SUPPLEMENTARY INFORMATION:

I. Background

Cognitive assessment medical devices are intended to provide healthcare professionals with an evaluation of cognitive function through non-invasive measurements. Non-invasive brain stimulation medical devices are intended to improve, affect, or otherwise modify the cognitive function of a normal individual (*i.e.*, has no cognitive impairment) by means of non-invasive electrical or electromagnetic stimulation to the head. These medical

devices both present important safety and effectiveness questions as well as study design and data analysis challenges.

II. Topics for Discussion at the Public Workshop

The workshop seeks to involve industry and academia in addressing scientific, clinical, and regulatory considerations associated with medical devices for assessing and influencing cognitive function. By bringing together relevant stakeholders, which include scientists, patient advocates, clinicians, researchers, industry representatives, and regulators, to this workshop, we hope to facilitate the improvement of this rapidly evolving product area.

This workshop is aimed to address scientific, clinical, and regulatory considerations associated with medical devices for assessing and influencing cognitive function; including, but not limited to, the following topic areas:

- Considerations for clinical study trial designs, patient populations, and patient selection methods;
- considerations for clinical study endpoints, *e.g.*, clinically relevant outcome measures and related statistical analyses;
- identification of risks and risk mitigation strategies; and
- evaluation of prior studies, current clinical research, and available scientific and clinical evidence.

Dated: August 10, 2015.

Time allotted for each presentation may be limited. If the number of registrants requesting to speak is greater than can be reasonably accommodated during the scheduled open public hearing session, FDA may conduct a lottery to determine the speakers for the scheduled open public hearing session. The contact person will notify interested persons regarding their request to speak by October 20, 2015.

Closed Committee Deliberations: On November 4, 2015, from 4:15 p.m. to 5 p.m., the meeting will be closed to permit discussion where disclosure would constitute a clearly unwarranted invasion of personal privacy (5 U.S.C. 552b(c)(6)).
