/FE will review that request for a FTA export authorization separately pursuant to NGA § 3(c), 15 U.S.C. 717b(c).

SUPPLEMENTARY INFORMATION:

DOE/FE Evaluation

The Application will be reviewed pursuant to section 3(a) of the NGA, 15 U.S.C. 717b(a), and DOE will consider any issues required by law or policy. To the extent determined to be relevant, these issues will include the domestic need for the natural gas proposed to be exported, the adequacy of domestic natural gas supply, U.S. energy security, and the cumulative impact of the requested authorization and any other LNG export application(s) previously approved on domestic natural gas supply and demand fundamentals. DOE may also consider other factors bearing on the public interest, including the impact of the proposed exports on the U.S. economy (including GDP, consumers, and industry), job creation, the U.S. balance of trade, and international considerations; and whether the authorization is consistent with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. Additionally, DOE will consider the following environmental documents:

- *Addendum to Environmental Review Documents Concerning Exports of Natural Gas From the United States*, 79 FR 48132 (Aug. 15, 2014); and ²
- *Life Cycle Greenhouse Gas Perspective on Exporting Liquefied Natural Gas From the United States*, 79 FR 32260 (June 4, 2014).³

Parties that may oppose this Application should address these issues in their comments and/or protests, as well as other issues deemed relevant to the Application.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*, requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No

final decision will be issued in this proceeding until DOE has met its environmental responsibilities.
