

of radioactive source material. The application, reporting, recordkeeping, and third party notification requirements are necessary to permit the NRC to make a determination as to whether the possession, use, and transfer of source and byproduct material is in conformance with the Commission's regulations for protection of public health and safety.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the estimate of the burden of the information collection accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated at Rockville, Maryland, this 20th day of August 2015.

For the Nuclear Regulatory Commission.

Tremaine Donnell,

NRC Clearance Officer, Office of Information Services.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2015-0198]

Design of Structures, Components, Equipment, and Systems, and Reactor Coolant System and Connected Systems

AGENCY: Nuclear Regulatory Commission.

ACTION: Standard review plan-draft section revision; request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is soliciting public comment on the following sections in Chapter 3, "Design of Structures, Components, Equipment, and Systems Reactor Coolant System and Connected Systems," and Chapter 5, "Reactor Coolant System and Connected Systems," of NUREG-0800, "Standard Review Plan for the Review of Safety Analysis Reports for Nuclear Power Plants: LWR Edition," Section 3.2.1, "Seismic Classification," Section 3.2.2, "System Quality Group Classification," Section 3.6.2, "Determination of Rupture Locations and Dynamic Effects

Associated with the Postulated Rupture of Piping," Section 3.9.1, "Special Topics for Mechanical Components," Section 3.10, "Seismic and Dynamic Qualification of Mechanical and Electrical Equipment," Section 5.2.1.1, "Compliance with the Codes and Standards Rule," Section 5.2.1.2, "Applicable Code Cases," and Branch Technical Position (BTP) 3-4, "Applicable Code Cases."

DATES: Comments must be filed no later than October 26, 2015.

ADDRESSES: You may submit comments by any of the following methods (unless this document describes a different method for submitting comments on a specific subject):

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2015-0198. Address questions about NRC dockets to Carol Gallagher; telephone: 301-415-3463; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individual(s) listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *Mail comments to:* Cindy Bladey, Office of Administration, Mail Stop: O12-H08, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

For additional direction on accessing information and submitting comments, see "Obtaining Information and Submitting Comments" in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT:

Mark Notich, telephone: 301-415-3053; email: Mark.Notich@nrc.gov or Nishka Devaser, telephone: 301-415-5196; email: Nishka.Devaser@nrc.gov, both are staff of the Office of New Reactors, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC-2015-0198 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this action by the following methods:

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2015-0198.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/>

adams.html. To begin the search, select "ADAMS Public Documents" and then select "*Begin Web-based ADAMS Search*." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced (if it available in ADAMS) is provided the first time that a document is referenced. In addition, for the convenience of the reader, the ADAMS accession numbers are provided in a table in the section of this notice entitled, Availability of Documents.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

B. Submitting Comments

Please include Docket ID NRC-2015-0198 in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC posts all comment submissions at <http://www.regulations.gov> as well as entering the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.

II. Further Information

The NRC seeks public comment on the proposed draft revisions of Standard Review Plan (SRP) Sections 3.2.1, 3.2.2, 3.6.2, 3.9.1, 3.10, 5.2.1.1, 5.2.1.2, and BTP 3-4. These sections have been developed to assist NRC staff's review the design of structures, components, equipment, and systems, as well as assess compliance with codes, standards, and code cases for the reactor coolant system and connected systems under parts 50 and 52 of Title 10 of the

Code of Federal Regulations (10 CFR). The revisions to these SRP sections reflect no changes in staff position; rather they clarify the original intent of these SRP sections using plain language throughout in accordance with the NRC's Plain Writing Action Plan. Additionally, these revisions reflect operating experience, lessons learned, and updated guidance since the last

revision, and address the applicability of regulatory treatment of non-safety systems where appropriate. Following NRC staff's evaluation of submitted comments, the NRC intends to finalize the proposed revisions of SRP Sections 3.2.1, 3.2.2, 3.6.2, 3.9.1, 3.10, 5.2.1.1, 5.2.1.2, and BTP 3–4 in ADAMS and post them on the NRC's public Web site at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr0800/>.

