4. *Performance Measures:* The Government Performance and Results Act of 1993 directs Federal departments and agencies to improve the effectiveness of programs by engaging in strategic planning, setting outcome-related goals for programs, and measuring program results against those goals.

The purpose of this priority is to fund a cooperative agreement to establish a Vocational Rehabilitation Workforce Innovation Technical Assistance Center to achieve, at a minimum, the following outcomes:

(a) Implementation of effective and efficient “pre-employment transition services” for students with disabilities, as set forth in section 113 of the Rehabilitation Act;

(b) Implementation by State VR agencies, in coordination with local and State educational agencies and with the Department of Labor, of the requirements in section 511 of the Rehabilitation Act that are under the purview of the Department of Education;

(c) Increased access to supported employment and customized employment services for individuals with the most significant disabilities, including youth with the most significant disabilities, receiving services under the State VR and Supported Employment programs;

(d) An increased percentage of individuals with disabilities who receive services through the State VR agency and who achieve employment outcomes in competitive integrated employment;

(e) Improved collaboration between State VR agencies and other core programs of the workforce development system; and

(f) Implementation of the new common performance accountability system under section 116 of WIOA.

The cooperative agreement will specify the short-term and long-term measures that will be used to assess the grantee’s performance against the goals and objectives of the project and the outcomes listed in the preceding paragraph.

In its annual and final performance report to the Department, the grant recipient will be expected to report the data outlined in the cooperative agreement that is needed to assess its performance.

The cooperative agreement and annual report will be reviewed by RSA and the grant recipient between the third and fourth quarter of each project period. Adjustments will be made to the

project accordingly in order to ensure demonstrated progress towards meeting the goals and outcomes of the project.

5. *Continuation Awards:* In making a continuation award under 34 CFR 75.253, the Secretary considers, among other things: Whether a grantee has made substantial progress in achieving the goals and objectives of the project; whether the grantee has expended funds in a manner that is consistent with its approved application and budget; and, if the Secretary has established performance measurement requirements, the performance targets in the grantee’s approved application. In making a continuation grant, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).
