§ 46.6(b) requires that if changes have occurred in a miner’s regularly assigned task that affects the health and safety risks encountered by the miner, the operator must provide the miner with training that addresses the changes; § 46.8(a) requires an operator provide each miner with no less than eight (8) hours of refresher training, at least every twelve (12) months; § 46.9 requires an operator, upon completion of each training program, to record and certify on MSHA Form 5000–23 (separately cleared under control number 1219–0009) the miner has completed the training; and § 46.11(a) requires an operator to provide site-specific hazard training to specific persons before they are exposed to mine hazards. Federal Mine Safety and Health Act of 1977 sections 101(a) and 103(h) authorize this information collection. See 30 U.S.C. 811(a); 813(h).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219–0131. OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on August 31, 2015. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the Federal Register on May 11, 2015 (80 FR 26953).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the ADDRESSES section within thirty (30) days of publication of this notice in the Federal Register. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1219–0131. The OMB is particularly interested in comments that:

• Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
• Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
• Enhance the quality, utility, and clarity of the information to be collected; and
• Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

NUCLEAR REGULATORY COMMISSION

[Docket No. 72–16; NRC–2014–0154]

Virginia Electric and Power Company (Dominion): North Anna Independent Spent Fuel Storage Installation

AGENCY: Nuclear Regulatory Commission.

ACTION: License amendment application; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) reviewed an application by Virginia Electric and Power Company (Dominion) for an amendment of Special Nuclear Materials License No. SNM–2507, which authorizes Dominion to receive, possess, store, and transfer spent nuclear fuel and associated radioactive materials at the North Anna (NA) independent spent fuel storage installation (ISFSI). The requested amendment would allow the TN–32 casks to remain in their current positions subsequent to their movement during the August 23, 2011, seismic event that affected the NA ISFSI.

DATES: August 12, 2015.

ADDRESSES: Please refer to Docket ID NRC–2014–0154 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document by using any of the following methods:

SUPPLEMENTARY INFORMATION: On May 27, 2014 (ADAMS Accession No. ML14160A707), as supplemented November 7, 2014 (ADAMS Accession No. ML14317A086), Dominion submitted to the NRC a request for a license amendment in accordance with section 72.56 of Title 10 of the Code of Federal Regulations (10 CFR), “Application for amendment of license.” The requested amendment would permit the TN–32 casks to remain in their current positions subsequent to their movement during the August 23, 2011, seismic event that affected the NA ISFSI.

Pursuant to 10 CFR 72.46, the NRC has docketed, approved and issued Amendment No. 4 to Special Nuclear Materials License No. SNM–2507, held by Dominion to receive, possess, store, and transfer spent nuclear fuel and associated radioactive materials resulting from the operation of the NA power station in an ISFSI at the power plant site for a term of 20 years. Amendment No. 4 is effective as of the date of issuance.

Amendment No. 4 complies with the standards and requirements of the Atomic Energy Act of 1954 (Act), as amended, and the Commission’s rules and regulations. The Commission has made appropriate findings, as required by the Act and the Commission’s rules and regulations in 10 CFR Chapter 1, which are set forth in Amendment No. 4.

The NRC issued a letter dated July 9, 2014 (ADAMS Accession No. ML14190A179), notifying Dominion that the application was acceptable for review. In accordance with 10 CFR 72.16, a Notice of Declaration was published in the Federal Register on July 22, 2014 (79 FR 42557). The Notice
