The bridge has a vertical clearance in the closed-to-navigation position of 13 feet above mean high water.

Under this temporary deviation, the bridge will be closed to navigation from 4 a.m. to 2 p.m., Monday through Friday; except for scheduled openings at 8:30 a.m. and 12 noon, and openings for commercial tug and barge traffic unable to transit through the bridge during a scheduled opening, if at least 3 hours notice is given. The bridge will be able to open for emergencies and there is no alternate route for vessels unable to pass through the bridge in the closed position. The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notice to Mariners of the change in operating schedule for the bridge so that vessels can arrange their transits to minimize any impacts caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.
