These data are needed to determine the condition of the stocks, whether the current management measures are having the intended effects, and to evaluate the benefits and costs of changes in management measures. I. Abstract

This request is for extension of a currently approved information collection.

The Alaska Community Quota Entity (CQE) Program allocates to eligible communities a portion of the quotas for groundfish, halibut, crab, and prohibited species in the Bering Sea and Aleutian Islands Management Area (BSAI). Currently, there are 98 CQE eligible communities (45 Individual Fishing Quota (IFQ) and quota share (QS) halibut and sablefish, 32 charter halibut, and 21 License Limitation Program (LLP) communities), although only a few communities are currently participating. The allocations provide communities the means for starting or supporting commercial fisheries business activities that will result in an ongoing, regionally based, fisheries-related economy. A non-profit corporate entity that meets specific criteria to receive transferred halibut or sablefish QS on behalf of an eligible community may lease the resulting IFQ to persons who are residents of the eligible community.

Forms and applications are “fillable” on the computer screen at the NMFS Alaska Region Home Page at www.alaskafisheries.noaa.gov, and may be submitted to NMFS by mail, courier, fax, or attachment to an email.
