

Regulations 45.2, 45.3, 45.4, 45.5, 45.6, 45.7, and 45.14 result in information collection requirements within the meaning of the PRA. To the extent that the recordkeeping and reporting requirements codified in 17 CFR part 45 overlap with the requirements of other rulemakings for which the CFTC prepared and submitted an information collection burden estimate to OMB, the burden associated with the requirements are not being accounted for in the burden estimate for information collections under 17 CFR part 45 to avoid unnecessary duplication of information collection burdens.

Respondents/Affected Entities: SDRs, SEFs, DCMS, DCOs, SDs, MSPs, and non-SD/MSP counterparties.

Estimated number of respondents: 30,210.

Estimated total annual burden on respondents: 445,910 hours.

Title: Conflict of Interest Policies and Procedures by Swap Dealers and Major Swap Participants (OMB Control No. 3038-0079). This is a request for an extension of a currently approved information collection.

Abstract: On April 3, 2012 the Commission adopted Commission regulation 23.605 (Conflicts of interest policies and procedures)¹ under section

4s(j)(5)² of the Commodity Exchange Act (“CEA”). Commission regulation 23.605 requires, among other things, that swap dealers (“SD”)³ and major swap participants (“MSP”)⁴ adopt and implement conflicts of interest procedures and disclosures, establish written policies and procedures reasonably designed to ensure compliance with the conflicts of interest and disclosure obligations within the regulations, and maintain specified records related to those requirements.⁵ The Commission believes that the information collection obligations imposed by Commission regulation 23.605 are essential (i) to ensuring that SDs and MSPs develop and maintain the conflicts of interest systems, procedures and disclosures required by the CEA, and Commission regulations, and (ii) to the effective evaluation of these registrants’ actual compliance with the CEA and Commission regulations.

With respect to the collection of information, the CFTC invites comments on:

- Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have a practical use;
- The accuracy of the Commission’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Ways to enhance the quality, usefulness, and clarity of the information to be collected; and
- Ways to minimize the burden of collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology; *e.g.*, permitting electronic submission of responses.

SUPPLEMENTARY INFORMATION:

Title: Customer Clearing Documentation and Timing of Acceptance for Clearing (OMB Control No. 3038–0092). This is a request for extension of a currently approved information collection.

Abstract: Section 4d(c) of the Commodity Exchange Act (“CEA” or “Act”), as amended by the Dodd-Frank Act, directs the Commission to require futures commission merchants (“FCMs”) to implement conflict of interest procedures that address such issues the Commission determines to be appropriate. Similarly, section 4s(j)(5), as added by the Dodd-Frank Act, requires swap dealers (“SDs”) and major swap participants (“MSPs”) to implement conflict of interest procedures that address such issues the Commission determines to be appropriate. Section 4s(j)(5) also

requires SDs and MSPs to ensure that any persons providing clearing activities or making determinations as to accepting clearing customers are separated by appropriate informational partitions from persons whose involvement in pricing, trading, or clearing activities might bias their judgment or contravene the core principle of open access. Section 4s(j)(6) of the CEA prohibits a swap dealer and major swap participant from adopting any process or taking any action that results in any unreasonable restraint on trade or imposes any material anticompetitive burden on trading or clearing, unless necessary or appropriate to achieve the purposes of the Act. Section 2(h)(1)(B)(ii) of the CEA requires that derivatives clearing organization (“DCO”) rules provide for the non-discriminatory clearing of swaps executed bilaterally or through an unaffiliated designated contract market or swap execution facility.

Pursuant to these provisions, the Commission adopted § 1.71(d)(1) relating to FCMs and § 23.605(d)(1) relating to swap dealers and major swap participants. These regulations prohibit swap dealers and major swap participants from interfering or attempting to influence the decisions of affiliated FCMs with regard to the provision of clearing services and activities and prohibit FCMs from permitting them to do so. The Commission also adopted § 23.607 to prohibit swap dealers and major swap participants from adopting any process or taking any action that results in any unreasonable restraint on trade or imposes any material anticompetitive burden on trading or clearing, unless necessary or appropriate to achieve the purposes of the Act. The Commission adopted § 39.12(b)(2) requiring that derivatives clearing organization rules provide for the non-discriminatory clearing of swaps executed bilaterally or through an unaffiliated designated contract market or swap execution facility.

As discussed further below, the additional information collection burden arising from the proposed regulations primarily is restricted to the costs associated with the affected registrants’ obligation to maintain records related to clearing documentation between the customer and the customer’s clearing member.

The information collection obligations imposed by the regulations are necessary to implement certain provisions of the CEA, including ensuring that registrants exercise effective risk management and for the
