

United States, it does not produce detachable tramways like the one used by Mountain Village. Additionally, parts for the remainder of the tramway are of a different design and are not interchangeable with those used on other gondola systems.

On Wednesday, July 22, 2015, and in accordance with 49 U.S.C. 5323(j)(3)(A), FTA published a notice in the **Federal Register** announcing the Colorado Department of Transportation Buy America waiver request made on behalf of Mountain Village (80 FR 43552), seeking comment from all interested parties, including potential vendors and suppliers. The comment period closed on August 5, 2015, and no comments were received.

Based on the representations from the Colorado Department of Transportation and the Colorado Passenger Tramway Safety Board, and the lack of any comments opposing the waiver, FTA is granting a non-availability waiver for replacement gondola components, limited to the parts procured by Mountain Village for the gondola refurbishment projects described above.

Issued on August 17, 2015.

National Highway Traffic Safety Administration

[Docket No. NHTSA-2015-0077]

Decision That Certain Nonconforming Motor Vehicles Are Eligible for Importation

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Grant of Petitions.

SUMMARY: This document announces decisions by NHTSA that certain motor vehicles not originally manufactured to comply with all applicable Federal Motor Vehicle Safety Standards (FMVSS) are eligible for importation into the United States because they are substantially similar to vehicles originally manufactured for sale in the United States and certified by their manufacturers as complying with the safety standards, and they are capable of being readily altered to conform to the standards or because they have safety features that comply with, or are capable of being altered to comply with, all applicable FMVSS.

DATES: These decisions became effective on the dates specified in Annex A.

ADDRESSES: For further information contact Mr. George Stevens, Office of Vehicle Safety Compliance, NHTSA (202-366-5308).

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable FMVSS shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and/or sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable FMVSS.

Where there is no substantially similar U.S.-certified motor vehicle, 49 U.S.C. 30141(a)(1)(B) permits a nonconforming motor vehicle to be admitted into the United States if its safety features comply with, or are capable of being altered to comply with, all applicable FMVSS based on destructive test data or such other evidence as NHTSA decides to be adequate.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

NHTSA received petitions from registered importers to decide whether the vehicles listed in Annex A to this notice are eligible for importation into the United States. To afford an opportunity for public comment, NHTSA published notice of these petitions as specified in Annex A. The reader is referred to those notices for a thorough description of the petitions.

Comments: No substantive comments were received in response to the petitions identified in Appendix A.

NHTSA Decision: Accordingly, on the basis of the foregoing, NHTSA hereby decides that each motor vehicle listed in Annex A to this notice, which was not originally manufactured to comply with all applicable FMVSS, is either substantially similar to a motor vehicle

manufactured for importation into and/or sale in the United States, and certified under 49 U.S.C. 30115, as specified in Annex A, and is capable of being readily altered to conform to all applicable FMVSS or has safety features that comply with, or are capable of being altered to comply with, all applicable Federal Motor Vehicle Safety Standards.

Vehicle Eligibility Number for Subject Vehicles: The importer of a vehicle admissible under any final decision must indicate on the form HS-7 accompanying entry the appropriate vehicle eligibility number indicating that the vehicle is eligible for entry. Vehicle eligibility numbers assigned to vehicles admissible under this decision are specified in Annex A.

Authority: 49 U.S.C. 30141(a)(1)(A), (a)(1)(B) and (b)(1); 49 CFR 593.7; delegations of authority at 49 CFR 1.95 and 501.8.

¹ In Docket No. NOR 42140, the Colorado Wheat Administrative Committee, the Colorado Association of Wheat Growers, the Colorado Wheat Research Foundation, and KCVN, LLC (collectively, the Colorado Interests) filed a complaint alleging that V&S has violated 49 U.S.C. 11101 and 10903 by removing certain track and related assets from a segment of the Towner Line over which the Board had previously permitted V&S to discontinue service. See *V&S Ry.—Discontinuance of Serv. Exemption—in Pueblo, Crowley, & Kiowa Cntys., Colo.*, AB 603 (Sub-No. 2X) (STB served June 28, 2012). This segment of the Towner Line, known as the Western Segment, extends between milepost 808.3 near Haswell, Colo., and milepost 868.5. The Board granted the joint petition of V&S and the Colorado Interests asking that the agency stay that complaint proceeding so that V&S could file for the abandonment exemption it seeks here. requirements at 49 CFR 1105.7(c) (environmental report), 49 CFR 1105.11 (transmittal letter), 49 CFR 1105.12 (newspaper publication), and 49 CFR 1152.50(d)(1) (notice to government agencies) have been met.

As a condition to this exemption, any employee adversely affected by the abandonment shall be protected under *Oregon Short Line Railroad—Abandonment Portion Goshen Branch Between Firth & Ammon, in Bingham & Bonneville Counties, Idaho*, 360 I.C.C. 91 (1979). To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10502(d) must be filed.

Provided no formal expression of intent to file an offer of financial assistance (OFA) has been received, this exemption will be effective on September 20, 2015, unless stayed pending reconsideration. Petitions to stay that do not involve environmental issues,² formal expressions of intent to file an OFA under 49 CFR

1152.27(c)(2),³ and interim trail use/rail banking requests under 49 CFR 1152.29 must be filed by August 31, 2015.

Petitions to reopen or requests for public use conditions under 49 CFR 1152.28 must be filed by September 10, 2015, with the Surface Transportation Board, 395 E Street SW., Washington, DC 20423-0001.

A copy of any petition filed with the Board should be sent to applicant's representative: Fritz R. Kahn, Fritz R. Kahn, P.C., 1919 M Street NW., 7th Floor, Washington, DC 20036.

If the verified notice contains false or misleading information, the exemption is void *ab initio*.

V&S has filed a combined environmental and historic report that addresses the effects, if any, of the abandonment on the environment and historic resources. OEA will issue an environmental assessment (EA) by August 28, 2015. Interested persons may obtain a copy of the EA by writing to OEA (Room 1100, Surface Transportation Board, Washington, DC 20423-0001) or by calling OEA at (202) 245-0305. ² The Board will grant a stay if an informed decision on environmental issues (whether raised by a party or by the Board's Office of Environmental Analysis (OEA) in its independent investigation) cannot be made before the exemption's effective date. See *Exemption of Out-of-Serv. Rail Lines*, 5 I.C.C. 2d 377 (1989). Any request for a stay should be filed as soon as possible so that the Board may take appropriate action before the exemption's effective date.

³ Each OFA must be accompanied by the filing fee, which is currently set at \$1,600. See 49 CFR 1002.2(f)(25).

Federal Information Relay Service (FIRS) at (800) 877-8339. Comments on environmental and historic preservation matters must be filed within 15 days after the EA becomes available to the public.

Environmental, historic preservation, public use, or trail use/rail banking conditions will be imposed, where appropriate, in a subsequent decision.

Pursuant to the provisions of 49 CFR 1152.29(e)(2), V&S shall file a notice of consummation with the Board to signify that it has exercised the authority granted and fully abandoned the Towner Line. If consummation has not been effected by filing of a notice of consummation by August 21, 2016, and there are no legal or regulatory barriers to consummation, the authority to abandon will automatically expire.
