

interested parties to comment on the *Preliminary Results*.⁴ We received none.

Scope of the Order

Imports covered by the order are shipments of certain non-egg dry pasta. The merchandise subject to review is currently classifiable under items 1901.90.90.95 and 1902.19.20 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise subject to the order is dispositive.⁵

Final Results of Changed Circumstances Review

Because no parties submitted comments on the Department's *Initiation and Preliminary Results*, and because there is no other information or evidence on the record that calls into question the *Initiation and Preliminary Results*, the Department determines that PAP SRL is the successor-in-interest to PAP SNC for the purpose of determining antidumping duty liability.

Instructions to U.S. Customs and Border Protection

As a result of this determination, we find that PAP SRL should receive the cash deposit rate previously assigned to PAP SNC in the most recently completed review of the antidumping duty order on certain pasta from Italy. Consequently, the Department will instruct U.S. Customs and Border Protection to collect estimated antidumping duties for all shipments of subject merchandise exported by PAP SRL and entered, or withdrawn from warehouse, for consumption on or after the publication date of this notice in the **Federal Register** at the current cash deposit rate for PAP SNC, which is zero.⁶ This cash deposit requirement

⁶ PAP SNC was a respondent in the 14th administrative review of the *Pasta from Italy Order* and received a deposit rate of 3.57 percent. See *Pasta from Italy: Final Results of the Fourteenth Antidumping Duty Administrative Review*, 76 FR 76937 (December 9, 2011). Preliminary Determination

We preliminarily determine the countervailable subsidy rate to be:

Company	Subsidy rate

Consistent with section 703(b)(4)(A) of the Act, we have disregarded *de minimis* rates and preliminarily determine that countervailable subsidies are not being provided with respect to the manufacture, production or exportation of the subject merchandise in Oman. Consistent with section 703(d) of the Act, the Department has not calculated an all-others rate because it has not reached an affirmative

International Trade Commission
