

that are free of any defects or viruses. Documents should not contain special characters or any form of encryption and, if possible, they should carry the electronic signature of the author.

Campaign form letters. Please submit campaign form letters by the originating organization in batches of between 50 to 500 form letters per PDF or as one form letter with a list of supporters' names compiled into one or more PDFs. This reduces comment processing and posting time.

Confidential Business Information. Pursuant to 10 CFR 1004.11, any person submitting information that he or she believes to be confidential and exempt by law from public disclosure should submit via email, postal mail, or hand delivery/courier two well-marked copies: one copy of the document marked "confidential" including all the information believed to be confidential, and one copy of the document marked "non-confidential" with the information believed to be confidential deleted. Submit these documents via email or on a CD, if feasible. DOE will make its own determination about the confidential status of the information and treat it according to its determination.

Factors of interest to DOE when evaluating requests to treat submitted information as confidential include: (1) A description of the items; (2) whether and why such items are customarily treated as confidential within the industry; (3) whether the information is generally known by or available from other sources; (4) whether the information has previously been made available to others without obligation concerning its confidentiality; (5) an explanation of the competitive injury to the submitting person that would result from public disclosure; (6) when such information might lose its confidential character due to the passage of time; and (7) why disclosure of the information would be contrary to the public interest.

It is DOE's policy that all comments may be included in the public docket, without change and as received, including any personal information provided in the comments (except information deemed to be exempt from public disclosure).

V. Approval of the Office of the Secretary

The Secretary of Energy has approved publication of this NODA.

Issued in Washington, DC, on August 21, 2015.

Kathleen B. Hogan,

Deputy Assistant Secretary for Energy Efficiency, Energy Efficiency and Renewable Energy.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

10 CFR Part 431

[Docket Number EERE-2014-BT-STD-0027]

RIN 1904-AD31

Energy Conservation Program for Consumer Products: Energy Conservation Standards for Commercial Prerinse Spray Valves

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Extension of public comment period.

SUMMARY: This document announces an extension of the time period for submitting comments, data, and information concerning the notice of proposed rulemaking for commercial prerinse spray valves, published on July 9, 2015. The comment period is extended to September 22, 2015.

DATES: The comment period for the notice of proposed rulemaking for commercial prerinse spray valves, published on July 9, 2015 (80 FR 39486) is extended to September 22, 2015.

ADDRESSES: Interested persons may submit comments by any of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

- *Email:* SprayValves20104STD0027@ee.doe.gov. Include EERE-2014-BT-STD-0027 and/or regulation identifier number (RIN) 1904-AD31 in the subject line of the message. All comments should clearly identify the name, address, and, if appropriate, organization of the commenter. Submit electronic comments in WordPerfect, Microsoft Word, portable data format (PDF), or American Standard Code for Information Interchange (ASCII) file format, and avoid the use of special characters or any form of encryption.

- *Mail:* Ms. Brenda Edwards, U.S. Department of Energy, Building Technologies Office, Mailstop EE-5B, Notice of Proposed Rulemaking for Commercial Prerinse Spray Valves, EERE-2014-BT-STD-0027 and/or RIN

1904-AD31, 1000 Independence Avenue SW., Washington, DC 20585-0121. Phone: (202) 586-2945. If possible, please submit all items on a compact disc (CD), in which case it is not necessary to include printed copies. (Please note that comments sent by mail are often delayed and may be damaged by mail screening processes.)

- *Hand Delivery/Courier:* Ms. Brenda Edwards, U.S. Department of Energy, Building Technologies Office, 6th Floor, 950 L'Enfant Plaza SW., Washington, DC 20024. Phone: (202) 586-2945. If possible, please submit all items on a CD, in which case it is not necessary to include printed copies.

All submissions received must include docket number EERE-2014-BT-STD-0027 and/or regulatory identification number (RIN) 1904-AD31.

Docket: The docket is available for review at <http://www.regulations.gov>, and will include **Federal Register** notices, framework document, notice of proposed rulemaking, public meeting attendee lists and transcripts, comments, and other supporting documents/materials throughout the rulemaking process. The [regulations.gov](http://www.regulations.gov) Web page contains simple instructions about how to access all documents, including public comments, in the docket. The docket can be accessed by searching for docket number EERE-2014-BT-STD-0027 on the [regulations.gov](http://www.regulations.gov) Web site. All documents in the docket are listed in the <http://www.regulations.gov> index. However, not all documents listed in the index may be publicly available, such as information that is exempt from public disclosure.

FOR FURTHER INFORMATION CONTACT: Mr. James Raba, U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, Building Technologies Office, EE-5B, 1000 Independence Avenue SW., Washington, DC 20585-0121. Telephone: (202) 586-8654. Email: commercial_pre-rinse-spray_valves@ee.doe.gov.

In the Office of General Counsel, contact Mr. Peter Cochran, U.S. Department of Energy, Office of the General Counsel, GC-33, 1000 Independence Avenue SW., Washington, DC 20585-0121. Telephone: (202) 586-9496. Email: Peter.Cochran@hq.doe.gov.

SUPPLEMENTARY INFORMATION: On July 9, 2015, the U.S. Department of Energy (DOE) published a document in the **Federal Register** proposing amended energy conservation standards for commercial prerinse spray valves. The

document also announced a public meeting to receive comment about the proposed standards and associated analyses and results. 80 FR 39486. The document provided for the submission of written comments by September 8, 2015, and oral comments were also accepted at a public meeting held on July 28, 2015.

