

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

August 5, 2015.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), *OIRA_Submission@OMB.EOP.GOV* or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to

the collection of information unless it displays a currently valid OMB control number.

Food Safety and Inspection Service

Title: Requirements to Notify FSIS of Adulterated or Misbranded Product, Prepare and Maintain Written Recall Procedures and Document Certain HACCP Reassessments.

OMB Control Number: 0583-0144.

Summary Of Collection: The Food Safety and Inspection Service (FSIS) has been delegated the authority to exercise the functions of the Secretary as provided in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601 *et seq.*) and the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451 *et seq.*). These statutes mandate that FSIS protect the public by verifying that meat and poultry products are safe, wholesome, unadulterated, and properly labeled and packaged. Section 11017 of the Food, Conservation, and Energy Act of 2008 (Pub. L No. 110-246, 112 Stat 1651, 448-49), amended the FMIA and the PPIA by adding sections 12 and 13 to the FMIA and by amending section 10 of the PPIA (21 U.S.C. 459). These sections require official establishments that believe, that product they have shipped or received, that may be misbranded or adulterated and has entered into commerce are required to notify the Secretary of Agriculture.

Need and Use of the Information: Official establishments are to document each time they reassess their HACCP plans and make the reassessments available to FSIS officials for review and copying. Official establishments are to notify the FSIS District Office that they have received or have shipped into commerce misbranded or adulterated product. The information collected will permit FSIS officials to monitor closely establishments HACCP plan reassessments and to facilitate recalls or adulterated or misbranded product.

Description of Respondents: Business or other for-profit.

Number of Respondents: 6,300.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 47,475.

Ruth Brown,

Departmental Information Collection Clearance Officer.

Animal and Plant Health Inspection Service

[Docket No. APHIS-2015-0046]

Notice of Availability of Treatment Evaluation Documents and Supplemental Environmental Assessment for Pesticide Use for the Imported Fire Ant Program

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of availability.

SUMMARY: We are advising the public that we have determined that it is necessary to add to the Plant Protection and Quarantine Treatment Manual two treatment options for use in controlling imported fire ant. We have prepared treatment evaluation documents that describe the new treatment options and provide justification as to why they are effective at neutralizing imported fire ant. In addition, we have prepared a supplemental environmental assessment to update the existing environmental assessment for imported fire ant treatments. We are making the treatment evaluation documents and the supplemental environmental assessment available for review and comment.

DATES: We will consider all comments that we receive on or before October 13, 2015.

ADDRESSES: You may submit comments by either of the following methods:

- Federal eRulemaking Portal: Go to <http://www.regulations.gov/#/docketDetail;D=APHIS-2015-0046>.
- Postal Mail/Commercial Delivery: Send your comment to Docket No. APHIS-2015-0046, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238.

Supporting documents and any comments we receive on this docket may be viewed at <http://www.regulations.gov/#/docketDetail;D=APHIS-2015-0046> or in our reading room, which is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799-7039 before coming.

FOR FURTHER INFORMATION CONTACT: Mr. Charles L. Brown, Imported Fire Ant Quarantine Policy Manager, Plant Health Programs, PPQ, APHIS, 4700 River Road Unit 39, Riverdale, MD 20737; (301) 851-2119.

SUPPLEMENTARY INFORMATION: The regulations in 7 CFR chapter III are intended, among other things, to prevent the introduction or dissemination of plant pests and noxious weeds into or within the United States. Under the regulations, certain plants, fruits, vegetables, and other articles must be treated before they may be moved into the United States or interstate. The phytosanitary treatments regulations contained in part 305 of 7 CFR chapter III (referred to below as the regulations) set out standards for treatments required in parts 301, 318, and 319 of 7 CFR chapter III for fruits, vegetables, and other articles.

Section 305.3 of the regulations sets forth a notice-based process for adding, revising, and removing the treatments from the Plant Protection and Quarantine (PPQ) ¹ Treatment Manual. In that section, paragraph (b) sets out the process for adding, revising, or removing treatment schedules when there is an immediate need to make a change. The circumstances in which an immediate need exists are described in § 305.3(b)(1).