III. Availability of Documents

The ADAMS accession numbers for the current revisions, proposed draft revisions, and redline strikeouts comparing current revisions and the proposed revisions of individual sections are available in ADAMS under the following accession numbers:

SRP Section	Current revision ADAMS accession No.	Proposed revision ADAMS accession No.	Redline ADAMS accession No.
Section 3.2.1, "Seismic Classification"	Revision 2 (ML063190002) ...	Revision 3 (ML14227A643) ...	ML14198A162
Section 3.2.2, "System Quality Group Classification"	Revision 2 (ML063190003) ...	Revision 3 (ML14227A641) ...	ML14198A145
Section 3.6.2, "Determination of Rupture Locations and Dynamic Effects Associated with the Postulated Rupture of Piping".	Revision 2 (ML070660494) ...	Revision 3 (ML14230A035) ...	ML14198A166
Section 3.9.1, "Special Topics for Mechanical Components"	Revision 3 (ML070430402) ...	Revision 4 (ML14227A637) ...	ML14198A150
Section 3.10, "Seismic and Dynamic Qualification of Mechanical and Electrical Equipment".	Revision 3 (ML070720037) ...	Revision 4 (ML14227A631) ...	ML14198A171
Section 5.2.1.1, "Compliance with the Codes and Standards Rule, 10 CFR 50.55a".	Revision 3 (ML070040003) ...	Revision 4 (ML14227A623) ...	ML14198A155
Section 5.2.1.2, "Applicable Code Cases"	Revision 3 (ML070040004) ...	Revision 4 (ML14227A659) ...	ML14198A172
Branch Technical Position 3–4, "Applicable Code Cases"	Revision 2 (ML070800008) ...	Revision 3 (ML14227A646) ...	ML14198A126

IV. Backfitting and Issue Finality

Issuance of these draft SRP sections does not constitute backfitting as defined in 10 CFR 50.109, nor is it inconsistent with any of the issue finality provisions in 10 CFR part 52. These draft SRP sections do not contain any new requirements for COL applicants or holders under 10 CFR part 52, or for licensees of existing operating units licensed under 10 CFR part 50. Rather, it contains additional draft guidance and clarification on staff review of Preliminary Amendment Requests.

The NRC staff does not intend to impose or apply the positions described in the draft SRP to existing licenses and regulatory approvals. Hence, the issuance of a final SRP—even if considered guidance within the purview of the issue finality provisions in 10 CFR part 52—would not need to be evaluated as if it were a backfit or as being inconsistent with issue finality provisions. If, in the future, the NRC staff seeks to impose a position in the SRP on holders of already issued licenses in a manner that does not provide issue finality as described in the applicable issue finality provision, then the staff must make the showing as set forth in the Backfit Rule or address the criteria for avoiding issue finality as described in the applicable issue finality provision.

The NRC staff does not, at this time, intend to impose the positions represented in the draft SRP sections in a manner that is inconsistent with any

issue finality provisions. If, in the future, the staff seeks to impose a position in the draft SRP in a manner that does not provide issue finality as described in the applicable issue finality provision, then the staff must address the criteria for avoiding issue finality as described in the applicable issue finality provision.

Dated at Rockville, Maryland, this 14th day of August, 2015.

For the Nuclear Regulatory Commission.

Joseph Colaccino,
Chief, New Reactor Rulemaking and Guidance Branch, Division of Advanced Reactors and Rulemaking, Office of New Reactors.

BILLING CODE 7590-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–75739; File No. SR–NASDAQ–2015–101]

Self-Regulatory Organizations; The NASDAQ Stock Market LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend Chapter XV, Section 3 Entitled "NASDAQ Options Market—Access Services"

August 19, 2015.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b–4 thereunder,²

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b–4.

notice is hereby given that, on August 13, 2015, The NASDAQ Stock Market LLC ("NASDAQ" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to waive SQF Port³ Fees under certain circumstances for NASDAQ members using the NASDAQ Options Market ("NOM"), NASDAQ's facility for executing and routing standardized equity and index options.

The text of the proposed rule change is available on the Exchange's Web site at <http://nasdaq.cchwallstreet.com>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

³ SQF ports are ports that receive inbound quotes at any time within that month. The SQF Port allows a NOM Participant to access information such as execution reports and other relevant data through a single feed. For example, this data would show which symbols are trading on NOM and the current state of an options symbol (i.e., open for trading, trading, halted or closed). Auction notifications and execution reports are also available. NOM Market Makers rely on data available through the SQF Port to provide them the necessary information to perform market making activities.