The Plumbing Manufacturers International requested, by letter dated August 13, 2015, an extension of the public comment period for the proposed rulemaking, in view of the scope of the proposed rulemaking, technical nature, and amount of data requested.

DOE has determined that an extension of the public comment period for the notice of proposed rulemaking is appropriate to allow interested parties additional time to submit comments for DOE's consideration. Thus, DOE is extending the comment period by 15 days. DOE will consider any comments received prior to September 23, 2015, to be timely submitted.

Issued in Washington, DC, on August 21, 2015.

Kathleen B. Hogan,

Deputy Assistant Secretary for Energy Efficiency and Renewable Energy.

[Docket No. FAA-2013-0627; Directorate Identifier 2012-NM-021-AD]

RIN 2120-AA64

Airworthiness Directives; BAE Systems (Operations) Limited Airplanes

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Proposed rule; withdrawal.

SUMMARY: The FAA withdraws a notice of proposed rulemaking (NPRM) that proposed a new airworthiness directive (AD), which would have applied to all BAE Systems (Operations) Limited Model BAe 146 series airplanes and Model Avro 146-RJ series airplanes. The NPRM would have superseded AD 2011-24-06 and required revising the maintenance program to incorporate new airworthiness limitations for reduced safe life limits on certain nose landing gear fittings. Since the NPRM was issued, we have received new data indicating that the airworthiness

limitations contained in section 5 of the aircraft maintenance manual has been revised to include additional tasks and limitations. Accordingly, the NPRM is withdrawn.

DATES: As of August 28, 2015, the proposed rule, which was published in the **Federal Register** on July 24, 2013 (78 FR 44469), is withdrawn.

ADDRESSES: You may examine the AD docket on the Internet at <http://www.regulations.gov> by searching for and locating Docket No. FAA-2013-0627; or in person at the Docket Management Facility between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this AD action, the NPRM (78 FR 44469, July 24, 2013), the regulatory evaluation, any comments received, and other information. The address for the Docket Office (telephone 800-647-5527) is the Docket Management Facility, U.S. Department of Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590.

FOR FURTHER INFORMATION CONTACT: Todd Thompson, Aerospace Engineer, International Branch, ANM-116, Transport Airplane Directorate, FAA, 1601 Lind Avenue SW., Renton, WA 98057-3356; telephone 425-227-1175; fax 425-227-1149.

SUPPLEMENTARY INFORMATION:

Discussion

We proposed to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) with a notice of proposed rulemaking (NPRM) for a new AD for all BAE Systems (Operations) Limited Model BAe 146 series airplanes and Model Avro 146-RJ series airplanes. The NPRM published in the **Federal Register** on July 24, 2013 (78 FR 44469). The NPRM would have superseded AD 2011-24-06, Amendment 39-16870 (76 FR 73477, November 29, 2011). The NPRM would have continued to require existing limitations and would have required revising the maintenance program to incorporate the following limitations:

- Subject 05-10-15, "Aircraft Equipment Airworthiness Limitations," of Chapter 05, "Time Limits/Maintenance Checks," of BAe 146 Series/AVRO 146-RJ Series Aircraft Maintenance Manual, Revision 105, dated July 15, 2011.

- Subject 05-20-02, "Airframe Scheduled Maintenance—Landing/Calendar Life Extended," of Chapter 05, "Time Limits/Maintenance Checks," of BAe 146 Series/AVRO 146-RJ Series

Aircraft Maintenance Manual, Revision 105, dated July 15, 2011.

- Subject 05-20-05, "Airframe Scheduled Maintenance—Life Extension Programme Landings Life Extended," of Chapter 05, "Time Limits/Maintenance Checks," of BAe 146 Series/AVRO 146-RJ Series Aircraft Maintenance Manual, Revision 105, dated July 15, 2011.

The NPRM was prompted by a determination that reduced safe life limits on certain nose landing gear NLG fittings were necessary. Analysis of these fittings showed the presence of forging indications in the flash line, which could reduce the life limits of these fittings. The proposed actions were intended to prevent fatigue cracking of certain structural elements, which could adversely affect the structural integrity of the airplane.

Actions Since NPRM (78 FR 44469, July 24, 2013) Was Issued

Since we issued the NPRM (78 FR 44469, July 24, 2014), BAE Systems (Operations) Limited has revised Chapter 05, "Time Limits/Maintenance Checks," of the BAe 146 Series/AVRO 146-RJ Series Aircraft Maintenance Manual (AMM). Therefore, the NPRM proposal to incorporate new airworthiness limitations with reduced safe life limits on certain nose landing gear fittings contained in a previous issue of the AMM are no longer relevant.

FAA's Conclusions

Upon further consideration, we have determined that the changes to the AMM proposed in the NPRM (78 FR 44469, July 24, 2013) are no longer relevant and there is no benefit to proceeding with the publication of a final rule. Accordingly, the NPRM is withdrawn. The FAA is considering issuing a different rulemaking action to require implementation of the current revision of BAE Systems (Operations) Limited Chapter 05, "Time Limits/Maintenance Checks," of the BAe 146 Series/AVRO 146-RJ Series AMM.

Withdrawal of the NPRM (78 FR 44469, July 24, 2013) does not preclude the FAA from issuing another related action or commit the FAA to any course of action in the future.

Regulatory Impact

Since this action only withdraws an NPRM (78 FR 44469, July 24, 2013), it is neither a proposed nor a final rule and therefore is not covered under Executive Order 12866, the Regulatory Flexibility Act, or DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979).