- PPQ has determined that an approved treatment schedule is ineffective at neutralizing the targeted plant pest(s);
- PPQ has determined that, in order to neutralize the targeted plant pest(s), the treatment schedule must be administered using a different process than was previously used;
- PPQ has determined that a new treatment schedule is effective, based on efficacy data, and that ongoing trade in an article or articles may be adversely impacted unless the new treatment schedule is approved for use; or
- The use of a treatment schedule is no longer authorized by the U.S. Environmental Protection Agency or by any other Federal entity.

In order to limit the artificial spread of the imported fire ant (IFA), domestic movement of all nursery stock (containerized or balled-and-burlapped) and grass sod from IFA-infested areas of the United States to uninfested areas is regulated under 7 CFR 301.81-2. Specifically, the Animal and Plant

Health Inspection Service (APHIS) uses ant bait products in conjunction with chemical treatment to prevent the artificial spread and dissemination of IFA. The quarantine requirements involve the use of chemical treatments on commodities to insure that shipments from nurseries, sod farms, and field-growing nursery facilities are free of IFA. Changes in availability of insecticides that are effective against IFA, as well as ensuring a range of pest management options, requires APHIS to periodically evaluate new treatment options.

Currently, ant bait products are used in conjunction with the application of a chlorpyrifos (insecticide) drench treatment to prevent the artificial spread of IFA. Although effective, we have determined that it is necessary to modify the technique used to apply drench treatment to increase the effectiveness of the treatment. In addition, we are adding two options to the list of insecticidal baits that are already approved for use for IFA. The additional insecticidal baits are being added to provide a broader range of chemical treatment options and are not being proposed as additional treatments beyond what is currently required in the quarantine program. Both products have commercial uses in nurseries and will give growers additional options for the bait treatment of field grown nursery stock or for use in the imported fire ant detection, control, exclusion, and enforcement program for nurseries producing containerized plants (7 CFR 301.81-11).

Therefore, APHIS has added two additional insecticidal baits, Abamectin and Metaflumizone, to the list of chemicals already allowed in the IFA program and modified a drench treatment (Chlorpyrifos) for balled-and-burlapped nursery stock for use in control of IFA.

The reasons for these changes are further described in two treatment evaluation documents (TEDs) we have prepared to support this action. In addition, we have prepared a supplemental environmental assessment (EA) to include the human and environmental impacts that can be reasonably expected to occur as a result of the new treatment options available for controlling IFA; as described in the new treatment evaluation documents. The TEDs and supplemental EA may be viewed on the Regulations.gov Web site or in our reading room (see **ADDRESSES** above for a link to Regulations.gov and information on the location and hours of the reading room). You may also request paper copies of the TEDs and EA by calling or writing to the person listed

under **FOR FURTHER INFORMATION CONTACT**.

After the close of the comment period, APHIS will publish a notice announcing our final determination and, if appropriate, any changes we made as a result of the comments.

Authority: 7 U.S.C. 7701-7772 and 7781-7786; 21 U.S.C. 136 and 136a; 7 CFR 2.22, 2.80, and 371.3.

Done in Washington, DC, this 5th day of August 2015.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.

[Docket No. APHIS-2013-0031]

Feral Swine Damage Management Final Environmental Impact Statement; Record of Decision

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: This notice advises the public of the Animal and Plant Health Inspection Service's record of decision for the final environmental impact statement titled "Feral Swine Damage Management: A National Approach."

DATES: Effective August 11, 2015.

ADDRESSES: You may read the final environmental impact statement and the record of decision in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799-7039 before coming.

The record of decision, final environmental impact statement, and supporting information may also be found by visiting the APHIS feral swine environmental impact statement Web page at www.aphis.usda.gov/wildlife-damage/fseis. To obtain copies of the documents, contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

FOR FURTHER INFORMATION CONTACT: Dr. Kimberly Wagner, USDA-APHIS Wildlife Services, 732 Lois Drive, Sun Prairie, WI; (608) 837-2737; kimberly.k.wagner@aphis.usda.gov.

¹ The PPQ Treatment Manual is available at http://www.aphis.usda.gov/import_export/plants/manuals/index.shtml or by contacting the Animal and Plant Health Inspection Service, Plant Protection and Quarantine, Manuals Unit, 92 Thomas Johnson Drive, Suite 200, Frederick, MD 21702.
